

ROYAL TONIC

Vinol Will Invigorate And Strengthen Quickly.

We Endorse and Guarantee It.

We sell many tonics. We have demands for many so-called strength creators. We handle all kinds of remedies that claim to be invigorators. We do this because we are druggists, and it is our business to supply the public with that which they want.

When our advice is asked, however, as to a tonic and a restorer, strength creator and an appetite producer, we invariably recommend Vinol. We do this because we know all about Vinol. We know all that it contains. We have sold enormous quantities of it, and we have had every opportunity offered us to watch the results that have been accomplished by the use of this wonderful restorative.

If you have not yet had occasion to use such a tonic we would like to have you call on us, and learn why we are so enthusiastic about this scientific remedy. Vinol contains all the curative principles in a highly concentrated state that are found in cod liver oil. It does not contain, however, any of the obnoxious, digestion destroying grease that always proved to be such a drawback to what otherwise would have been a most valuable remedy. We wish you would remember Vinol, and bear in mind that as a blood enricher and flesh creator and as a wonderful aid to digestion, we know of nothing that will compare with it.

Mrs. M. L. Perkins, Bangor, Maine, says: "I have only taken one bottle of Vinol. I, therefore, am not in a position to know the full extent of its beneficial action, but this one bottle has convinced me that Vinol is a marvelous tonic. While ill this winter with grippe, a friend told me about Vinol, and recommended it so highly that I procured a bottle. It benefited me wonderfully, and I believe that it possesses splendid building up properties. The little I have taken of it has convinced me that in my case it is most excellent."

We endorse Vinol. We guarantee its action. Such is our faith in it that we will gladly refund to anyone who is not satisfied the price they have paid for it.

FORT WAYNE, IND

FINDLAY RAILWAY

RUMOR THAT THE FORT WAYNE TERMINAL WILL CHANGE.

TRANSFERRED TO WABASH

THE LATTER'S YARD MEN WILL HANDLE TRAINS.

IMPORTANT DEAL BREWING

ILLINOIS CENTRAL SAID TO WANT THE C. & D.

The Cincinnati papers yesterday stated that the Cincinnati, Hamilton and Dayton company has made arrangements with the Wabash company, whereby the latter will have charge of the terminal work of the Findlay, Fort Wayne and Western road in Fort Wayne. This means that the work of handling the freight, selling tickets, making up trains, doing light car and locomotive repair work, which is now performed by the Pennsylvania, will be performed by the Wabash employees. The Sentinel reporter made inquiries at the Pennsylvania and the Wabash offices this morning concerning the matter, but no information upon that question had been received there. Well informed men believe that the actual transfer of the property will not take place for some weeks, possibly not before the 1st of January, as an inventory will be taken of the rolling stock and other property, which has not yet commenced. If the several rumors concerning railway deals are correct the sale of the Findlay to the Cincinnati, Hamilton and Dayton is only a step towards some other transaction which in the amount of property involved will make the Findlay sale appear as a very insignificant transaction. The Indianapolis Journal says this morning: "A gentleman who is in close touch with the Woodford syndicate, which owns the Cincinnati, Hamilton and Dayton and through it the Decatur, Indiana and Western, remarked yesterday that much has been said of late concerning the future of the Cincinnati, Hamilton and Dayton and its allied lines. Several interests have been named as figuring to secure control of the property, and it is understood that the Woodford syndicate will part with the road whenever its price is offered. At present it is yielding handsome results to the owners and there is no necessity for selling unless at the price the property is worth. As yet, he states, the company that is likely to secure the road eventually has not been mentioned, it being the Illinois Central. Several times of late parties representing the Illinois Central have had conferences with the Woodford people. The Illinois Central people admit that they are anxious to get into Indianapolis and Cincinnati, as the C. & H. and D. would give a short line between the cities named and the northwest and open new traffic, if they could control it, to all parts of the Illinois Central system, and would be of great advantage to that company. The only thing that has prevented the deal going through is that the Illinois Central does not know what to do with the road north from Hamilton to Toledo, as it could not be operated to any great advantage by the Illinois Central. Possibly the Cincinnati, Hamilton and Dayton's getting extensions in the north may solve the problem and the Woodford syndicate may sell in such case the Indiana, Decatur and Western and the Indianapolis division of the Cincinnati Hamilton and Dayton to the Illinois Central. 'At any rate,' said the gentleman quoted, 'my opinion is, and I have good basis for it, that some arrangement will be effected by which the Illinois Central can get into Indianapolis and Cincinnati over the route above mentioned.'"

STEAM AND

GAS FITTERS,

48 E. MAIN ST.,

FORT WAYNE, IND

engine in Chicago yesterday. It was the death he had often told his friends he hoped for—coming upon him when his hand was still on the throttle. Sprath's engine had barely cleared into a siding when a fast passenger train whizzed past on the main track and it is supposed that the fright at his narrow escape acted fatally on his heart, which was weak. The fireman, seeing the engine fall, stopped the locomotive. Sprath was sixty years of age and is said to have been worth \$70,000. He had no family, so far as was known by his associates. He had lived frugally and invested his savings carefully.

FOUND A BIG METEOR.

One of the big steam shovels employed in grading for the double track of the Pittsburgh unearthed a large meteoric stone a few days ago at Broken Sword bridge, near Nevada, Ohio. The stone is white flint and weighs about three tons. It fell where it was found by the graders last week in the summer of 1892, when the graders were at work in building the Ohio and Indiana road, now the Pittsburgh, and buried itself in the earth. Tony Kelker, the engineer, was then working with the graders and remembers the circumstance well. The incident was the chief talk of the neighborhood for several weeks and many people went to Nevada to locate the meteor, but were never able to find it.

OVER 2,000 MEN AT WORK.

An army of men and teams, possibly over 2,000 of the former, are busily at work grading for the second track and putting down the rails in the vicinity of Dunkirk, Ohio, where 35 miles is to be completed this fall and winter. Three steam shovels are employed there and it is said that records in the way of handling earth are being smashed nearly every day. The bridge across Broken Sword river, which is being built by Contractor H. W. Tapp, will be the largest solid stone arch bridge west of Pittsburgh.

ALL DOING WELL.

There are eight patients in the St. Joseph hospital under the care of Dr. Stemen who received injuries at the Pittsburgh shops or on the road and all are doing well. Included in the number is Samuel Current, the switch tender at the east yards, who came near being killed Monday.

THANKSGIVING RATES.

All the Fort Wayne lines will make special rates for the Thanksgiving day travel, covering a distance of 150 miles from this city. Tickets will be placed on sale on Wednesday and Thursday, Nov. 27 and 28, the return limit being Friday, Nov. 29. The rate will be one and one-third fare for the round trip.

OLD DETECTIVE DEAD.

Philadelphia, Pa., Nov. 20.—John J. O'Brien, for many years chief of the Reading railway company's detective department, is dead at his home in this city. He was known in police circles all over the country.

HIRED SOME MORE MEN.

Foreman Hugh Hogan, of the Pennsylvania machine shop, added three names to his list of mechanics this morning. Charles J. Magers, late of the Wabash shops; James Conroy, late of Hanna & Brackenridge's shop, and E. F. Krebs, who worked awhile in the wagon works, are the new employees. Mr. Conroy worked in the Pittsburgh shops before he went to the Hanna-Brackenridge factory.

BECOMES A SWITCH TENDER.

Henry F. Reiter, the caller of Pennsylvania train crews, has been temporarily assigned to the east yards to take charge of the switches in place of Samuel Current, who was so badly injured Monday night. Mr. Reiter calls crews only when there is no demand for his services on the road as a baggageman. He is an "extra" in that line of work.

SHIPPING DYNAMOS.

For the next week there will be busy times in the shipping department at the Electric works. Yesterday the works sent a 10-horse power motor to the Gazette company, Xenia, O., and today a 20-horse power motor left the works for Pocahontas, Va., and an 1,000-light dynamo, with transformers, meters and station equipment, for Sandstone, Minn., left the works. The dynamos for several plants are being put in shape for shipment later in the week.

INDUSTRIAL NOTES.

Supt. D. F. Crawford, of the Pennsylvania, is in Pittsburgh on railway business today.

Caller F. Cole, of the Pittsburgh, resumed day work this morning, after being on the night trick two weeks.

Henry Biokness, of the blacksmith shop, and Peter Ribbe, of the boiler

shop, resumed work this morning, after a few days' illness.

Engineer J. H. Petgen, of the Grand Rapids and Indiana road, is suffering from an attack of rheumatism and is unable to work.

Passenger Fireman D. H. Monahan, of the Pittsburgh, is visiting his wife in Chicago. They will soon make this city their home.

Engineer and Mrs. R. H. Craig went to Columbia City this morning to spend a day or two with relatives. Mr. Craig works on the Pittsburgh road.

Pittsburg Brakemen C. L. Ward and A. J. Clark resumed work on the road this morning. Brakeman E. Bierce is off duty to look after private business.

Vice President and General Manager J. Kruttschnitt, of the Southern Pacific road, will pass through the city this afternoon, on Pennsylvania train No. 20, riding in his private car.

Road Foreman of Engines Ed McDonald, of the Logansport division of the Panhandle lines, has completed arrangements for removing his family to Logansport, his official headquarters.

S. Clemm, a round house employee, at the Pittsburgh, stepped into the turn table pit Monday night and sustained some painful bruises and a sprained wrist. He will not be able to work for awhile.

William Koontz and Hamilton Shelby, Pennsylvania employees, have gone to the Wisconsin forests to hunt deer. They are experienced nimrods and good results are expected from the trip.

Calvin Castle, for a number of years employed as a car wheel moulder at the Bass foundry, resigned that position last week to take a position in the Bowser oil tank shop, where the work is not so heavy.

Fred Hilgemann, who had an ankle badly sprained two or three weeks ago at the Electric works, is improving slowly and will probably be able to resume work in ten days. He called at the Electric works yesterday to see his friends.

J. W. McCoy, late erecting foreman at the Wabash shops, has returned from a pleasure trip in the east. The readers will remember that Mr. McCoy resigned his position by letter while in the east. He will accept employment elsewhere.

Dr. J. M. Brown, medical examiner at Grand Rapids for the Pennsylvania Voluntary Relief association, was in the city in a business way over night. Dr. Brown was stationed at Fort Wayne about a year ago and has a number of acquaintances and friends here.

Dispatcher L. L. Bart, of the Nickel Plate, has returned to the city, after a two or three weeks' visit with relatives in Ohio. He is improved in health, but will not report for duty for several days yet, hoping to receive still further benefit from the rest.

Bayless S. Hedges, the well known Pennsylvania engineer, has been transferred from the road service to the round house at his own request. He has been in poor health for some months and believes the change will give him an opportunity to recover his health.

John Uobethoer, of the Pennsylvania copper shop, and Frank Girard, of the blacksmith shop, desire The Sentinel to state that they were not present at the meeting of the railroad employees at the city hall on Monday evening and that the use of their names as committeemen was entirely unauthorized.

Peter and Jacob Funk, of the Pittsburgh planing mills, are off duty today attending the funeral of a relative. C. J. Lucas, C. Scheuman and W. H. Korte, of the same shop, are off duty to look after some private affairs, and C. F. Kromm, Frank

Hefelinger, G. W. Fuchshuber, F. H. Sessler and G. L. Lown are off duty on account of sickness.

Since taking up their abode in Cadillac, Mich., Dr. and Mrs. J. B. Bickensderfer have become the parents of a bouncing baby boy, who is said to be the very image of his father. Dr. Bickensderfer is the medical examiner on the northern division of the Grand Rapids and Indiana road for the Pennsylvania Voluntary Relief association. He was stationed in this city several months as assistant to Dr. Wagner.

A great injustice is being unwittingly done to the well known firm of Wolff Bros. It seems that there have been a number of garnishee cases brought by the firm of Sam. Pete & Max, of whom the Wolff Bros. are the successors, and the impression seems to be that the Wolff Bros. are behind the cases. That this is untrue we can state on the best authority. While the Wolff Bros. purchased the stock of Sam. Pete & Max and also assumed their lease on the store building, they did not purchase the book accounts of that firm, the title to the same still resting in the old firm of Sam. Pete & Max.

LOCAL LINES.

Ed Moran is suffering from rheumatism.

Miss Anna Trentman, of Auburn, is visiting Mrs. C. F. Mahler.

G. Herbert Bower left today for Altoona, Pa., on legal business.

Frank Benoy is attending the grand lodge of the I. O. O. F. in Indianapolis.

Miss Marie Boester will entertain the F. G. M. N. club Friday evening at her home.

Florence Junetta Schoch, daughter of Mr. and Mrs. Ed Schoch, is very ill of measles.

Rev. Meade Williams, of St. Louis, is in the city the guest of his brother, Henry M. Williams.

Dr. C. B. Stemen returned last evening from Decatur, where he was called in consultation.

Charles Young, of Toledo, is the guest of Miss Kittie Oswald, who will entertain in his honor.

Alfred Wadsworth, who has been the guest of Frank J. Schreiner, Jr., has returned to his home at Buffalo, N. Y.

Miss Faddock, of Coldwater, Mich., who has been a patient at St. Joseph's hospital, returned to her home today.

Miss Bertha Jackson and Charles Lang were guests of honor at a small company given last evening by Miss Pearl Foster.

Mrs. Drake, of Jackson, Mich., will arrive in the city this evening to enter St. Joseph's hospital, where she will undergo a surgical operation.

Mrs. Harrison, of Columbia avenue, will entertain the ladies of the Third Presbyterian church at tea Friday afternoon. There will be an important business meeting.

The Elks' entertainment committee now has under consideration the annual charity entertainment, but as yet no decision has been reached either as to the date or character of the entertainment. Louis Heilbroner is chairman of the committee.

ABOUT THE COURT HOUSE

The case of the Carter Shoe company vs. Louis Fortreide occupied the attention of the superior court jury until after noon recess today.

The county commissioners were in session this morning for a couple of hours only. At noon an adjournment was taken until Saturday.

Arguments were heard today in the circuit court in the case of Roberts vs. the International Building and Loan association.

The case of Grubbs vs. Grubbs, set for trial before the jury in the circuit court tomorrow, was dismissed today, settlement having been made out of court.

In the circuit court this morning the following cases were set for trial: State vs. Morris Meyer, appeal, December 18, jury; state vs. Gotta, appeal, December 19, jury; state vs. Ida Novitsky, assault and battery, December 19, jury; state vs. Sylvester Miller, appeal, December 13, jury; state vs. Frederick Basheller, appeal, December 12, jury; state vs. George Geoglein, appeal, December 12, jury; state vs. William Rabel et al., appeal, December 19, jury; state vs. John Geiger, appeal, December 11, jury; state vs. William Brockerman, appeal, December 14, jury; state vs. William Brockerman, assault and battery, December 14, jury; state vs. Abraham Levy, appeal, December 13, jury; state vs. John Wamamaker, surety of peace, December 11, jury.

The case of Roberts vs. the International Building and Loan association is on trial before Judge O'Rourke in the circuit court.

IN THE JUSTICES' COURTS.

The case of the state against Mendal Franks for sending a claim out of the state for collection was tried in France's court this morning, on a change of venue from Tancey. Henry Dressel was the prosecuting witness and the evidence did not differ materially from that offered in other cases. S. L. Morris appeared for the defendant and presented some points that the prosecutor was evidently unprepared for. Justice France took the matter under advisement.

Constable Ford went out into the country this morning to arrest Chas. Boon, who is charged with hunting on the enclosed lands of James M. Weaver without first having secured the consent of the owner.

The Ladies' auxiliary of the Ancient Order of Hibernians will hold their regular monthly meeting in Library hall this evening.

A NEW DEPARTMENT

THE PEOPLE'S STORE DEVOTES

ENTIRE THIRD FLOOR TO

HOLIDAY GOODS—OPEN-

ING THURSDAY.

The People's Store has devoted the entire third floor of their mammoth new building to the display of holiday goods. This is a plan that the management has had under contemplation ever since the new building has been occupied, thus giving to Fort Wayne the largest toy emporium in the state. It is a veritable Santa Claus headquarters and contains almost everything known to the toy trade, as well as silverware for the most fastidious buyer, oriental statuary, China and Utopia vases that will please the most aesthetic taste; Wedgewood ware of the daintiest kind, chinaware and glassware beyond compare; games that amuse and instruct; smoking sets for husband, son or brother; mirrors and albums; clocks by the hundreds, and such an array of dolls as Santa Claus never got together before. This year the mechanical toys are up to the times of invention. Automobiles that run, locomotives that speed away with bell ringing, boats that plough through the water; real stores so the little make-believe housekeeper can cook; circus riders and acrobats which go through their movements with startling agility; dancing bears, jumping rabbits, musicians that render real music, and hundreds of ingenious mechanisms that are made to please the little folks. There are real pianos that have revolving stools, regiments of soldiers, firemen's uniforms and—but what is the use of trying to enumerate all of the things that Santa Claus has put upon the third floor of the People's Store. We would not get through by Christmas.

It is enough to say what has been said and merely add that it is a stroke of enterprise on the part of Bendell & Company in adding such a metropolitan feature to their big store and giving the establishment 44,000 feet of floor space in actual use. The opening of this floor will occur Thursday of this week.

ABOUT THE CITY HALL.

At the meeting of the board of works and the council committee tomorrow night, the ordinance fixing the fire limits so as to include that portion of the city east of Lafayette street and north of Berry will be considered as well as the ordinance referring to the establishment of railroad safety gates. Just what will ever happen to that electrical inspector ordinance will probably not be determined until after a few more fires are charged to bad inspection or until another person or two are killed.

Henry Hilgemann was this morning granted a permit to remodel the building the Fisher Brothers recently purchased on Columbia street, the estimated cost to be \$7,000.

The intercepting sewer committee will meet again tonight with the stenographer to continue in the formulation of the report.

T. A. Giberson, representing the Cleveland Stone company, was a visitor at the city hall this morning.

WANTED.

A Man to represent the Vista Hermosa Sugar and Mercantile Company in Fort Wayne and vicinity. This company owns 7000 acres of the best land in tropical Mexico. Attractive proposition for investors. Handsome income assured to right man. Address

PRICE TWO CENTS

FOR HIGH TREASON

DR. KRAUSE, TRANSVAAL BOER,
MUST ANSWER.

CHARGE WAS UNEXPECTED

PRISONER LATE GOVERNOR OF
JOHANNESBURG.

IS HELD UNDER HEAVY BAIL

KITCHENER REPORTS DEFEAT
OF BOER COMMANDS.

London, Nov. 20.—When Dr. Krause, the former governor of Johannesburg, who was arrested Sept. 3 on the charge of high treason and inciting to murder, was brought up on remand at Bow street today for the thirteenth time, the treasury representatives created some excitement by announcing that they withdrew the application for the prisoner's extradition to South Africa and wanted Dr. Krause committed to the Old Bailey on charges of high treason, and incitement to murder. The treasury officials consider there is ample justification to try Dr. Krause here on the charge of inciting Dr. Cornelius Broekman, the former public prosecutor of Johannesburg, who was executed Sept. 30, to murder Douglas Foster, an English lawyer attached to Lord Roberts' staff, who was very active against the Boers. Witnesses were called to support the charges.

Dr. Krause was remanded for a fortnight in £4,000 bail.

BOER COMMANDS ROUNDED UP.

London, Nov. 20.—A dispatch from Lord Kitchener dated from Pretoria, today says Lieutenant Colenbrander's column has rounded up Buyer's and Dunderhorst's Boer commands, thirty miles northwest of Pretoria. The troops killed three men, wounded three and captured fifty-four, including two field cornets. The column also captured much stock and munitions of war.

DEATH LIST TOO LOW.

New York, Nov. 20.—According to the Tribune's London correspondent the Daily News endeavors to show that the government's monthly returns which purport to give an accurate record of the deaths in the South African camps, are untrustworthy. An examination of the blue book has, it is said, resulted in the disclosure that the deaths not accounted for in three monthly returns, which it is possible to compare with the tables in the blue book, amount to 1,500.

NO DREYFUS AFFAIR.

New York, Nov. 20.—The London correspondent of the Tribune says that Lord Roberts' horse guards reception was well attended yesterday and he was heartily cheered by the crowd outside. There was no evidence that England had another Dreyfus affair in the Buller episode. Courtesies and compliments were exchanged and good feeling prevailed. Military officers have not held Lord Roberts responsible for Sir Redvers Buller's downfall, since his removal was Mr. Brodick's act, sanctioned with reluctance by the king. All talk about a libel suit has dribbled out, and military experts are beginning to doubt whether the war office will publish the text of the Colenso telegram message to Ladysmith. Murmurs among the official class assert that there is no precedent for a disclosure of this kind while the war is in progress, and that Gatacre, Warren and the other generals who have been unfortunate are equally entitled to have the full correspondence relating to their cases published. While there is force in this contention, it is fairly certain that the text of the "Spatechecked" message will be forced out when parliament meets and that Mr. Brodick will act in removing the last grievance on the part of General Buller without delay.

SERMON BY REV. ZARTMAN.

Rev. A. K. Zartman preached a fine sermon last evening at the new Third Presbyterian church. Rev. Zartman spoke of Christ as the Good Shepherd seeking for the lost sheep until he found it. He took for his text the parable of the lost sheep found in Luke 15. He believed that in some way and at some time Christ found each lost man and that the man would know the fact that

Christ was seeking him. He illustrated his sermon by cases that had come under his notice. At the close of the service Clint Willson sang "The Ninety and Nine" in a most impressive manner. This evening Rev. McGaw will preach his first sermon in the new church. The Apollo quartet will furnish the music.

TOOK PRIZES AT KANSAS CITY.

The Vesey flower exhibit, which has been shown at the Indianapolis and St. Louis flower shows, is at Kansas City this week. Mrs. W. J. Vesey, who is in charge of the exhibit, wired last evening that she had been awarded one first, four second and one third prizes for carnations and two prizes for two vases of chrysanthemums, one of twenty-five and the other of 100 flowers. The exhibit will close tomorrow and Mrs. Vesey will probably return home the latter part of the week.

THOUGHT HE HAD SLAIN WIFE

CHICAGO LINOTYPE OPERATOR
KILLS HIMSELF.

Believed in Shooting at Burglar He
Had Killed His Wife and at
Once Suicided.

Chicago, Nov. 20.—Believing that he had mortally wounded his wife while shooting at a fancied burglar, William D. Brockman, a Linotype operator, living in Austin, turned his revolver upon himself and committed suicide. As a precaution against burglars Brockman always slept with a revolver under his pillow. Early this morning, imagining he saw an intruder at the window opposite his bed, he fired. The bullet passed through the pillow close beside his wife's head. Practically he asked her if he had killed her. She replied sleepily that he had not, but too late to save his life.

ALLEGED MURDERER FREE.

New York, Nov. 20.—The murderer of Mammie Cunningham, the school girl of this city, on Memorial day, 1896, has just come up again in the courts through the discharge of Frank Farrell, the suspected murderer, by Recorder Goff, in general sessions. The girl was found beaten to death in the basement of her home. Farrell was arrested soon after the murder and on the trial the jury disagreeing, was released on \$1,000 bail. Assistant District Attorney O'Connor reported to Recorder Goff that he had been investigating this case; that no new evidence had been discovered; that there was not sufficient to permit placing the defendant on trial again and recommended the defendant's dismissal. Accordingly Farrell was honorably discharged.

GOT MAD AND QUIT.

Washington, Nov. 20.—It was announced today at the white house that Postmaster Wilson, of Brooklyn, has resigned and that his resignation has been accepted to take effect upon the appointment of his successor. Mr. Wilson bases his resignation upon the action of the department in the matter of a promotion in his office.

WRECK ON THE SANTA FE.

Topeka, Kan., Nov. 20.—A report has been received at the general offices of the Santa Fe railway in this city of a head-end collision between the California and Chicago limited passenger trains near Albuquerque, N. M. today. The fireman and engineer of one of the trains were killed. The wreck caught fire and one combination car was burned.

WANTS LAW RE-ENACTED.

Washington, Nov. 20.—President Roosevelt in his message to congress will not only recommend the re-enactment of the Chinese exclusion act, but will go farther and recommend that it be strengthened to increase its efficiency. The president gave this information today to Representative Needham, of California, who talked with him upon the subject.

WAITING ON CROSSINGS.

Tracklaying on the line of the Fort Wayne and Southwestern inside the city is still suspended, awaiting the arrival of crossings for use at the intersection of the electric lines with the tracks of the railroads. It was stated this morning that the crossings were expected daily. The interurban tracks reached the Wabash railroad on Taylor street some time ago.

COLON HAS FALLEN

COLOMBIAN LIBERALS TAKE
ISTHMIAN CITY.

MAKE UNEXPECTED ATTACK

GOVERNMENT UNPREPARED TO
MAKE RESISTANCE.

TWELVE SLAIN IN FIGHTING

REBELS HAVE POSSESSION OF
THE OFFICES.

Colon, Colombia, Nov. 20.—(Via Galveston, Texas)—The liberals made an unexpected attack on Colon at 8 o'clock last night. The government was not prepared and there was little resistance. After some fighting in front of the Cuartel and in certain streets for an hour and a half, the liberals gained possession of all the public offices and the town of Colon. The prefect, Guardia, is a prisoner. Over twelve men were killed and about thirty wounded.

The United States gunboat Machias, now here, took no part in the proceedings. There has been no telegraphic communication with Panama since last evening, and it is surmised here that Panama is now being attacked.

WIRE INTERRUPTED.

New York, Nov. 20.—The Western Union Telegraph company's central cable office here has been advised that telegraphic communication between Colon and Panama is interrupted owing to insurrectionary movements at Colon. As messages for Colon can go forward via Key West, Florida, and messages for Panama via Galveston, this interruption has but a local effect.

THE NEWS CONFIRMED.

Washington, Nov. 20.—The confirmation of the reported capture of Colon by the Colombian liberals caused a decided commotion in the state and navy departments today. There were long conferences between Secretary Long and Admiral Crowinshield and between the admiral and Acting Secretary of State Dr. Hill. Later the two last named went over to the white house and saw President Roosevelt. This was the first time since 1885, when Admiral Joutet opened up transit across the isthmus of Panama, that communication had actually been stopped in such fashion as to seem to require the interference of the United States naval forces.

The first news of the trouble at Colon came from United States Consul General Gudgeon at Panama. He telegraphed the state department that a considerable number of liberals had taken passage on the railroad (he did not indicate where) and arriving at a certain point, had cut the telegraph wires and taken up a rail, thus breaking communication.

Later there came a second message from Consul General Gudgeon announcing that Colon had been taken. This was confirmed more explicitly by United States Consul Maturos, stationed at Colon. The latter official said that Colon was taken by the rebels last night. While all business is suspended, transit is not interrupted and American life and property are safe and not likely to be in danger.

Taken altogether, these dispatches were regarded by the officials here as indicating a lack of purpose on the part of the liberals to interfere with transit across the isthmus. It was felt that the brief interruptions caused by the taking up of the rail and the cutting of the telegraphic wires was nothing more than a temporary device to prevent the government from hurrying reinforcements by rail to Colon. The officials find support for this belief in the fact that communication was reopened across the isthmus the moment Colon was captured.

NO CHANCES TAKEN.

Still, as a result of the consultation today, it was resolved to take no chances of an infringement of the treaty rights of the United States. Therefore Secretary Hill cabled Consul General Gudgeon a direction to notify all parties who are engaged in molesting or interfering with free transit across the isthmus that such interference must cease. He was also directed to consult freely with Captain Perry, the commander of the United States battleship Iowa, now lying at Panama. Then Captain

Perry was cabled by Secretary Long to land marines if necessary for the protection of free transit across the isthmus in accordance with the treaty rights and obligations of the United States. At the same time Captain Perry was enjoined to avoid bloodshed if possible. Meanwhile news came that Commander McCrea, of the Machias, which is now lying at Colon, had anticipated this instruction from the navy department by landing a force of blue jackets at Colon and occupying the railway station. The understanding at the navy department was that the landing party consisted of about 100 sailors, who are employed in lieu of marines, of whom the Machias has an insignificant force.

MYSTERY IN CHILD'S DEATH

HOBOKEN POLICE WORKING ON
STRANGE AFFAIR.

Five-Year-Old Girl Dies of Arsenical
Poisoning—A Doctor's
Testimony.

New York, Nov. 20.—The police of Hoboken, N. J., are investigating today the mystery of the death of 5-year-old Emeline Dale, who died yesterday of strychnine poisoning in Hoboken. This child was the daughter of Harvey S. Dale, manager of a life insurance agency in Chicago. Mrs. Dale arrived at Busch's hotel Saturday night. According to statements made by her, she had not been feeling well and had been taking strychnine tablets. Monday night, she said, she left the tablets on a dressing table, and while she was asleep her child arose and ate three of them, thinking they were candy. "Her cries awoke me," continued Mrs. Dale, "and I summoned Dr. Kudlich."

Dr. Kudlich, who saw the child before and after death, said: "I was summoned to attend the child at midnight and remained with her two hours, when she had completely recovered and was frolicking around the room. At 3 o'clock I was told over the telephone that the child was dead and I again went to the hotel."

"Mrs. Dale told me that shortly after I left the child's hands and feet began to get cold and that death soon followed."

County Physician Converse, who was called in to view the body, declined to grant a burial permit and the child's body was held at the hotel pending the result of the police investigation and the arrival of the father from Chicago.

Mrs. Dale was a Miss Howe, of New York city. Her father was a physician who left an estate from which Mrs. Dale received an income of \$200 a month.

KYLER-LUMBARD.

Louis M. Kyler and Miss May Lumbard were united in marriage at 9 o'clock this morning by Rev. E. W. Allen, pastor of the West Jefferson street Church of Christ. The ceremony occurred in the study of the officiating minister. The bride was attended by her sister. Shortly afterward the happy couple left for Chicago on a wedding tour, upon the completion of which they will be at home in this city. The groom is an engineer in the service of the Pennsylvania railroad and the bride the daughter of Mr. and Mrs. Joseph Lumbard, of 45 Fox street. She is a popular young lady and well known.

ARRESTED THE PENITENT.

Thorntown, Ind., Nov. 20.—In the Methodist church here on Sunday night Edward Clark, a stranger, attended a revival meeting. Following an appeal by one of the members of the congregation, he created a sensation by confessing that he was a forger and a fugitive. He said he was a telegraph operator for the Illinois Central at Du Quoin and two months ago forged the necessary signatures to a \$50 money order, cashed it at a bank and fled. The congregation was impressed with the confession, and, turning the meeting into a love-feast, it raised the cash to pay the forgery. A telegram was sent to the bank offering to pay the money order. Yesterday the sheriff of Du Quoin county, Illinois, arrived here and arrested Clark, returning with his prisoner to Du Quoin. The church is greatly stirred up and will supply Clark with an attorney for his defense.

Messrs. Albert Pape, Fred Ranke and Harry Ploger have returned from a hunting trip in the northern part of the state. They spent a day at "Long Swamp," the guest of Monroe Barcus.

TALKING TUNNEL

CITY AND RAILWAY OFFICIALS
IN CONFERENCE.

MR. GOULD DID NOT COME

WABASH SUPERINTENDENT IS
DETAINED BY ILLNESS.

MR. McKIM'S PROPOSITION

WOULD ABOLISH CALHOUN
STREET TRACKS.

The joint meeting arranged by Mayor Berghoff between the officials of the Pennsylvania and Wabash roads and the board of works and the mayor is in session this afternoon at the city hall. The object of the conference is to talk over the Harrison street tunnel project. President Ramsey, of the Wabash, was expected to be present, but a day or two ago he notified the mayor that he would be unable to be in attendance, but said that he would be represented by Superintendent Gould. The meeting is to be devoid of legal technicalities and is supposed to be confined to a discussion of the practicability of the project, the mutual benefits to be accrued and the advisability of commencing the work within a reasonable length of time and allow the details to be fixed at some future meeting.

About 3 o'clock a telegram was received from Superintendent Gould stating that he is sick and unable to come, but suggesting another meeting. Superintendent McKim suggested that Mr. Gould be allowed to fix the date for the next meeting and he would endeavor to arrange to be present. Mr. McKim manifested a hearty co-operation in the project, basing his enthusiasm upon the proposition that the Fort Wayne traction company would transfer its Calhoun street lines to the Harrison street subway.

Mayor Berghoff remarked that it would be impossible to force the traction company off Calhoun street, since it had a franchise there, to which Mr. McKim retorted by saying that it would be equally impossible to force the Wabash company to abandon its rights under its franchise. He added that he thought pressure could be brought to bear on the traction company to change its lines.

Mr. McKim stated further that Harrison street embraces an entire width of 40½ feet, but that he thought a 60 foot opening would be more profitable, as it would cover the emergencies for increased traffic for some years. This idea was endorsed by those present, whereupon Mr. McKim stated that his company's engineer had prepared an estimate which showed that the total cost of the proposed improvement would be about \$108,000, which figure, however, did not include the increased cost incident to the Wabash by being forced to raise the tracks in its yards for a considerable distance.

FOUND FOR BOTH SIDES.

(Columbia City Post.)
The Wilkinson-Vordermark case, from Allen county, was decided Tuesday, the court finding for both sides. The case will probably be up again for a new hearing.

ELKS' MEMORIAL SERVICES

AT MASONIC TEMPLE, SUNDAY
EVENING, DEC. 1.

Hon. Wood Monroe, of Minneapolis,
to Deliver the General Eulogy

—Other Features.

Fort Wayne lodge, No. 155, Benevolent and Protective Order of Elks, will hold its annual memorial service at Masonic Temple on Sunday evening, Dec. 1, when the members of the fraternity will pay their loving tribute to the memory of their departed brethren.

The program is now in the hands of a committee, of which H. B. Monning is chairman, and the arrangements have been nearly completed. The principal orator of the occasion will be Hon. Wood Monroe, of Minneapolis, a prominent Elk, a distinguished member of the Minnesota bar and an orator of wide fame. Hon. W. P. Breen, of this city, will

deliver the eulogy upon departed brethren.

Other features upon the program will include two vocal solos by Mrs. S. C. Moffat and Ferd Urbahn, and the Linden quartet will also be heard in addition to Reineke's orchestra.

BURIAL AT STATE LINE.

The remains of Charles Armbruster, who died at Wabash a few days ago, were brought to the home of a son at Woodburn, and funeral services were held at the Woodburn school house. The interment occurred at State Line cemetery, Rev. E. A. Sumner, of the Woodburn M. E. church, officiating. Mr. Armbruster was a native of Baden, Germany, and his age was 61 years, 3 months and 6 days.

STIER PROPERTY IS SOLD

BIG REAL ESTATE DEAL CON-
SUMMATED TODAY.

Alois L. Riegel Purchases Property at
Washington and Lafayette
Streets for \$12,000.

A big deal in real estate was consummated this morning, when Alois L. Riegel, of Riegel & Bougher, proprietors of the Home billiard hall, purchased from the Stier heirs the property on the northwest corner of Lafayette and Washington streets, the consideration being \$12,000.

The property has a frontage of eighty feet on Washington street and 150 feet on Lafayette street. Three houses occupy the lot, one double house and two single houses. The property is very centrally located and is one of the most desirable pieces of real estate in the city. The deal was consummated through the agency of Bauer & Ortlieb.

APPALED BY PROGRESS.

London, Nov. 20.—The action of an Anglo-American syndicate in applying to the London county council for a 999-year lease of a site on the north side of the Strand for the erection of an office building on American lines, to cost £2,000,000, has caused much comment and interest and is discussed from various points of view. Many people share William Waldorf Astor's views, as expressed in today's issue of the Pall Mall Gazette, throwing cold water on the proposed "addition to that conglomeration of architectural chaos which is modern London." The Pall Mall Gazette fears the mammoth building will deform the new thoroughfare. The majority of the business community, however, share the views of the London Times, which says: "We are far too slow in meeting the wants of the enormous population and are far too much given to muddling along with timid extensions of methods essentially antiquated."

CORPORATIONS ARE TAXED.

Springfield, Ill., Nov. 20.—The state board of equalization today fixed the values of the stocks and bonds of the Chicago City Railway company, the Chicago Telephone company, the People's Light and Coke company, the Chicago Edison company and the South Chicago City Railway company at \$116,832,515, as compared with \$39,137,335 last year. This is a victory for the Chicago Teachers' federation and the total of added taxable values is \$77,745,180.

SMALLPOX NEAR WABASH.

Wabash, Ind., Nov. 20.—Three cases of smallpox have appeared on the outskirts of this city in the last twenty-four hours. The cases are in as many families and a number of people have been exposed. Dr. Lorin Smith, health officer of Wabash county, has closed the district schools in the vicinity and quarantined the families, and it is hoped there will be no further spread of the malady. An agent for a corn shredder spread the disease. He contracted it in British Columbia.

PLEAD GUILTY TO FRAUD.

Des Moines, Iowa, Nov. 20.—John Reuvers and John Steubentau, of Knoxville, Marion county, charged in the federal court with having illegally secured naturalization papers for a number of foreign coal miners in order to vote them at the election in 1900, entered pleas of guilty and were fined \$100 each. The illegal votes came within one of making Marion county democratic.

Thomas Conrad, advance agent of the Wallace shows, who has been in the city since Friday, leaves tomorrow for Huntington, Pa., where he expects to locate permanently.

IT WAS NO HOAX

THERE WAS A PLOT TO SEIZE
YUKON COUNTRY.

WAS LIKE JAMESON RAID

DISCOVERY NIPPED SCHEME IN
THE BUD.

IT ORIGINATED IN SEATTLE

AMERICANS IN PLOT HAD A
BIG FUND.

Toronto, Ont., Nov. 20.—Special dispatches from Vancouver published here say:

The Yukon insurrection story is not altogether without foundation. Some half-brained Americans drew up plans for forcibly depositing the government and police in the Yukon, somewhat similar to the historical Jameson raid in the Transvaal. Major Woods, N. W. M. P., discovered the scheme and took prompt steps to suppress it. American officials at Skagway co-operating. The discovery of the scheme is supposed to have nipped it in the bud. The Yukon police force consists of about 250 men who are provided with Lee-Enfields. When the scheme was first discovered Maxim and Colt guns were mounted at White Horse, which was the first place to be attacked. Major Snyder, in charge of the police there, also received reinforcements, and patrols were kept on duty night and day. It is said the scheme originated in Seattle and \$250,000 was available to aid the venture. The information has been obtained from ex-police officers of the Yukon force, and members of the gambling fraternity who have come to the coast cities for the winter, and is guardedly confirmed by the officials who have just come down from the north.

IS STRICKEN IN THE STREET

MRS. OSCAR KILPATRICK DIES
FROM PARALYSIS.

While Returning From Her Sister's
Funeral a Marion Lady Suc-
cumbs Suddenly.

Mrs. Lucinda Kilpatrick, of Marion, was stricken by paralysis at Calhoun street and Douglas avenue early Tuesday evening, as a result of which she died a few hours later at the residence of Washington Blake, 7 Liberty street.

Mrs. Kilpatrick had been at Monroeville attending the funeral of a sister and in company with another sister, whose home is in Michigan, returned to Fort Wayne last evening. They were to spend the night with Mr. Blake's family and were on their way there when Mrs. Kilpatrick sustained a paralytic stroke and sank helpless to the pavement. She was carried into the office of Dr. J. E. Miller, where medical attention was given, and later removed to the home of Mr. Blake, where death ensued at 10:30 o'clock.

She was the wife of Oscar Kilpatrick, and formerly resided in this city, where her husband was an engineer on the Lake Erie and Western railroad. They moved to Marion some time ago and Mr. Kilpatrick entered the soldiers' home there.

MURDERER PUT TO DEATH.

Auburn, N. Y., Nov. 20.—Fred Krist, the murderer, was put to death by electricity in the state prison here at 6:37 a. m. today. He met his fate with fortitude. Krist's crime was the murder of his sweetheart, Kate Tobin, at Waverly, Tioga county, April 7 of last year. He had separated from his wife and had become addicted to drink. He was then thirty years of age, his victim being ten years younger. The girl having refused to receive his attentions, he lodged complaint against her for theft and then lay in wait at a hotel to intercept her as she passed to the justice's office. Fortified with several drinks, he rushed from the hotel as his victim and her sister appeared, and fired several shots at her from a revolver. She fell dead.

AARON JONES RE-ELECTED.

Lewiston, Maine, Nov. 20.—The national grange today elected Aaron Jones, of South Bend, Ind., as national worthy master.

Poison Oak Poison Ivy

are among the best known of the many dangerous wild plants and trees. To touch or handle them quickly produces swelling and inflammation with intense itching and burning of the skin. The eruption soon disappears, the sufferer hopes forever; but almost as soon as the little blisters and pustules appear the poison has reached the blood, and will break out at regular intervals and each time in a more aggravated form. This poison will linger in the system for years, and every atom of it must be forced out of the blood before you can expect a perfect, permanent cure.

SSS Nature's Antidote FOR Nature's Poisons,

is the only cure for Poison Oak, Poison Ivy, and all noxious plants. It is composed exclusively of roots and herbs. Now is the time to get the poison out of your system, as delay makes your condition worse. Don't experiment longer with salves, washes and soaps—they never cure.

Mr. S. M. Marshall, bookkeeper of the Atlanta (Ga.) Gas Light Co., was poisoned with Poison Oak. He took Sulfur, Arsenic and various other drugs, and applied externally numerous ointments and salves with no benefit. At times the swelling and inflammation was so severe he was almost blind. For eight years the poison would break out every season. His condition was much improved after taking one bottle of S. S. S., and a few bottles cleared his blood of the poison, and all evidence of the disease disappeared.

People are often poisoned without knowing when or how. Explain your case fully to our physicians, and they will cheerfully give such information and advice as you require, without charge, and we will send at the same time an interesting book on Blood and Skin Diseases.

Borrow From Us WE LOAN MONEY.

Perhaps you do not know just how to get or where to go for a little money. This partially explains.

We make loans of \$10, \$20, \$30, \$50, \$100 on furniture, pianos, horses and buggies, wagons, etc. Everything left in your possession and you have the use of the money and property. We give you from 1 to 12 months to pay the money back and the payments are so small you scarcely notice it. All our dealings private and confidential, our manner of doing business fully explained if you will call at the office.

WANT THE WIRES REMOVED

FROM VICINITY OF SCHOOL
BUILDINGS.

Council Committee to Consider the
Question of the Traction Com-
pany's Feed Wires.

The committee on rules, regulations and ordinances will meet tomorrow evening. Among other matters which will be presented for consideration will be the removal of the Traction company's feed wires about the school buildings on Lafayette and Barr streets. The wires have been ordered removed and it was stated that the Traction company would willingly comply with the order. Since that time eight months have elapsed but the wires still remain, offering the same menace that inspired the ordinance for their removal. The board of works will be called into the conference tomorrow night and it is probable that some measures may be recommended for the removal of the wires.

NO NEW PROPOSITIONS.

An evening paper stated yesterday that Mayor Berghoff and the Fort Wayne Traction company had each presented propositions to the board of works about the question of intervening down-town terminals and the respective propositions had been referred for future consideration. The statement is without foundation, according to the statement of Clerk Schmidt. Mr. Schmidt states most positively that if Manager Scott has submitted a new proposition at all, he must have submitted it to the newspaper publishing the item and that if Mayor Berghoff submitted a proposition for consideration, it certainly escaped the notice of the board as well as the clerk. The only street railway business, formally or informally presented to the board, was the cord or two of papers referred back to them by the council at the last meeting.

THE NEWS OF THE POLICE

At police court this morning a man registered as Frederick Spandow was arraigned for drunkenness. Before the case was called it was explained to the judge that the prisoner was an employee of the Pennsylvania road who had simply experienced a severe attack of pay-day. His friends explained to the judge that it was the first time in the prisoner's life that he had ever fallen by the wayside and that he was not in a position to successfully withstand a financial bombardment in the way of fines and other etceteras. When Mr. Spandow was finally brought up standing before Judge Loubit told him that he had concluded to postpone the hearing of his case indefinitely, but that if he ever came before him again he would try to remember him and would hear the present and the next one at the same time. The judge then mopped some genuine sweat off his brow and Mr. Spandow started for home to get enough sleep to enable him to catch up with his work for tonight.

A gang of particularly mischievous boys are terrorizing the neighborhood of the corners of Barry, Wayne and Monroe streets and their chief delight is reputed to be the smearing of mud on neighboring houses, the slinging of mud at windows and the general disfigurement of houses and fences. Complaint has been made to the police and the names of a number of actions of eminently respectable people have been submitted. The persons complaining, as well as the police, believe that the parents in a general way have some knowledge of the conduct of their children.

The amiable and elderly Catherine Weeks has again been found. This time she was found on Wiebke street and was returned to her home on Hugh street.

Dr. Herman Duemling today turned over to Clerk Smith, of the police station, a handsome deer skin which Mynker Smith will transform into a robe or rug. As an artist in taxidermy Clerk Smith has no peer in the city.

Falling of the Womb.

Zoa Phora, the Greatest Known Cure
for Leucorrhoea, Change of Life,
Painful Menses, Kidney,
Liver or Bladder Trouble.

The Only Safe, Sure and Ever-Ready
Remedy in the Three Danger
Periods in a Woman's Life
—Trial Bottle Free.

Zoa Phora cures falling of the womb, leucorrhoea, painful or suppressed menstruation, flooding, laceration, kidney, liver or bladder trouble, and change of life.

MRS. J. E. CONNOR,
Lawrenceburg, Tenn.

It serves as a steady hand to guide the frail and sickly girl through the trying period that opens to her the untraveled path of womanhood. It proves through the trying times of motherhood a "woman's friend," as she passes to the last period in womanly life Zoa Phora is still her friend and mainstay—bringing her through the third dangerous change in woman's life safe and soundly healthy. Women by the thousands testify to the wonderful effect of Zoa Phora on their general health, as well as to its marvelous power in correcting and permanently strengthening when weak.

Lawrenceburg, Tenn., Nov. 1, 1900.
Zoa Phora Co., Kalamazoo, Mich.
Gentlemen—I feel it my duty to inform you what Zoa Phora has done for me. Ten years ago I was married. I had always had painful menstruation and was all run down and people said I could not live, but my husband sent for one bottle of Zoa Phora, which cured me. Two years later I was troubled with falling of the womb and the doctors said I would have to wear a pessary, but one bottle of Zoa Phora cured me. Four years ago I had a miscarriage and came near dying, but one bottle cured me again. Since then I have always kept it in the house and would not be without it at any price. Yours respectfully,

MRS. J. E. CONNOR.

Zoa Phora is for sale by druggists, or it will be sent direct, prepaid, on receipt of price, one dollar a bottle. If you are a sufferer you can make no mistake in taking Zoa Phora at once. If you are interested or have a friend who is a sufferer send for our great book telling why Zoa Phora cures. It is sent free. All communications strictly confidential and are answered by the doctor. We will be glad to send you a trial bottle free upon receipt of 10c. to cover cost of postage and packing. Address, Zoa Phora Co., Kalamazoo, Mich.

Try The Sentinel Want Column.

PFEIFFER-ECKART.

The marriage of Miss Henrietta Eckart and Charles F. Pfeiffer was solemnized Tuesday evening at the home of the bride's mother, Mrs. Elizabeth Eckart, Rev. S. Wagenhals, of Trinity English Lutheran church, officiating. The ceremony was performed at 5:30 in the presence of a large gathering of relatives and intimate friends of the couple. The bride entered the parlor with her brother, Fred Eckart, and took her place beside the groom before a large mirror, half hidden with festoons of smilax, with here and there a few cut flowers. The bridesmaid was Miss Lucille Eckart and the groomsmen were Capt. W. F. Runko. The bride was attired in a gown of white silk chiffon made over white liberty silk, the skirt being made in train. She wore a long veil and carried a bouquet of bride's roses. The maid of honor wore a costume of cream silk mull. She carried pink roses. Mrs. Helen Eckart and Master Herbert Eckart were ring bearers. The wedding march from Lohengrin was played by Robert Cragg as the party entered the parlor. After the ceremony an elaborate wedding supper was served by Seidel. Mr. and Mrs. Pfeiffer will be at home at 113 West Wayne street on their return from their wedding trip. Guests from out of town were: Mr. and Mrs. A. Ober, of Chicago; Mr. and Mrs. Charles Schulties, of Lima, Ohio; Mr. and Mrs. Charles Beelman, of Mansfield, Ohio; Miss Jo Kraus, of Columbus, Ohio; Mrs. G. D. Wykal, of Chicago.

FOOTBALL CHALLENGE.

The Jefferson school football team has changed its name to the Elks. The team challenges any eleven in the city under sixteen years of age, Lakeside Juniors preferred, and acceptances can be made through The Sentinel or to Harry Trisket, of 228 Washington street.

THE OLD WAY.

Of Treating Stomach Trouble and Indigestion a Barbarous and Useless One.

We say the old way, but really it is the common and usual one at the present time and many dyspeptics and physicians as well, consider the first step in attempting to cure indigestion is to diet, either by selecting certain food and rejecting others or to greatly diminish the quantity of food usually taken.

In other words the starvation plan, is by many, supposed to be the first essential in the cure of weak digestion.

The almost certain failure of the starvation cure for stomach trouble has been proven time and again, but still the usual advice, when dyspepsia makes its appearance, is a course of dieting.

All this is radically wrong. It is foolish and unscientific to recommend dieting or starvation to a person suffering from dyspepsia because indigestion itself starves every organ and every nerve and fibre in the body.

What is needed is abundant nutrition, not less, and this means plenty of good, wholesome, well-cooked food and some natural digestive to assist the weak stomach to digest it.

This is exactly the purpose for which Stuart's Dyspepsia Tablets are adapted and this is the way they cure the worst cases of stomach trouble.

The patient eats plenty of wholesome food, and Stuart's Dyspepsia Tablets digest it for him.

And this is in accordance with nature and common sense because in this way the whole system is nourished and the overworked stomach rested, because the tablets will digest the food, whether the stomach works or not. One of Stuart's Dyspepsia Tablets will digest 1800 grains of meat, eggs and similar food.

Any druggist will tell you that Stuart's Dyspepsia Tablets is a remedy of extraordinary value and probably is the purest and safest remedy for stomach troubles.

No person suffering from poor digestion and lack of appetite can fail to be immediately and permanently benefited if they would make it a practice to take one or two of Stuart's Dyspepsia Tablets after each meal.

WOLF & DESSAUER.

Good Music and Social Hop every evening at Rathbone Sisters' Bazaar, East Berry St. 1912

Charles Eisenhut is home from a visit in Ohio.
H. B. Mott, of Huntington, was in the city yesterday.
Born, to Mr. and Mrs. Henry Lepper, of Heustis avenue—a son.
Miss Flora Tinkham and Miss Greta Russell are visiting friends in Albion.
Mrs. C. L. Olds has returned from a visit of a few days with friends in Huntington.
J. D. Clugston, of Lagrange, and Cal Huxselman, of Auburn, are at the Randall.
Electrician H. W. Harper, of Boston, has taken a position with the Edmunds company.
Prof. H. A. Popp, of the International Business college, is transacting business in Auburn.
E. J. Kiss, inventor of the Kiss amalgamator, is home from an extended trip in the east.
Miss Ethel Homister entertained a few friends last evening in compliment to visiting guests.
J. W. Smith, of Baldwin, is here to take a commercial course at the International Business college.
B. Paul Mossman and Henry Miller have left for Cincinnati to attend the carriage makers' convention.
H. P. O'Reilly yesterday purchased of Louis Curdes the residence at 272 East Wayne street, for \$8,100.
Mrs. J. H. Rohan and daughter, Miss Agnes, returned last evening from a visit of a few days with friends in Chicago.
Corporal James Allen, of the local recruiting station, is spending a four days' leave of absence, the guests of friends in Kentucky.
Mr. and Mrs. Albert Oberlin, of Richmond county, Ohio, are the guests of Dr. and Mrs. H. Parks White. The ladies are twin sisters.
The Misses Lund entertained the Dial club Monday night, a most wedding being one of the features of the evening's entertainment.
After quite a severe setback, Miss Louise Staples, daughter of Prof. T. L. Staples, is slowly recovering from typhoid fever at Hope hospital.
Bluffton News: Miss Izzi Schoch, of Fort Wayne, returned from Elwood last night and is a guest of her cousin, Miss Lizzie Mosiman.
Mr. and Mrs. Henry I. Allen, who have been the guests of Mr. and Mrs. Charles Dunham Allen, left this morning for their home at Schoolcraft, Mich.
Columbia City Post: Miss Maud Zolman, of Fort Wayne, who visited in this city with friends a few days left Tuesday morning for Chubbuck to be the guest of relatives.
The Ladies' Aid society of Calvary U. B. church will meet at the home of Mrs. Adolph Werner, 74 Gay street, Thursday afternoon. Refreshments will be served at the supper hour.
The girls of the class of 1901 of the high school will have a home-cooking sale at the Lehman book store on Saturday morning. The funds will be used to liquidate the class debt.
A number of the medical college students are talking of forming a dancing club, to give a series of dances during the winter. A meeting will probably be called soon to form the club.
The Young Men's society of Emmanuel Lutheran church gave a most enjoyable smoker in the school hall last evening. A pleasing program was given and excellent refreshments were served.
The saw mills of Van B. Ferrine in the east end, which were removed from Huntington to this city, are now running with a full force of men. The entire plant was in operation Monday for the first time.
William Sweeney, of the Patterson clothing house, will go to Chicago December 1 to accept a position with a large firm of shirt manufacturers, and early in the coming year will start upon the road for the home.
Mrs. Frances Baldwin is here from New York to visit her son, Merchant Baldwin. Miss Bessie Baldwin is with the "Beside the Bonnie Brier Bush" company, which opened an engagement in Toronto Monday.
Columbia City Post: A couple of Fort Wayne hunters returned to their home one evening the latter part of last week with 62 quails in their hunting bags, all of which were killed in this county. That is thinking them out pretty rapidly.
The assistants at the public library have made a very pretty Thanksgiving library poster, which has been placed on exhibition in the library. The poster is inscribed with the names of a number of new books, recently put on the library shelves.
In giving a list of the churches that will participate in the union Thanksgiving services the South Congregational church was inadvertently omitted from the list. The congregation of that church will participate in the services at the Baptist Tabernacle.
A movement is on foot among church workers in the various denominations, to hold religious services in the fall Sunday afternoons. The services last Sunday demonstrated that such a movement would be welcomed by the prisoners and the idea is most heartily endorsed by Sheriff Stout and his deputies.

Run Down

Then don't expect to be cured in a minute! It takes a little time to get your blood pure and rich. We haven't room to explain. Just ask your doctor why Ayer's Sarsaparilla is such a good medicine for debility, weak nerves, and indigestion.

"I was very poorly and could hardly get about the house. Then I tried Ayer's Sarsaparilla, and only two bottles of it made me feel perfectly well."
Mrs. N. S. Swinney, Princeton, Mo.
H. All druggists. J. C. AYER & CO., Lowell, Mass.

Carl Diether leaves soon for Duluth to take a position with a mining company.

Large Purchase

We closed out 62 pieces of French Flannel with embroidered dot from a large well known manufacturer, all handsome shades, suitable for waists, kimonos and house dresses. Regular price 85c per yd. Will be placed on sale tomorrow at 47c per yd. Please come early.
WOLF & DESSAUER.

WANTED GOOD HOMES FOR CHILDREN.

Persons desiring to take children to bring up and able to give them good comfortable homes and a common school education are invited to call on or address The Allen County Orphans' home, Fort Wayne, Ind. References are required from all applicants for children. 10-15d-wtf

SUCCEEDS SENATOR ELLISON.

Several days ago Hon. T. E. Ellison forwarded to Governor Darwin his resignation as a member of the state board of charities and corrections and yesterday the governor appointed William P. Cooper, of this city, to succeed Mr. Ellison. The latter has served about six years upon the board, and has been an active and valuable member of the organization. His resignation is due to business reasons. Mr. Cooper is widely known, and is at present general agent of the New York Life Insurance company in this city. Years ago he was a newspaper man, later a member of the city school board and has always taken a deep interest in educational work.

ORGANIZED A CHORUS.

An independent chorus was organized last evening at the Railroad Y. M. C. A., consisting of the following: Messrs. Elmer Burris, J. Bonnell, R. Frisbie, H. Girty, F. Krueger, C. Morrell, C. Lophshire, R. Lohr, J. W. Peckham, J. Potter, H. Robertson, J. Schaaf, C. Sullivan, E. Fiddels and R. Wilson. The officers of the chorus are: President, J. V. Peckham; vice president, Elmer Burris; secretary and treasurer, Mr. Schaaf.

COFFEE COMPLEXION.

Many Ladies Have Poor Complexions From Coffee.

"Coffee caused dark colored blotches on my face and body. I had been drinking it for a long while and these blotches gradually appeared, until finally they became permanent and were about as dark as coffee itself.

I formerly had as fine a complexion as one could ask for.

When I became convinced that coffee was the cause of my trouble, I changed and took to using Postum Cereal Food Coffee, and as I made it well, according to directions, I liked it very much, and have since that time used it entirely in place of coffee.

I am thankful to say I am not nervous any more, as I was when I was drinking coffee, and my complexion is now as fair and good as it was years ago. It is very plain that the coffee caused the trouble. Please omit my name from public print."

Mrs. —, 2031 Ogden ave., Chicago, Ill. The name of this lady can be given by the Postum Cereal Co., Ltd., Battle Creek, Mich.

Most bad complexions are caused by some disturbance of the stomach and coffee is the greatest disturber of digestion known. Almost any woman can have a fair complexion if she will leave off coffee and use Postum Food Coffee and nutritious, healthy food in proper quantity. The food coffee furnishes certain parts of the natural grains from the field that nature uses to rebuild the nervous system and when that is in good condition, one can depend upon a good complexion as well as a general healthy condition of the body.

 Masonic Temple—Week's attractions: Tonight—O. H. Skinner in "Francesca da Rimini."
 Thursday—"Naughty Anthony."
 Friday—"The Night Before Christmas."
 Saturday matinee and night—"Lovers' Lane."

It is really pleasant to see our British cousins so amiably taking Dr. Hay's latest prescription of Monroe doctrine.

If Fort Wayne is to profit according to her opportunities from the fever of capital to invest in interurban railway enterprises the time to make such profits secure is now.

President Roosevelt has again given evidence of his sincere devotion to civil service reform by restoring to the classified list nearly 2,000 civil officers in the war department from which the civil service rules were lifted some time ago by President McKinley. Further reforms may be looked for along that line.

Admiral Schley has "gone broke" fighting for his reputation and yet he refuses to write magazine articles, because, as he says, he does not believe that is the right way for a fighter to fight or win battles, and he declines to take to the lecture platform because the idea of thrusting himself into public prominence is repugnant to the modesty of his nature. Verily, "Peace hath her victories no less renowned than war," and Admiral Schley seems to be able to achieve both kinds on a magnificent scale.

The resignation of Hon. Thomas E. Ellison from the state board of charities is much to be regretted, though not so much as if a less capable man than Mr. William P. Cooper were to be his successor. Mr. Ellison has been a member of the board for many years and his service to the state has been of inestimable value. He has been hard-working and zealous in his efforts to bring the charitable and correctional institutions of Indiana up to the highest standard, a labor that has borne most gratifying fruits. He has given his time and endeavors at great sacrifice of personal interests and his wish to retire is not in any wise strange. The appointment of Mr. Cooper to the vacancy is as good as the governor could have made and he will discharge the duties of

that position with the same intelligence and conscientiousness that have marked the service of his predecessor.

Ex-Queen Liliuokalani, of Hawaii, is persistent. She is still trying to collect for the crown lands which were confiscated by the republic when the Hawaiian monarchy was overthrown, and which have since passed into the hands of the United States. The present visit of the ex-queen to this country is in relation to this claim, but her chances of securing such a settlement as she desires are not very good. It has never been the custom to remunerate an overthrown government for property seized by successful revolutionaries, and so precedent is against Queen Lili. On the other hand, there is doubtless much more sympathy for her in this country today than there was a few years ago.

The joke seems to be on the Englishmen this time. The London News comes out with a slashing criticism of a translation of the New Testament published by a Chicago book house, saying: "In Chicago even the masterpiece of literature is not sacred. Twenty misguided inhabitants have just issued a translation of the New Testament into modern American. Such an atrocity almost makes one sigh for a few hours of the inquisition." But the Chicago publishers rise to remark that instead of being a "Chicago desecration of the sacred masterpiece of literature" the new translation is a British desecration, if there be any, as the work is the production of twenty scholars, nearly all of them prominent professors in English universities. "The book is true to the accepted version of the Bible, and has only been rendered into modern English," adds the publishers. It seems to be another illustration, on the part of the London News, of the fact that it is better to know less than to know so much that isn't true.

SUBSCRIPTIONS COVER DEBT.

Secretary William Doshman, of St. Paul's congregation, has made the announcement that the entire indebtedness of the church, amounting to \$12,000, is now covered by subscriptions, payable up to June 1st, 1903. This makes a total of \$96,000 raised by St. Paul's congregation in the last decade; \$72,000 for the present handsome edifice in which the congregation worships, and \$24,000 each to Zion's, Trinity and Concordia churches, branches of St. Paul's church. An entertainment will probably be given soon to celebrate the wiping out of the indebtedness.

Allan Anspach, of Oak Harbor, Ohio, is visiting his brother, John Anspach, of West Jefferson street.

The Breath Tells.

How the Results of Constipation Infect the Blood and Every Part of the Body.

The process of decay in nature remaining in the lower bowel is very rapid and from it are generated poisonous gases and other substances which Nature demands should be completely removed from the body as soon as possible.

That many of these foul elements which are generated in the intestines pass into the circulation is demonstrated by the direct evidence of an ill-smelling breath—caused by gases which result from an impaired digestion and unhealthy condition of the stomach and bowels. In a very short time after Alma-Bromo Salt has been taken the breath becomes pure and sweet, showing that the cause of the unpleasant odor has been removed.

Not only does constipation show itself in a foul breath, but the perspiration often takes on a disagreeable odor. There is, in fact, not one little gland in the whole body which does not have its regular, natural burden added to by these poisonous which course through the blood, irritating every nerve and fiber.

Alma-Bromo Salt not only causes a natural, healthy cleansing of the bowels but it also acts upon the kidneys and liver, aiding them in their constant effort to keep the blood pure.

SECRETARY HAY'S SPEECH

ADDRESSES THE NEW YORK CHAMBER OF COMMERCE.

A PLEA FOR FAIR DEALING

STRONG ADDRESS ON AMERICAN DIPLOMACY.

New York, Nov. 20.—"No wantonness of strength will ever induce us to drive a hard bargain with another nation because it is weak, nor will any fear of ignoble criticism tempt us to insult or defy a great power because it is strong or because it is friendless."

In these words last night John Hay, secretary of state, addressing 400 members of the chamber of commerce and their guests, voiced his

CHIEF OF STATE.

Secretary of State and Diplomat of Highest Repute.

belief in the sincerity and conscientiousness of American diplomacy. The sentiment was the signal for an outburst of wild cheering that showed how closely his utterance commingled with the belief of the men that listened to him.

The occasion was the 138th annual banquet of the chamber of commerce and the gathering was a notable one. At the table of honor, presided over by President Morris K. Jesup, were Joseph H. Choate, John Hay, Senator McLaughlin, of South Carolina; Whitelaw Reid, Governor-elect Cummings, of Iowa; Senator Dewey, Rev. Dr. Donald Suggs Mackay, Andrew Carnegie, Mayor-elect Low, General Miles, General Dodge, Representative Babcock, General Brooke, Carl Schurz, Alexander E. Orr, Rear Admiral Barker, W. B. Ridgely and Governor Odell.

After drinking a toast to the memory of President McKinley the banqueters toasted President Roosevelt and King Edward and then listened to a brief introductory address by President Jesup, who proposed "Our Diplomacy."

It was in response to this that Secretary Hay delivered his address.

SECRETARY HAY'S ADDRESS.

After an eloquent tribute to the memory of President McKinley, Mr. Hay said: "I dare to come to you because you have asked me, and he would have wished it, for he held that our personal feelings should never be considered when they conflicted with a public duty. And if I fall immeasurably below the standard in which he has accustomed you the very comparisons you draw will be a tribute to his memory."

"As to the measure of success which our recent diplomacy has met with, it is difficult, if not impossible, for me to speak. There are two important lines of human endeavor in which men are forbidden even to allude to their success—affairs of the heart and diplomatic affairs."

SIMPLE CHART THE SAFEST.

"But if we are not permitted to boast of what we have done, we can at least say a word about what we have tried to do and the principles which have guided our action. The briefest expression of our rule of conduct is, perhaps, the Monroe doctrine and the golden rule. With this simple chart we can hardly go far wrong."

"I think I may say that our sister republics to the south of us are perfectly convinced of the sincerity of our attitude. They know we desire the prosperity of each of them and peace and harmony among them. We no more want their territory than we covet the mountains of the moon. "As to what we have tried to do—in the general field of diplomacy, there is no reason for doubt on the one hand or reticence on the other. President McKinley in his messages during the last four years has made the subject perfectly clear. We have striven, on the lines laid down by Washington, to cultivate friendly relations with

all powers, but not to take part in the formation of groups or combinations among them. A position of complete independence is not incompatible with relations involving, not friendship alone, but concurrent action as well, in important emergencies.

FIRST OF ALL, PEACE.

"We have kept always in view the fact that we are pre-eminently a peace-loving people; that our normal activities are in the direction of trade and commerce; that the vast development of our industries imperatively demands that we shall not only retain and confirm our hold on our present markets, but seek constantly by all honorable means to extend our commercial interests in every practicable direction. It is for this reason we have negotiated the treaties of reciprocity which now await the action of the senate; all of them conceived in the traditional American spirit of protection to our own industries, and yet mutually advantageous to ourselves and our neighbors. In the same spirit we have sought successfully to induce all the great powers to unite in a recognition of the general principle of equality of commercial access and opportunity in the markets of the Orient. We believe that a fair field and no favor is all we require, and with less than that we cannot be satisfied."

VAST FIELD IN THE PACIFIC.

"We consider our interests in the Pacific ocean as great now as those of any other power, and destined to indefinite development. We have opened our doors to the people of Hawaii; we have accepted the responsibility of the Philippines which Providence imposed upon us; we have put an end to embarrassing conditions in which we were involved in Samoa."

"Next in order will come a Pacific cable, and an isthmian canal for the use of all well-disposed peoples, but under exclusive American ownership and American control—of both of which great enterprises President McKinley and President Roosevelt have been the energetic and consistent champions."

"Sure as we are of our rights in these matters, convinced as we are of the authenticity of the vision which has led us thus far and still beckons us forward, I can yet assure you that so long as the administration of your affairs remains in hands as strong and skillful as those to which they have been and are now confided, there will be no more surrender of our rights than there will be violation of the rights of others."

"The president to whom you have given your invaluable trust and confidence, like his now immortal predecessor, is as incapable of bullying a strong power as he is of wronging a weak one. He feels and knows—for has he not tested it in the current of nearly half a century as well as in the tedious work of administration?—that the nation over whose destinies he presides has a giant's strength in the works of war as in the works of peace."

WILL NOT ABUSE HIS POWER.

"But the consciousness of strength brings with it no temptation to do injury to any power on earth, the proudest or the humblest. We frankly confess we seek the friendship of all powers; we want to trade with all peoples; we are conscious of resources that will make our country a source of advantage to them and also profit to ourselves. But no wantonness or strength will ever induce us to drive a hard bargain with another nation because it is weak, nor will any fear of ignoble criticism tempt us to insult or defy a great power because it is strong, or even because it is friendly."

"The attitude of our diplomacy may be indicated in a text of scripture which Franklin—the first and greatest of our diplomats—tells us passed through his mind when he was presented at the court of Versailles. It was a text his father used to quote to him in the old candle-shop in Boston when he was a boy: 'Sess than a man diligent in his business, he shall stand before kings.'"

"Let us be diligent in our business and we shall stand—stand, you see, not crawl nor swagger—stand, as a friend and equal, taking nothing, putting up with nothing but what is right and just, among our peers in the great democracy of nations."

"I owe my whole life to Burdock Blood Bitters. Scrofulous sores covered my body. I seemed beyond cure. B. B. B. has made me a perfectly well woman." Mrs. Chas. Sutton, Berville, Mich.

A household necessity. Dr. Thomas' Electric Oil. Hous burns, cuts, wounds of any sort; cures sore throat, croup, catarrh, asthma; never fails.

The little folks love Dr. Wood's Norway Pine Syrup. Pleasant to take; perfectly harmless. Positive cure for coughs, colds, bronchitis, asthma.

Itchiness of the skin, horrible plague. Most everybody afflicted in one way or another. Only one safe, never failing cure. Doan's Ointment. At any drug store, 50 cents.

A SENSATIONAL RECOVERY.

A Venerable Wisconsin Lady Restored to Health by Peruna After Twenty-five Years' Suffering.

[Special news from Evansville, Wis.]

EVANSVILLE, WIS.—A woman cured of catarrh of twenty-five years' standing was the occasion of Peruna being introduced to the inhabitants of Evansville, Wis. From that time to this there has been a great demand for Peruna in this vicinity and hundreds of cases have been cured.

It is in this manner that Peruna spreads from town to town and from state to state. No sort of advertising could have given Peruna the reputation it has. The secret of its success is that it makes cures. It cures all cases of catarrh where other remedies have failed. This ought to make any remedy popular.

Mr. C. R. Harden, of Evansville, Wis., writes the following letter:

Dear Doctor Hartman—"I wish to write to certify what Peruna has done for me. I read of Peruna in the papers of what it would do for catarrh, and sent for a bottle. This was the first bottle of Peruna that ever came to Evansville; from my using it all three of the druggists now keep it. "It cured my wife of catarrh with which she had been troubled for more than twenty-five years, and I had been troubled with it for fifteen years. We are now both all right. "My youngest son had a gripe four years ago, and as he had supposed had got well, or so far recovered that he went to work. He took a relapse and the pneumonia set in. He had hemorrhages, and though we tried everything we could think of it was to no purpose until we gave him Peruna. The hemorrhages stopped, and he soon got up and is well and hard at work. We think there is nothing like Peruna."

In a recent letter Mr. Harden writes: "We keep Peruna always in the house, as it cured us both of catarrh of long

standing. We have callers every little while to inquire as to what Peruna has done for us. I say: 'Look at us. That is proof enough.' "I send you a picture of my residence. I helped build a house in Iowa City on the first of last June, and worked eighty-two days, only losing one-quarter of a day during the whole time. How is that for an old man 77 years old? I came home in September and have built another house out in the country this fall and am well and hearty to-day."

"I hope to live twenty years yet, and if Peruna helps me in the future as it has in the past, I don't know why I can't. The druggists say Peruna is one of the best selling medicines they have in stock."—C. R. HARDEN.

Peruna can be relied upon to cure slight colds and coughs and other catarrhal ailments with a promptness that is unequalled by any other remedy.

If a cold has settled in any portion of the body and produced catarrh, it is generally thought by people that they must suffer on year after year without any hope of cure. This is not true, however, Peruna cures such cases. Thousands of testimonials that can never be used attest this fact.

Any one wishing free literature on this subject should address Dr. Hartman, Columbus, Ohio.

Startling Statements from Kentucky, Illinois and New Hampshire of Other Remarkable Recoveries.

WILLARD, KY.—The news of the recovery of Mrs. Elizabeth Traler is a very striking instance of the wonderful curative powers of Peruna. This estimable lady had been an invalid from catarrh of the stomach and bowels for twenty years. No wonder her many friends are enthusiastic over her recovery. She writes: "It is through the mercies of God and your medicine that I am permitted to write you this letter. I have been a constant sufferer from bowel and stomach trouble for about twenty-five years, and could never find relief until I began the use of Peruna. I think it is a God-send to poor suffering humanity."—Mrs. Elizabeth Traler.

ELGIN, ILL.—In a very recent communication from this place comes the news that Mr. Arthur Ernest Kidd, a well-known architect of that city, has made complete recovery from catarrh of the head from which he had suffered for nearly a quarter of a century. He writes the following from 18 Hamilton ave.:

"I am 42 years of age, and have had catarrh of the head for over half of my life. "I read of Peruna, and finally decided to try it two months ago. I have now taken seven bottles, and weigh 172 pounds. Never felt happier or merrier. Feel tip top."—A. E. Kidd.

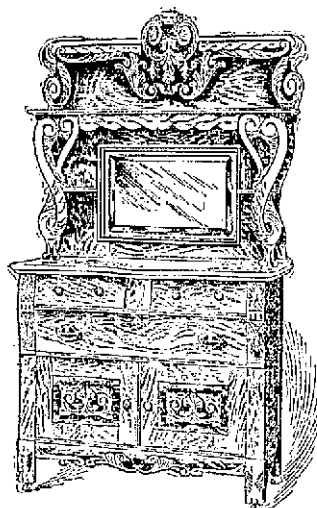

MANCHESTER, N. H.—According to late advices, Miss Blanche L. Rundlett has made a complete recovery from catarrh of the head which had caused a chronic running from the ears. Her own statement of the case is as follows:

"I have suffered for several years with catarrh of the head. It finally reached my ear, and caused a running ear. Having read of Dr. Hartman's remedies I immediately wrote, and he advised me. To-day I am in better health than I have been for some time. I will gladly recommend Peruna for all catarrhal diseases."—Miss Blanche L. Rundlett.

COLDS

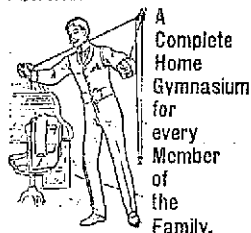

I regard my COLD CURE as more valuable than a life insurance policy. It not only cures colds in the head, colds in the lungs, colds in the bones, but it wards off dangerous diseases such as grippe, diphtheria, pneumonia, and consumption.—HUNYON.

Munyon's Rheumatism Cure seldom fails to relieve in one or three hours, and cures in a few days. Munyon's Dyspepsia Cure positively cures all forms of indigestion and stomach trouble. Munyon's Cough Cure stops coughs, night sweats, allays soreness and speedsily heals the lungs. Munyon's Kidney Cure quickly cures pain in the back, knee or groin, and all forms of kidney disease. Munyon's Urinary Antiseptic cures urinary tract disease. All the cures are 25 cents, at any drug store. Munyon's Guide to Health should be in the hands of every mother. It will help them to know the symptoms of every disease and tell them the proper treatment. Sent free to any address. Munyon, New York and Philadelphia.

DANIEL EBY DIED TUESDAY NIGHT FROM CANCER.

Had Long Been a Prominent Citizen—Other Deaths and Funeral Notices.

Daniel Eby, for many years a prominent citizen of Allen county, died Tuesday night at his home in St. Joe township, after an extended illness from cancer.

Mr. Eby was about 75 years of age. He came to Allen county in 1845, and served as township clerk, justice of the peace, assessor and trustee of his township, holding the latter position for sixteen or eighteen years. He was well known and very highly esteemed, and occupied a representative position in the community.

Surviving are the widow and four children—Mrs. C. Miller and John, Henry and Eli Eby. The funeral services will be held Friday at 11 o'clock from the residence and later from Mayhew chapel.

AMBLER.

Joseph Ambler, of Hartford City, a patient at St. Joseph's hospital, died at midnight. Mr. Ambler was 38 years of age and some days ago submitted to a surgical operation at the hospital as the only contingency offering hope of his recovery.

The remains were removed to the home of a relative at 20 Cass street. The interment will occur at Zanesville, where the deceased formerly resided.

Mr. Ambler settled in Lafayette township sixty-six years ago, and surviving are three children—Emanuel, of this city, and Mrs. Belle McAfee and George Ambler, of Hartford City. The funeral services will be held Friday morning at 9 o'clock from the residence of the son, Emanuel Ambler, 20 Cass street.

McQUOWN.

Samuel McQuown, infant son of Mr. and Mrs. Sylvester McQuown, of Rudisill avenue, died at 2 o'clock this morning from dropsy, at the age of four months and three days.

Funeral services will be held from the residence Thursday afternoon at 2 o'clock.

FUNERAL ANNOUNCEMENTS.

Bainbridge.—Funeral services of Mrs. Florence Bainbridge will be held from the residence, 149 High street, Thursday afternoon, at 2 o'clock.

Buehink.—Funeral services of Mrs. Sibylla Buehink will be held Thursday afternoon at 1:30 from the residence, 87 High street, and at 2 o'clock from St. John's Lutheran church.

BOUGHT COMPRESSOR PLANT

WATERWORKS BOARD GETS AIR-LIFT MACHINES.

Agree on a Price of \$3,500 for the Temporary Plant Installed by Shaw-Kendall Folks.

After nearly two days of figuring, invoicing and dictating, the waterworks trustees today closed a contract with the Shaw-Kendall company for the purchase of the compressors now in use at Station No. 1. The price agreed upon is \$3,500, a saving of just \$1,500 from the company's original figures. Some time ago the company insisted on either forcing the city to buy the plant outright or submitting to its removal. The authorities refused to take either end of the proposition, but did go so far as to make an inventory of the property as it then stood. It was found to invoice about \$4,200. When the agent came here a day or two ago he wanted to effect a sale at the old invoice figures, but the trustees would not agree to such an arrangement. The property was again inspected and finally a flat price of \$3,500 was offered by the trustees and that offer was this morning accepted by the company. The contract was immediately drawn and signed by the company's representative and the board of trustees and was promptly approved by the mayor, who was a party to the whole arrangement. The document now only needs ratification by the council to become valid and when that point is consummated one

will have been settled for the time being, at least.

Engineer Holt's report is still involved in profound mystery, the only sure thing about it being that it cost \$2,000.

STATE CHAIRMAN IS COMING

PROHIBITIONISTS TO HOLD SEVERAL MEETINGS.

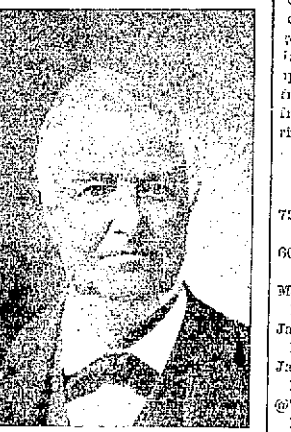

Two in Fort Wayne Soon, and Others in Various Counties of the District.

Twelfth district prohibitionists propose to begin early upon the organization for the next political campaign and the new state chairman, L. C. Masters, of Muncie, is already active in this direction.

The Fort Wayne officers of the prohibitionist organization have already arranged for a number of meetings and M. Masters is coming to the city within a short time for this purpose. The plans as now outlined provide for at least two mass meetings in this city, at which Mr. Masters and other speakers will deliver addresses, and from Fort Wayne Mr. Masters will go to other counties in the district. The prohibitionist leaders are now considering the question of dates for the meetings.

KICKED BY A HORSE.

Ex-County Commissioner Matthew A. Ferguson was kicked by a horse yesterday morning and sustained a double fracture of the bone between the knee and ankle. Mr. Ferguson was driving a young horse from his Whitley county farm and when about a mile from the city the animal be-

MATTHEW A. FERGUSON. Former Chairman of Allen County Board of Commissioners.

came frightened at the fluttering of some chickens under the buggy seat and commenced to kick. Mr. Ferguson tried to alight from the rig, when the horse planted both feet against the aged ex-commissioner's leg with such force that portions of the bone were forced through the skin. Mr. Ferguson was brought by Henry Fortmeyer to this city, where the fracture was set, and he is now at his Montgomery street home. A report from Mr. Ferguson's bedside this afternoon is to the effect that the patient is doing as well as can be expected. On account of the advanced age of the patient and the serious nature of the injury it will be many weeks before Mr. Ferguson will be able to be about.

Jack Brown entertained the members of the Snapper club at a quail supper last evening. A smoker followed the meal, and William Klinger added greatly to the pleasure of the evening by rendering a number of selections on the guitar.

THE MARKETS.

Chicago, Nov. 20.—The improvement shown in all grains at the close yesterday continued today, December wheat opening 1/4c to 1/2c lower at 71 1/2c to 71 3/4c on lower cables, but at once advancing on generally improving conditions. Sales to Mexico were reported, the northwest was buying May and though receipts were still large the crowd began to pull the pit on the report of dry weather in the winter wheat country. The early trade was light, but a demand began to spring up and aided by strength in the other grains soon sold up to 72c. Local receipts were 56 cars. Minneapolis and Duluth reported 894 cars, making a total for the three points of 890, against 671 last week and 564 a year ago.

Wheat was quiet toward the end of the session, but held well on a good speculative demand, December closing firm, 1/4c higher, at 72 1/2c.

December corn opened quiet at 1/2c lower at 59 1/2c on cables. The crowd was inclined to sell early, but an advance in oats sent shorts to cover and December rose to 60 1/2c. The outside demand was fair and there was some buying of May. Receipts were 89 cars.

Corn continued to show strength throughout the session, based largely on no covering and high prices at Kansas City. December closed firm.

December oats opened unchanged at 39 1/2c, but the big improvement in the cash situation started yesterday still influenced the market, and buyers had to bid up to secure anything. Offerings were very scarce, though receipts were larger than estimated. December sold up to 40 1/2c at the end of the first hour, but sagged 1/2c later on profit-taking. Receipts were 103 cars.

Provisions showed activity again today at the start on a good market or a large run of hogs and on a good speculative demand. Prices for January were all unchanged at the opening, but January pork advanced from \$15.40 to \$15.50; January lard from \$8.77 1/2 to \$8.80, and January ribs from \$7.87 1/2 to \$7.90.

THE CLOSE.

Prices at the close were as follows: Wheat—Nov., 71 1/2c; Dec., 72 1/2c; May, 75 1/2c. Corn—Nov., 59 1/2c; Dec., 60 1/2c; May, 63 1/2c. Oats—Nov., 40 1/2c; Dec., 40 1/2c; May, 41 1/2c. Pork—Nov., \$14.25; Dec., \$14.25; Jan., \$15.50; May, \$15.50. Lard—Nov., \$8.80; Dec., \$8.87 1/2; Jan., \$8.90; May, \$9.10. Ribs—Nov., 7 3/4c; Jan., 7 3/4c; May, 7 3/4c. Flour—Cash N. W., \$1.46; No. 1, \$1.46; Nov., \$1.45 1/2; Dec., \$1.44 1/2; May, \$1.47 1/2. Rye—Cash, \$1.48; May, 62 1/2c. Barley—Cash, 54 1/2c. Timothy—March, \$6.10. Clover—March, \$8.85.

CHICAGO LIVE STOCK.

Chicago, Nov. 20.—Cattle—Receipts, 22,000, including 500 west cows; market steady to 10c lower. Good to prime, \$6.20 to \$7.10; poor to medium, \$4.00 to \$6.00; stockers and feeders, \$2.00 to \$4.25; cows, \$1.25 to \$4.75; heifers, \$1.50 to \$5.00; canners, \$1.25 to \$2.25; bulls, \$2.00 to \$4.50; calves, \$2.00 to \$5.25; western steers, \$8.50 to \$5.35.

Hogs—Receipts today, 46,000; tomorrow, 40,000; left over, 7,330; market steady to strong. Mixed and butchers, \$5.50 to \$5.85; good to choice heavy, \$5.60 to \$5.95; rough heavy, \$5.35 to \$5.55; light, \$5.25 to \$5.50; bulk of sales, \$5.00 to \$5.75.

BUTTER, CHEESE AND EGGS.

Chicago, Nov. 20.—Butter—Market firm; creameries, 14 1/2c; dairies, 13 1/2c. Cheese—Market steady; twins, 9 1/2c; young Americans, 10c; dairies, 10 1/2c. Eggs—Market firm, 23 1/2c.

THE DAY ON WALL STREET.

New York, Nov. 20.—The opening trading in stocks was quiet and the price changes were small and mixed. There was a firm tone in the local traction stocks and in St. Louis and San Francisco second preferred. American Smelting rose 1 1/2. Otherwise the changes were insignificant.

Large buying orders appeared in some of the railroads and canals and advanced well above yesterday's close. The improvement reached from 1 to 1 1/2 in Sugar, Manhattan, Metropolitan Street Railway and New Jersey Central. Chicago Great Western preferred B was sold down

also first preferred half as much, but the last named recovered. Toward 11 o'clock the general market became easier in tone in sympathy with realizing in the Pacific, Sugar and People's Gas, the last named breaking 1 1/2.

A renewed rise in the coalers occurred and many large blocks of the low-priced stocks changed hands. New Jersey Central extended its rise to 5, Lackawanna gained 2 1/2, Delaware and Hudson 1 1/2 and Reading second preferred and Ontario and Western about a point. There was a better tone generally, but changes were narrow and but little business was transacted in the usual market leaders. St. Louis and San Francisco common and second preferred rose a point each.

Bonds were irregular.

FORT WAYNE MARKETS.

Fort Wayne, Ind., Nov. 21.—Flour—Spring wheat, \$3.75 to \$4.00; winter per bbl., \$3.50 to \$4.00; Graham, \$1.5 per cwt.; buckwheat, \$2.65 per cwt. corn meal, bolted, \$1.40 per cwt. corn meal, unbolted, \$1.40 per cwt. IN THE JUSTICES' COURTS.

The case of the state against Mendal Franks for sending a claim out of the state for collection was tried in France's court this morning, on a change of venue from Tancay. Henry Dressel was the prosecuting witness and the evidence did not differ materially from that offered in other cases. S. L. Morris appeared for the defendant and presented some points that the prosecutor was evidently unprepared for. Justice France took the matter under advisement.

Constable Ford went out into the country this morning to arrest Chas. Boon, who is charged with hunting on the enclosed lands of James M. Weaver without first having secured the consent of the owner.

The Ladies' auxiliary of the Ancient Order of Hibernians will hold their regular monthly meeting in 14-brary hall this evening.

A NEW DEPARTMENT

THE PEOPLE'S STORE DEVOTES

ENTIRE THIRD FLOOR TO

HOLIDAY GOODS—OPEN-

ING THURSDAY.

The People's Store has devoted the entire third floor of their mammoth new building to the display of holiday goods. This is a plan that the management has had under contemplation ever since the new building has been occupied, thus giving to Fort Wayne the largest toy emporium in the state. It is a veritable Santa Claus headquarters and contains almost everything known to the toy trade, as well as silverware for the most fastidious buyer, oriental statuary, China and Uruia vases that will please the most aesthetic taste; Wedgewood ware of the faintest kind, chinaware and glassware beyond compare; games that amuse and instruct; smoking sets for husband, son or brother; mirrors and albums; clocks by the hundreds, and such an array of dolls as Santa Claus never got together before. This year the mechanical toys are up to the times of invention. Automobiles that run, locomotives that speed away with bell ringing, boats that plough through the water; real stores so the little make-believe housekeeper can cook; circus riders and acrobats which go through their movements with startling agility; dancing bears, jumping rabbits, musicians that render real music, and hundreds of ingenious mechanisms that are made to please the little folks. There are real pianos that have revolving stools, regiments of soldiers, firemen's uniforms and—but what is the use of trying to enumerate all of the things that Santa Claus has put upon the third floor of the People's Store. We would not get through by Christmas.

It is enough to say what has been said and merely add that it is a stroke of enterprise on the part of Beadell & Company in adding such a metropolitan feature to their big store and giving the establishment 44,000 feet of floor space in actual use. The opening of this floor will occur Thursday of this week.

ABOUT THE CITY HALL.

At the meeting of the board of works and the council committee tomorrow night, the ordinance fixing the fire limits so as to include that portion of the city east of Lafayette street and north of Berry will be considered as well as the ordinance referring to the establishment of railroad safety gates. Just what will ever happen to that electrical inspector ordinance will probably not be determined until after a few more fires are charged to had inspection or until another person or two are killed.

Henry Hilgemann was this morning granted a permit to remodel the building the Fisher Brothers recently purchased on Columbia street, the estimated cost to be \$7,000.

The intercepting sewer committee will meet again tonight with the stenographer to continue in the formulation of the report.

T. A. Giberson, representing the Cleveland Stone company, was a visitor at the city hall this morning.

WANTED.

A Man to represent the Vista Hermosa Sugar and Mercantile Company in Fort Wayne and vicinity. This company owns 7000 acres of the best land in tropical Mexico. Attractive prospects for investors. Handsome income assured to right man. Address

FREDERIC N. BASSETT.

General Agent,

608 Ashland Bldg. Chicago, Ill.

MIRRORS RESILVERED.

Do You Want a Good PIANO CHEAP?

I have three pianos, shop-worn, but in excellent condition, which I will sell at once at sacrifice price in order to make all the room possible for new instruments coming within a few days.

An opportunity to put a first class piano in your home for little money. Who will be the lucky buyers?

FOR THE HOLIDAYS

A SLAP AT PLATT

PRESIDENT TURNS THE EASY BOSS DOWN.

A SUCCESSOR TO BIDWELL

STRANAHAN TO BE COLLECTOR OF NEW YORK.

TO TAKE OFFICE IN APRIL

SERVICES IN NEW YORK SENATE NEEDED.

Washington, Nov. 16.—State Senator N. N. Stranahan, of Oswego, N. Y., after his call upon the president today made the following statement: "President Roosevelt this morning tendered me the office of the collector of New York, with the understanding that I shall assume its duties April 1st next. Such an arrangement will permit me to do my winter's work at Albany. I am especially anxious to finish my term as senator in justice to my constituency and also in the hope that, as chairman of the committee on cities, I may be able to aid the administration of Mayor Low and assist the policies of Governor Odell.

"The revised charter will undoubtedly require attention from the legislature and my work in connection with that has familiarized me with the subject. The office of collector comes to me absolutely unsolicited, and, I may say, with the cordial concurrence of the president and Senator Platt. The senator undoubtedly desired the reappointment of Mr. Bidwell, but if this was not to be done, he is entirely satisfied with me. No suggestions as to my policy in the office has been made to me or condition coupled with the appointment, except that I give the best possible administration in my power, in the belief that in faithful public service is to be found the greatest advantage to one's party."

THE MOLINEUX CASE.

New York, Nov. 18.—District Attorney Philbin will not have Roland B. Molineux again placed on trial for the murder of Mrs. Katherine J. Adams in case Judge Newburger should deny the motion of ex-Governor Black for permission to inspect the minutes of the grand jury which found an indictment against Molineux. Mr. Philbin's term expires Dec. 31 and Assistant District Attorney Osborne, who prosecuted Molineux, will be busy during December in the trial of Lawyer Patrick, charged with the murder of Rice, the Texas millionaire. Ex-Governor Black will file his brief Friday and a decision is not looked for before the end of the present grand jury term. Should his application be granted a motion for the dismissal of the indictment would follow on the ground that illegal evidence was presented to the grand jury.

KEITH'S BODY BURIED.

Evansville, Ind., Nov. 18.—The body of Jesse D. Keith, murderer of Nora Kiefer, who was hanged on Friday, reached Boonville yesterday morning. A relative escorted it to the family home near Boonville. There it was viewed by relatives and friends. The appearance was natural.

There were hysterical and affecting scenes on the part of relatives at the grave, where the Rev. Mr. Heldt conducted services. He pointed out the value of following the path of righteousness, and said Keith's case should be a terrible warning to all. There were more sensational scenes at this declaration of the pastor.

WHY NOT EVERY SUNDAY.

Through the kind permission and courtesy of Sheriff Stout and his deputies in answer to a request from Mr. Z. Nye, a special rescue mission worker from New York, the dining room at the jail was turned into a chapel for one hour Sunday, when an earnest and spirited service was held for the benefit of its inmates, who were present and deeply interested. Several said by uplifted hand, pray for me, after an earnest practical exhortation by Mr. Nye, who was ably assisted by the Trinity M. E. church choir, of Bloomingdale, in song, prayer and testimonial.

RATHBUN TRIAL TO GO OVER.

Jeffersonville, Ind., Nov. 18.—In all probability the trial of Newell C.

Rathbun will go over until the February term of court, when the regular grand jury will be in session in Jeffersonville. Judge Marsh said today that he would have to await the arrival of the corpse before the question could be settled definitely. The body of the supposed Goodman is now on its way to Jeffersonville from Little Rock, Coroner Coats having received a telegram to that effect from Coroner J. M. Young, of that city. The body is expected to arrive in Jeffersonville tomorrow evening. The stomach will then be removed for chemical analysis. Judge Marsh said today that if the cause of death could be ascertained within a reasonable time the case of Rathbun may be disposed of at this term of court. Otherwise it will go over to the February term.

DINED VISITING PRELATE.

Kansas City, Nov. 16.—Bishop K. H. Gez Von Scheele formally presented the personal greetings of King Oscar of Sweden to the members of the Swedish colony in Kansas City at an elaborate church entertainment given at the Swedish Lutheran church here today. Hundreds of Swedes representing the different churches and societies of that nationality usual in Kansas City were present. Bishop Von Scheele is on his way east from Lindsburg, Kan., where he attended a big church gathering of his countrymen.

NATURAL GAS MAIN BLOWN UP

SIX OF A REPAIR GANG ARE BADLY INJURED.

Two of the Victims Are Likely to Die—A Torch and a Leak Came Together.

Washington, Pa., Nov. 18.—A natural gas explosion occurred along the main pipe line of the Wheeling Gas company, at Buffalo Village, eight miles west of here, last evening, which resulted in injuries to six men, two of whom will probably die. The explosion was caused by the gas igniting from a torch in the hands of one of a gang of repair men. The injured are:

W. S. Bronsell, burned about the head and arms; it is thought he inhaled the flames and may not recover. Lyle Maxwell, burned about the face and body; may not recover. John Wallace, burned about the head and arms. Martin Hogan, severe burns in the face. George Dennison, severe burns. Carl Martin, slightly burned on hands and face. The big gas main of the Wheeling Gas company sprung a leak yesterday morning near Buffalo and the company sent out a repair party. The gas was turned off all day and the men were at work in a deep ditch making the repairs. As darkness fell several torches were used to give the men light. The repairs were almost completed when through some mistake the gas was turned on at the gates and came rushing along through the main with great pressure. Bronsell, ignorant of the fact that the gas had been turned on, was holding the torch near an opening, and the explosion resulted.

AN ULTRA-JINGO VIEW.

London, Nov. 19.—The Globe this afternoon discusses the Hay-Pauncefote treaty in its usual ultra-jingo tone. It says:

"Unless Lord Pauncefote and Secretary Hay have strictly observed the principles of quid pro quo the treaty is far more likely to impair than to strengthen friendship. If British rights on the Isthmus have been abandoned without a tangible equivalent it will not be long before Great Britain is invited to surrender the West Indies and even Canada as peace offerings to American Chauvinism."

STRUCK BY AN ENGINE.

Samuel Current, a switch tender employed in the east yards, was struck by a Middleport freight last night, as he was walking along the main track to the yard office. The unfortunate man was hurled some distance and when picked up it was thought that he had been killed and the coroner was telephoned for. Current revived, however, and was taken to St. Joseph hospital, where it was found that three ribs had been broken and serious internal injuries inflicted. It will probably be several weeks before the injured man will be able to resume his duties.

Will Hatfield, of Bluffton, has taken a position in a cigar factory in this city.

SIGN NEW TREATY

HAY-PAUNCEFOTE PACT AGAIN READY FOR SENATE.

IS GIVEN SIGNATURE TODAY

BY SECRETARY HAY AND THE BRITISH AMBASSADOR.

IMPORTANT DIPLOMATIC ACT

HOW NEW TREATY DIFFERS FROM THE OLD.

Washington, Nov. 18.—The new Hay-Pauncefote treaty was signed today at 12:05 by Secretary Hay, for the United States, and Lord Pauncefote, the British ambassador, for Great Britain.

This treaty is intended to replace the first Hay-Pauncefote treaty. That convention was amended so extensively by the United States senate at its last session that the British government declined to ratify it. Within a few weeks negotiations began afresh between Secretary Hay and Lord Pauncefote, which have just resulted in the signature of the new treaty, drawn with special reference to the objections found by the senate with the first treaty. From a due sense of the courtesy which must be observed towards the United States senate wherever a treaty is concerned, the state department is estopped from making public the text of the new convention and that will remain a secret until the senate itself shall break the seal of confidence. It is said at the state department that the various publications which have been made of the alleged text of the treaty are all erroneous and conjectural, though in view of the rather free admissions that have been made of the purposes of the negotiators, it has been possible by the use of the text of the first treaty to construct one similar in general terms to the new convention.

POINTS OF DIFFERENCE.

The principal point of difference between the new and the failed treaty is the withdrawal of Great Britain from the joint guarantee of the neutrality of the canal, thus leaving the United States sole guarantor. The excision of the old provision respecting the right to fortify the canal leaves that right by inference optional with the United States. All commerce of whatever nationality passing through the canal will fare alike; there will be no discrimination in rates in favor of United States shipping.

Otherwise the new treaty is in scope similar to last year's treaty. It replaces technically the Clayton-Bulwer treaty, concluded on April 19, 1850. By the terms of that old convention the United States and Great Britain agreed that neither should seek any advantage in rights of transit across the isthmus. By the new convention Great Britain yields her right in favor of the United States, which is thus at liberty to construct a canal.

MUST WAIT FOR SENATE.

Nothing more remains to be done as far as this treaty is concerned before the senate meets, or indeed, until the treaty shall have been ratified. If it should be ratified the state department will proceed immediately to negotiate the treaties with Costa Rica and Nicaragua for which it already has arranged in protocols pending before the senate, which will permit the canal to be constructed and prescribe the terms upon which the consent of Nicaragua and Costa Rica is given. It was in anticipation of this action, it is presumed, that the Nicaraguan government only recently denounced the treaty of trade and commerce with the United States. This treaty contained sections conveying rights as to canal construction which are to be replaced by more modern provisions.

NO SPECIAL CEREMONY.

There was no particular ceremony connected with the signature today of the important convention. Lord Pauncefote had been indisposed for several days past, and it was not expected that the treaty could be signed before the end of the current week. However, to the surprise of the state department officials the ambassador appeared at the department about noon and the work of signing the treaty was soon dispatched. The scene was the historic diplomatic chamber of the state department, and beside the principals, Secretary Hay and Lord Pauncefote, there were present Sidney Smith, chief of the diplomatic bureau of the state department; Percy Wyndham, the

ond secretary of the British embassy, and William Gwin and Edward Savoy, the secretary of state's private messengers, whose duty it was to attend to the affixing of the seals. The treaty was signed by Secretary Hay with a gold pen in a silver penholder, which had been used in the signature of other conventions and is the personal property of the secretary.

ORGANIZED A UNION.

Councilman George R. Hench went to Huntington Saturday evening for the purpose of organizing a branch of the International Typographical union. There has never been a branch in Huntington, although there are quite a number of printers. Mr. Hench formed a temporary organization, and the prospects for a strong union are bright. Mr. Hench is acting under the orders of President Lynch, of the International union, and will visit Huntington next Saturday night to perfect the organization.

THE SLAUGHTER OF HUNTERS

MANY FATALITIES IN THE MAINE WOODS.

Notwithstanding Heavy Penalties For Carelessness, Accidents are Numerous.

Augusta, Maine, Nov. 18.—Although the last legislature passed a law imposing a maximum penalty of ten years' imprisonment or a fine not exceeding \$1,000 for negligence or carelessness which should result in the shooting of a human being by hunters, the record of such fatalities in this state during the present season is very heavy. A peculiar feature of the situation is that in several of the accidents the shots have been fired by unknown persons. The record up to the present time shows that twelve persons have been shot by accident and that five of the victims have been either killed outright or wounded so that death resulted. In four instances the shots were fired by unknown persons.

THE PERSONS WHO HAVE LOST THEIR LIVES ARE:

Henry McPheters, Milford, Maine. W. C. Tuckey, Dayton, Ohio. Leslie Bowker, Marshfield, Maine. Frank Leonard, Frankfort, Maine. John G. Weeks, Boston, Mass. Thus far no steps have been taken, as far as can be learned, toward prosecution in any case, although the game wardens frequently have called public attention to the law.

ELLIS AT FORT BLISS.

Little Rock, Ark., Nov. 18.—S. M. Powell, state manager of the Metropolitan Life Insurance company, received a telegram from the commanding officer at Fort Bliss, Texas, stating that W. H. Ellis was at that post sick with tuberculosis. This settles the controversy raised by the Little Rock police that the dead man sent here from Jeffersonville, Ind., as the body of Newell C. Rathbun was W. H. Ellis, of Troop D. This is the troop at present stationed at Fort Bliss. Coroner Young resumed the inquest on the remains in his possession yesterday afternoon. The result was a verdict that deceased and cause of death were unknown. The coroner then telegraphed Coroner Coats, of Jeffersonville, Ind., that he would hold the body subject to his orders. If nothing is heard from Jeffersonville between this date and Thursday next the body will be buried at the expense of the city of Little Rock.

TROLLEY CAR DERAILED.

Youngstown, Ohio, Nov. 18.—A trolley car on the Youngstown and Sharon electric railway jumped the track in Hubbard, seven miles from here, at 5 o'clock this morning, while going at a good rate of speed. Six persons were injured. Frank Neilson, of Sharon, Pa., was badly hurt about the head and is in a serious condition. Mark Hazlett, William Kelly, Bert Copeland, the motorman, and two laborers, names unknown, received slight injuries. Thirty passengers were on the car at the time the accident occurred. The car was wrecked.

Thursday afternoon, at the home of the bride, three miles south of the city, Miss Anna S. Clements and Perry A. Monn were united in marriage by Rev. J. W. Lake, pastor of Calvary U. B. church. The bride is a daughter of Mrs. Theresa Clements and the groom is a son of Valentine Monn. Mr. and Mrs. Monn will reside on a farm belonging to the father of the groom, north of the city.

BLAMES THE CITY

CORONER'S VERDICT IN ST. LOUIS TETANUS CASES.

HEALTH OFFICERS AT FAULT

FOR DEATH OF CHILDREN BY BAD ANTI-TOXIN.

WERE NEGLIGENT OF DUTY

TESTANUS-INFECTED HORSES FURNISH SERUM.

St. Louis, Mo., Nov. 18.—Coroner Funkhouser today rendered a verdict finding the St. Louis health department negligent in the preparation of diphtheria anti-toxin, the administration of which recently caused the deaths by lockjaw (tetanus) of seven children.

The verdict in part is as follows: "We find that the deceased came to their death from tetanus, following the administration of diphtheria anti-toxin containing tetanus toxin, said diphtheria anti-toxin having been prepared and issued by the health department of the city of St. Louis and bearing dates on labels of August 24 and September 30, 1901.

"The presence of tetanus toxin in the diphtheria anti-toxin shows negligence upon the part of the health department in the preparation of said diphtheria anti-toxin and in the issuance thereof.

"Robert M. Funkhouser, coroner. "Frank Bogher, M. D. "John G. Fitzsimmons, deputy."

For some time the city health department has been making anti-toxin for use in diphtheria cases. This was distributed among practicing physicians throughout the city free of charge and used in the city institutions quite generally. In many cases it is said to have saved lives. The serum was obtained from horses that are said to have contracted tetanus.

MR. SLEEPER WANTS HIS WIFE

A LAPORTE MAN "TAKES HIS PEN IN HAND."

Just Wants to Know Whereabouts of His Wife Whom He Hasn't Seen for Ten Years.

Piercetown, Ind., Nov. 16.—Clark Sleeper, formerly of this town, hasn't had the pleasure of his wife's society for ten years, and he has now begun to manifest some curiosity as to her whereabouts. He will doubtless be thankful for some information upon this point. The Piercetown Record says:

"Clark Sleeper, a former Piercetown boy who now resides in Laporte, writes us for information as to the present location of his wife. We know nothing about the lady and pass Clark's letter up to our readers, some of whom may perhaps give him the information desired. The letter follows: "Laporte, Nov. 7, 1901.—Friend: I take my pen in hand to let you know that I am well and hope you are the same. I am in Laporte and am doing well. I am working in a carriage factory painting carriages and have a good job. I see Ora Allen in Elkhart last Monday. He is doing well. Maurice, I would like to know where my wife is. I haven't seen her for ten years. Now you write and tell me where she is. Yours truly, Clark Sleeper."

HEAVY GOLD SHIPMENT.

New York, Nov. 18.—The total engagements of gold for shipment to Europe by tomorrow's steamer this afternoon are \$7,050,000.

EPISCOPAL COUNCIL MEETS.

Michigan City, Ind., Nov. 16.—The annual council of the Episcopal diocese of Michigan City before adjournment elected the following officers: Treasurer, Walter Vail, of Michigan City; secretary, Rev. W. J. Lockton, of Logansport; standing committee, Revs. A. W. Seabree, of Fort Wayne; F. M. Bandell, of South Bend; W. W. Raymond, of Plymouth; E. W. Averill, of Peru, and J. H. McKenzie, of Lima. Mrs. J. H. White, of Michigan City, was appointed president of the Women's Auxiliary; Mrs. Albert Cook, of Michigan City, vice president; Mrs.

E. C. Howe, of Laporte, recording secretary; Mrs. J. H. Murphy, of Michigan City, corresponding secretary, and Mrs. Emma F. Case, of Michigan City, treasurer. Bishop White announced the appointment of Hon. Johannes Koepfke, of Crownpoint, as chancellor, vice Stuart McKibben, of Elkhart, resigned. The treasurer reported total receipts, \$5,046.92; expenditures, \$4,962.72. The bishop gave notice that steps had been taken to incorporate the diocese. Examining chaplains named: Rev. J. W. McKenzie, of Lima; Very Rev. W. S. Howard, of Michigan City; Rev. William Galpin, of Elkhart, and Rev. H. R. Neely, of Kokomo.

MADMAN AMUCK ON TRAIN.

Indianapolis, Ind., Nov. 18.—Passengers on the Big Four Southwestern limited, which reached this city from Cleveland at 11:30 o'clock yesterday, were terrorized by an insane man who boarded the train a few miles out of Cleveland and became violent. Conductor S. F. Engle, of 2838 Hope street, and several of the train crew attempted in vain to quiet him. Passengers left the car, and going into other coaches, demanded that the door be locked so that the man could not enter. A porter and a brakeman were put in charge of the man and did what they could to prevent him from demolishing the furniture. He was removed from the train by force at Union City and given over to the marshal.

RECIPROCITY WAS A TOPIC

MANUFACTURERS CALL ON THE PRESIDENT.

Urge Upon Mr. Roosevelt That Something Be Done—Time for Action Has Come.

Washington, Nov. 18.—The president's time today was occupied largely in the discussion of reciprocity. Senator Cullom, of Illinois, and Representative Dazell, of Pennsylvania, had something to say to him upon that subject and a delegation of agricultural implement manufacturers consisting of James Deering, of Chicago; A. B. Farquhar, of New York, Pa., and W. C. Barker, of New York, who are here to attend the reciprocity convention which meets tomorrow, presented a memorial strongly urging that something be done. The delegation told the president that, in its opinion, the time for action had come. Reciprocity had been talked and preached about for years and unless a decisive step was taken now which would effect something, the whole subject might as well be abandoned. The members of the delegation said that they had no particular interest in any of the treaties, but thought, taken altogether, that the French treaty more nearly represented the best possibilities in the way of reciprocity and that if it could be ratified a distinct victory would be won.

Senator Cullom, after an interview with the president, talked in the same vein. His attitude is considered important as it is now practically settled that he will be at the head of the foreign relations committee.

WIRE CUTTERS AT WORK.

Chicago, Nov. 18.—Three hundred telephone connections on the south side were severed by wire cutters last night and the long-distance service of several suburbs put out of business. The service was repaired today. Officials of the telephone company said they could not place the blame, but believed that the work was due to the linemen's strike.

MILK WAGON SMASHED.

A team hitched to a Jackson Farm dairy wagon, became frightened and ran away on Wilt street on Monday. At Broadway one of the horses fell, pulling the other one down with it and the wagon was overturned and wrecked beyond repair. Several gallons of milk were spilled, and a large number of glass jars were broken. Both horses were cut about the legs.

THIRTY HORSES BURNED.

Chicago, Nov. 18.—The warehouse of the T. W. Jones Furniture Transit company was burned today, the loss being \$50,000, with \$40,000 insurance. Thirty-four horses perished in the fire. William Taylor, colored, who lived on the second floor, rescued his wife and two children by carrying them from the building. He was nearly overcome soon after, while trying to rescue the horses stalled on the second floor. He saved only one horse.

FINDLAY IS SOLD

NEGOTIATIONS CLOSED IN NEW YORK TODAY.

WOODFORD ANNOUNCES DEAL

CINCINNATI, HAMILTON & DAYTON THE NEW OWNER.

NEW ROUTE TO QUEEN CITY

THROUGH TRAIN SERVICE WILL SOON FOLLOW.

Cincinnati, Nov. 18.—President M. D. Woodford, of the Cincinnati, Hamilton and Dayton railroad, received a dispatch today from the attorneys of the road in New York, advising him that the negotiations were closed in that city today, whereby the Cincinnati, Hamilton and Dayton railway purchased the Findlay, Fort Wayne and Western road. This road is 78 miles in length, running from Findlay, Ohio, to Fort Wayne, Ind., crossing the Chicago, Hamilton and Dayton at Ottawa. The purchase gives the city of Findlay and also Fort Wayne and the intermediate towns direct connection with Cincinnati.

The foregoing telegram confirms the statement made in The Sentinel two weeks ago concerning the sale of the Findlay road, when President Woodford and the Findlay officials inspected the property. It is proposed, The Sentinel is informed, to put on a through passenger and freight service between Fort Wayne and Cincinnati, via Ottawa at present and later by way of a shorter route over a line to be constructed from the Cincinnati, Hamilton and Dayton to intercept the Findlay several miles west of Ottawa. When this route has been established, Fort Wayne people will be able to make a choice from three routes to the Queen City, viz.: the Grand Rapids and Indiana, the Lake Erie and Western and the Cincinnati, Hamilton and Dayton. A new route to Toledo will also result from the sale of the Findlay.

CEMENT MAKERS COMBINE.

Grand Rapids, Mich., Nov. 18.—Plans are under way for the forming of an association of Portland cement manufacturers, to include in its control all the works in Michigan and the states west of Pennsylvania. The idea, it is said, is not to effect a combine at once, but to pave the way for the organization of a community of interest arrangement. Territory will be distributed and competition will be eliminated as far as possible. The owners of the Newayga Portland cement works are said to be prime movers in the organization. Prominent stockholders are here today, including H. N. and H. D. Higgenbotham, of Chicago. Representatives of some of the biggest plants in the country are here, supporting the movement.

A BANK DYNAMITED.

Wellington, Kan., Nov. 18.—Word has been received here that the bank of Manchester, south of here, in Oklahoma territory, was wrecked with dynamite by robbers early today. But little booty was secured. The building was almost blown to pieces and the robbers fled. It is believed the work was done by the same robbers who blew the safe of the bank at Milan, sixteen miles from here, Sunday morning. A stranger was in Wellington Saturday, where he had some dental work done, and he remarked that he would have to hurry back to Milan where he had left his two companions and a team. It is believed these men are the robbers and every effort is being made to apprehend them.

IT WILL REACH ZULU.

The promoters of the Lima-Fort Wayne electric line have finally determined to make a change in the route through this county and under the new arrangement the line will swerve from Monroeville to Zulu and from thence to New Haven, thus cutting out Maples, which was on the original line of the road. Henry B. Monning, who is contracting for the right-of-way, says the route between Fort Wayne and New Haven has now been purchased, with the exception of one land owner, with whom a settlement has not yet been reached.

A case of scarlet fever has been reported at the corner of Broadway and Taylor streets.

TO GOD'S SERVICE

NEW HOUSE OF WORSHIP IS DEDICATED.

THIRD PRESBYTERIAN CHURCH

IMPRESSIVE SERVICES ARE HELD SUNDAY.

REV. R. V. HUNTER'S SERMON

UNION SERVICE HELD IN THE EVENING.

The beautiful new Third Presbyterian church, at Harrison and Taber streets, was formally opened for worship Sunday afternoon, and an immense congregation that packed the edifice to the doors participated in the worship. The service was an impressive one, and pervading the devotion was a marked spirit of thankfulness and rejoicing at the completion of the handsome temple. Rev. Dr. Rice V. Hunter, of Indianapolis, delivered an opening sermon of striking power and at the close of the sermon between \$5,000 and \$7,000 was pledged to supply upon the \$10,000 of debt yet remaining.

It was but little after 3:30 o'clock when Rev. Dr. McGaw asked the great congregation to arise, and led by the Apollo, Linden and Haydn quartets, all joined in singing the inspiring words of the Doxology, following which Rev. A. K. Zartman, of Grace Reformed church, delivered a brief invocation. "It is the Lord's Own Day" was sung with splendid effect by the twelve gentlemen comprising the Haydn, Linden and Apollo quartets, and Rev. J. C. Breckinridge, of Bethany church, led the responsive reading of the 84th psalm. The congregation then united in singing a hymn, and Rev. J. Budman Fleming, of Westminster church, read Psalm 132 as the scripture lesson of the day. Following it, Rev. D. W. Moffat, of the First church, offered prayer, giving thanks that the congregation had been the constant object of God's leading care, prayed that the beautiful new church home might ever be a place of comfort, joy and strength to those who worship in it, and invoking Christ's richest blessings upon the church and the pastor in the years that are to come. The splendid double quartet of the First church was then heard in a selection and following it the congregation united in a second hymn.

PRESENTED BY DR. HUNTER.

The pastor, Rev. Dr. McGaw, then presented Rev. Rice V. Hunter, D. D., of Indianapolis, moderator of the synod of Indiana, who arose to deliver the opening sermon. Dr. Hunter has a most pleasing manner, and he preluded his discourse by some happy remarks that were charming in style. He expressed his pleasure at the opportunity of being present; he liked Fort Wayne, and remembered distinctly the splendid hospitality of its people as manifested on many previous occasions. He had discovered, also, that he had some relatives in Fort Wayne, ecclesiastically speaking. Back in Ohio, during boyhood days, said Dr. Hunter, he remembered having often heard his father, himself a Presbyterian minister, speak of Dr. McGaw. He came to revere that name, and to regard Dr. McGaw as a sort of ecclesiastical father to him. Since coming to Fort Wayne he had learned that the Third church was a child of the First church, and along this line of reasoning Dr. Hunter said he was prepared to claim Dr. McGaw as a sort of grandfather to him. He paid a pretty tribute to the energy and devotion of Dr. McGaw, whose years only made him younger, and then turned to the presentation of his text, Neh. 2:20—"The God of heaven, He will prosper us; therefore we, His servants, will arise and build."

"It was the darkest period of Israel's history in a thousand years when these words were spoken," said Dr. Hunter. "Israel had departed from the paths laid down by Moses; she had worshipped idols; she had honored another and not Jehovah. It had been prophesied that Israel would suffer, and now it was suffering. The people had been driven to leave the country; they had been scattered far and wide. There were no friends at the old homestead upon the vineyard hills; Judea was given over to marauding bands. Even God seemed to have deserted them, yet one man—Nehemiah by name, a mere butler to the king—still had faith. In the midst of the most disheartening conditions, Nehemiah was hopeful. It is worth our while to enquire why he was hopeful."

SOURCE OF HIS POWER.

"Nehemiah, I think, was hopeful first because he desired to return to his native land. He loved those Judean hills, and was anxious that he and his people might return. A strong desire was the basis of this hopeful text. Then, he had faith in God, in his countrymen and in him-

self. And when you find such a man, you find a man who has the characteristics of a leader. Nehemiah believed God would be as good as His word.

"Let me tell you, my friends, that no man has ever succeeded who has not believed in something. The agnostic is not much of a success as a rule. The man who has no confidence in his fellowmen will probably not amount to much. Now, Nehemiah had a vision as a result of his faith—a vision of the Hebrews returning. He saw in his vision the walls rebuilt, the temples refurbished and worship re-established. O, the visions in the past have led up to the mightiest achievements in history. The noblest achievement of a land beyond the deep blue sea. Luther had a vision of an open Bible and a theology the central point of which is that we are justified by faith through Jesus Christ. I wish more of our people would have visions today—legitimate desire and faith in God—and the chances are that those visions would be realized. There's a good time coming. More people are praying today than ever before, and I hope to live to see the time when Zion will have greater power. I believe we see today some of that approaching light."

THE THEME TODAY.

"Nehemiah saw these scenes in his vision. How shall we account for this? Here we come to my central thought. If we had a theme to announce for this sermon today it would be 'Human Success Dependent Upon Co-operation With God.' Three steps are noted—three elements of success in the case of Nehemiah. First, the king reformed; second, Nehemiah was a leader; and third, the people co-operated with him. As seen from the Christian point of view, however, I believe there is something else—something above it all. How was it that the king came to change his mind? Friends, it was our Heavenly Father acting upon the mind of the king that caused him to relent. Jehovah, in the next place, inspired Nehemiah to a good and lofty purpose. God saw Nehemiah's fitness for the place. He had rare courage; he trusted God; he had rare executive ability, and God directed him. God, Nehemiah and the people did the business, but God is to be crowned leader of the movement."

"Then, Nehemiah was a man who took counsel of God. People in these days prefer not to confess their sins. There has been so much go-as-you-please gospel preached that men have come to believe they are not so very bad after all. But God punishes sin in the time of Israel; He will punish sin in our time and in mine. I would not forget God's goodness and mercy, but while I preach that, I would also preach that man is dead in sin and he must confess his sins if he would escape. That's what this man did. He prayed for God's direction; he confessed his sin and his people's sins, and he recognized that God is sovereign."

"We are to turn to God; we are to ask God for a sign to do certain things, and when we are sure of the sign, we must do those things. Jehovah has promised to honor those who honor Him. This is a principle with Him. It is a principle for this church. We can not be sure of success without Jehovah's leadership. It is a universal experience. Then, God uses human leadership. It is among men that His work is to be done. He can use some of us better than others, but let us accept when it becomes clear that God wants us. We must not all expect to be leaders, and God is using us just as far as we will allow Him and as He can."

"Let us realize, also, that we must accept God-approved leaders; we must co-operate with those whom God has placed in charge. Numbers counted them, and they count today. The more truly consecrated people our church contains, the stronger it will be. We are to trust in God as though He were to do it all, and we must go to work as though we were to do it all. With such a faith and such activity, we may safely look for victory. This material structure here today is but symbolic of that superstructure that is going up on the other shore—silently yet surely, where no tool is used and no sound is heard. May you prosper in your church, and may the blessing of God rest upon you one and all in your great work."

CLOSING SERVICE.

Rev. J. Webster Bailey, of Piquette Congregational church, offered prayer, and preceding the solicitation of subscriptions the congregation united in a hymn. The closing number of the song service—"Great God to Whom We Bow"—was rendered by the quartet choir, and the congregation was dismissed with the benediction by Rev. D. T. Williams, of the South Congregational church.

A UNION SERVICE.

In the evening a union service of all the Presbyterian churches in the city was held and the edifice was again crowded to the limit. A union Christian Endeavor meeting preceded the evening service, in which the branches of the four Presbyterian churches participated. The evening service was opened with scripture

reading by Rev. D. W. Moffat, pastor of the First Presbyterian church, followed by a prayer by Rev. J. C. Breckinridge, of Bethany church, and a benediction by the double quartet of the First church.

Rev. J. A. P. McGaw, D. D., read a number of letters from former pastors of the Third church, regretting their inability to be present at the exercises, but expressing their heartfelt wishes that the church might enjoy a prosperous career in the new location. The letters were from Rev. D. S. Kennedy, of Allegheny, Pa.; Rev. Harlan G. Mendenhall, of Perth Amboy, N. J.; Rev. W. B. Minton, of Greenville, Ill., and Rev. J. M. Boggs, of Byron, N. Y. Dr. Mendenhall, the second pastor of the church, has presented the church with a handsome communion table, which will be used for the first time at the preliminary communion of 1902.

A preliminary address was made by Dr. Hunter, in which he called for subscriptions for the liquidation of the debt incurred in erecting the new church, and about \$300 were secured. Two subscriptions of \$50 were received.

Rev. Hunter announced as his text John 21:22: "If I will that he tarry till I come, what is that to thee? Follow thou me." He said in part:

"The Saviour used these words when he was asked by Peter what would become of the other disciple, and Christ's meaning was, 'It is none of your business; follow me and you will have your hands full.' Peter was not a trifler; he was a straightforward, honest, zealous disciple. When he saw his Master in the boat and Christ called to him to come, Peter started to walk on the water, full of faith in the Lord. After he had traversed a short distance along the waves he began to philosophize; he began to wonder what held him up, and he immediately began to sink. When Peter asked Christ what would become of John, Christ said, 'It is none of your business; take care of yourself and I will take care of John.'"

"A man comes to me and says, 'I would join the church, only I cannot love a God who created man knowing that he would be tempted, that he would sin, and knowing what untold misery would exist in after years; knowing that millions upon millions of souls would go down to everlasting destruction because they would not believe.' What is man that he should presume to be on equality with God, that he should claim the right to peer into the future and behold things; what right has he to put himself on a pedestal with God?"

"Now, we know that we can see; we may know how our eyes are constructed, but do we know why we see? No. We know that we see; we cannot fathom the secret and we let it go at that. Suppose a farmer refused to plant his corn because he didn't understand why it is sprouted and reproduced. His relatives and neighbors would have a lunacy commission sit on him and he would be declared of unsound mind. Yet that is the philosophy used by a great many people outside the church today. Because they cannot fathom the mysteries of God they refuse to believe in Him. God has a remedy for sin; will you take it or will you refuse it because you don't understand the process? Be as reasonable in this as you are in a thousand other things."

"Another man says he won't join the church because there are hypocrites in it. Christ had twelve disciples and one of them was a hypocrite. Suppose the church has a hypocrite in it. The immense congregation outside that church, of which the doubter is a member contains many more hypocrites. All that wants to concern you is that you are not a hypocrite. 'What is that to thee? Follow thou Me.'"

"Another man says, 'I won't join your church because there are so many churches. I don't know which is right. They all claim to be right, and yet they differ.' Each denomination teaches the essential principles of Christianity. Jesus is the Son of God. He came into this world and died to save sinners. I believe that the great denominations of Christianity are divisions of God's mighty army. One does the work that the other would not do and reaches people that others would not reach. They are all working on the same principle, however. Probably the greatest difference between them is merely a question of ethics. Own the meaning of the text to your own case; you look after yourself and let the others look after themselves. 'What is that to thee? Follow thou Me.'"

PICTURES OF A WRECK.

Chris. Christiansen, who was with the Buffalo Bill show this summer and who was in the big wreck experienced by the show in North Carolina a few weeks ago, has just received several photographs of the scene, which, frightful as they appear, he says do not half show the terrible carnage and destruction that was wrought on that occasion.

Mrs. W. E. Pressler is nursing a very sore hand, caused by running a rusty nail through it a few days ago.

STRUCK AND SLAIN

JOSEPH SMITH MEETS A SAD FATE IN RAILWAY YARDS.

WAS STANDING AT PAY CAR

AWAITING HIS TURN TO RECEIVE HIS WAGES.

Joseph Smith, of 23 Killia street, was so badly injured in the Pennsylvania yards Saturday evening at 7:35 o'clock that he died three hours later. Mr. Smith was quite a familiar figure in the depot yards, being employed as section hand in Foreman James O'Leary's crew. He worked all day Saturday and after supper left home with the intention of drawing his wages and making some purchases down town. The pay car was standing upon the "spur" track at the southeast corner of the freight house. Mr. Smith arrived there just as the Crestline accommodation train No. 35, which was a half-hour late, reached the scene. A number of employees awaiting an opportunity to get in the car were standing there and notice of the approach of the train was given, but Mr. Smith failed to heed the warning and was struck in the side by the end of the pilot beam and thrown against the pay car, a distance of twelve feet. The blow and fall rendered him unconscious and in that condition he was conveyed in the city ambulance to St. Joseph hospital, where Dr. W. E. Stemen pronounced his injuries fatal. Mrs. Smith was then taken to the bedside of her husband and the only time he exhibited signs of consciousness was when the grief-stricken woman over him and pleaded for recognition. The grief of the poor woman was indeed sad and brought tears to eyes that were accustomed to death scenes. Mr. Smith died at 10:30 o'clock and death was due to internal injuries, there being only one slight external wound—a bruise upon his right wrist—to indicate that he had been in an accident. Besides the widow, four children, the aged parents and several brothers and sisters survive the deceased. The children are all small, the eldest being six years and the youngest seven months old. The family was entirely dependent upon Mr. Smith's daily labor for support and his removal leaves them in a bad way, though Mr. Smith carried \$1,000 life insurance in the Catholic Benevolent Legion, of which he was a member for several years. The funeral will take place from the St. Peter's Catholic church Wednesday morning at 9 o'clock, and it will be under the auspices of the Catholic Benevolent Legion and the pall bearers will be chosen from the ranks of the St. Peter's branch of the order. Mr. Smith was twenty-nine years old, and a strong and hearty man. He had been in the employ of the Pennsylvania company about eleven years, commencing when only eighteen years old as a section hand under Foreman O'Leary. Thence he went to a section on the west end of the road and later returned to the city and worked at the cinder pits three or four years. About three months ago he returned to the section again.

Tony Kelker, the engineer at the throttle of the engine which struck the unfortunate man, says the train was not running fast. He was compelled to stop at the puzzle switch to let an engine out of the siding there and nearly came to a stop again at Lafayette street, which is only about 100 feet from the scene of the accident. The matter is under investigation.

TRIED A STALE GAME.

Cincinnati, Ohio, Nov. 16.—Considerable feeling has been caused in Avondale, a suburb, by a supposed attempt at blackmail by threatened kidnapping. Leonard S. Smith, president of a manufacturing company, received a letter threatening the abduction of his six-year-old child unless he would place \$5,000 in an envelope and leave it at a point designated at a certain time. Mr. Smith took counsel and left the envelope as directed, but it was filled with blank paper. Two men appeared, but did not take the envelope, apparently being suspicious that a trap had been set for them. They were not apprehended. The neighborhood is aroused and the child is being zealously guarded.

MISS EASTWICK SENTENCED.

London, Nov. 18.—Miss Marie Josephine Eastwick, the young Philadelphia woman who was committed October 1 in the Guild hall police court for trial at the Old Bailey on a charge of having forged a £100,000 railroad certificate, and who, on being arraigned, pleaded guilty, was sentenced at the Old Bailey this morning to six months imprisonment as a second-class misdemeanant.

The recorder, in sentencing Miss Eastwick, said he had received documents from the United States embassy showing the accused was men-

tally weak, but he could not accept that as a plea, the question of sanity being a matter for the secretary of state to consider. Miss Eastwick, who looked frail and ill, leaned for support on the arm of a prison wardress when leaving the dock.

KOKOMO AGAIN DRY.

Kokomo, Ind., Nov. 18.—Yesterday Kokomo had its first tight Sunday since the metropolitan police system came to town. Every saloon and drinking resort in the city was tightly closed and rear and front doors were locked. This state of affairs was brought about by a bloody fight in a prominent saloon last Sunday in which Frank Goodwin, a well known business man, nearly killed Gus Yetzer, whose wounds still keep him in bed. The police commissioners say if the saloons must abuse the "reasonable enforcement" heretofore in vogue, they must obey the law to the letter. Orders were given for strict closing and for a time at least Kokomo will be a tight town.

A DEPLORABLE SITUATION

EXISTS IN THE COAL REGION OF KENTUCKY.

Several Persons Known to Be Dead as a Result of Sunday's Battle With Union Men.

Madisonville, Ky., Nov. 18.—The man who was killed in the battle at Providence Sunday morning, Garrett Givens, was a negro who lived here. Bud Couch, mortally wounded, is also a negro and both were union men in the attacking party. Three of the wounded were negro non-union men who were guarding the mine. There is a report today that two wounded men were taken to Morgantown and one to Sabre and that they are all dead, having been shot while attacking the mines.

This report lacks verification, though it is believed that the men who made the attack suffered heavily from the fight.

In the battle of yesterday morning at least 1,000 shots were fired, while in the battle a week ago half that number were fired. Early this morning a portion of the Madisonville company went to Providence, under the command of Captain Thomas. The town is now under guard by the soldiers. A deplorable state of affairs exists not only at Providence, but all over Hopkins county, and at Empire, in Christian county. More troops are expected.

County Judge Hall and Sheriff Sutton are both at Providence and under their directions part of the soldiers on duty there are scouring the county in an effort to discover other members of the union party who engaged in yesterday's battle.

It is said the authorities have secured valuable information bearing on the attack and warrants have been issued for alleged participants in the fighting. Additional troops will probably be sent to this county immediately.

One of the mines of the Providence Coal company is running, but a large mine, on which the attack was made, is idle, due to the discouraged force, and the killing of so many miners during yesterday's shooting.

It is said the St. Bernard and other coal companies of Hopkins county have decided to take out foreign characters in order to get protection in the United States court.

The union officials here disclaim responsibility for the attack and say that the men who were implicated in yesterday's affair acted on their own responsibility. Orders were issued by President Wood to the strikers in camp here to break camp at once and join the strikers in camp at Norton. It is believed the camp here will be broken up today.

A MISSION FOR MEN.

Father Gartland, the Jesuit priest who conducted devotions in several of the Catholic churches of the city in the past month, will conduct a mission for men at St. Patrick's church commencing December 1 and closing December 8.

The Stanley band of gypsies which has been camped near Lindenwood for the past three weeks, broke camp Monday and started eastward, the ostensible destination being Cleveland, although several stops will be made en route.

U. S. Stamps

The newest and finest premiums ever before given are coming in daily, and by Christmas time Uncle Sam Stamp patrons will all be delighted with what they can get for their stamps.

SELLS WITHOUT A LICENSE

ED KEEVER FINED FOR VIOLATING LIQUOR LAW.

His Place Continues to Do Business Without the Necessary Permit

Ed Keever, the Columbia street dive keeper, was arraigned in Huser's court on Monday, charged with selling liquor without a license. On his plea of guilty, Mr. Keever was fined \$20 and costs. The dignity of an outraged law having been duly saved by the payment of the fine, including the prosecutor's fees, Mr. Keever returned to his place of business, which suffered no interruption and which is still being operated without the necessary license. Under the system in vogue in Fort Wayne such laws appear to be made not so much for obedience as for an opportunity to afford a revenue to some officers of the law. The practice has prevailed so long that it seems to be a matter of common consent that the tougher the place the less amenable the proprietor is made to the laws, so long as he is willing to settle occasionally. To the public this condition appears disgraceful; to the powers that be, it presents the appearance of a good thing and a fruitful source of revenue.

RUMOR WAS UNTRUE.

Rumor reached the city this morning that Henry Hosler, of Cedar Creek township, who is in Maine on a moose-hunting expedition, had been accidentally killed by the premature discharge of a gun, and that friends were on their way westward with the remains. Telephonic inquiry at Leo today discloses that the report is very happily untrue. Mr. Hosler left for Maine three weeks ago, and his wife last evening received a letter from him stating that he was well and hearty, had enjoyed every moment of the trip, and would be at home Thursday. The report of his death is believed to have arisen from a newspaper dispatch detailing the death of a Toledo man of similar name.

LOCAL LINES.

Born, to Mr. and Mrs. George Clapesattle—a daughter. Mr. Clapesattle is the South Broadway druggist.

Henry Smith this morning sold to John F. Mossman a farm of 120 acres in Aboit township, for a consideration of \$5,400.

L. A. Crowl will go to Indianapolis this week as the representative of Harmony lodge to the grand lodge of Odd Fellows.

Born, to Mr. and Mrs. Samuel Erington, of South Calhoun street—a daughter. Mr. Erington is a barber, and is very well known in the city.

A. C. Black, of Aboit, is at St. Joseph's hospital, where he was operated upon by Dr. Myers a week ago. He is making a rapid recovery from a serious illness.

C. J. Welker has returned from Buffalo, where he has been since the opening of the Pan-American exposition. Mr. Welker was in charge of a souvenir book.

Oran Pegg, of Zollars avenue, had returned from Michigan, where he purchased an extensive peach orchard. Mr. Pegg will go into the business extensively next year.

Superintendent Gorsline has been asked to learn if he can what it was that occasioned the insanity which resulted in the subsequent death of Charles Orvis, alias Arthur Livingston, which occurred at the county asylum last April. It will probably be remembered that Livingston came here with a theatrical company, was taken sick, became deranged and was afterward taken to the county asylum, where he died. The inquiry came from the police department at Chicago and the statement of the attending physician, the coroner, the asylum attaches and the undertaker was forwarded by Superintendent Gorsline.

Three ordinary plain drunks, gathered in Saturday or left over from Saturday night, was the result of police vigilance during the past forty-eight hours. On Monday at police court the three penitent bibulants were arraigned and each one with a tinge of remorse and abashed breath in his voice admitted that what the affidavits charged was true. The names they surrendered for inspection were Ed W. Rockhill, Ernest Meyer and John Moke. They were soaked for \$11 each, Rockhill producing the coin and the other two going over. Moke is not a stranger at the municipal justice mill and his photograph has long since adorned the police gallery. He was one of the principal hangers-on at the Cain jag emporium at the corner of Lewis and Calhoun streets. Cain was driven out of town and Hoolihan, one of his chief cappers, is doing a matter of 483 days in the county jail, having drawn the longest sentence ever imposed in a police court in Fort Wayne. He got \$300 in the way of a fine and six months added to bind the bargain.

FROM TRAIN TO HOSPITAL.

Miss Ollie Good, of Warren, Ind., was removed from the Lake Shore depot to St. Joseph hospital in the police ambulance this afternoon at 2 o'clock. The young woman was too ill to give a coherent account of herself, and her condition is considered alarming. She came in on the Lake Erie train shortly before 2 o'clock.

R. H. Mauk has been summoned to Columbus, Ohio, to attend the funeral of a relative.

IN JUSTICES' COURTS.

The charge against Jerry Grabner, of Egerton, alleging that he had sold liquor to minors was dismissed by Justice Huser. The prosecuting witness when placed on the stand dealed that he had ever taken a drink at Grabner's place and it was with apparent effort that he recollected who Grabner is. The prosecuting witness was too stricken off without further ado.

Constable Ford went to Sheldon last Saturday to arrest Benjamin Weaver, who is charged with plugging Kasmas Kraus in the eye. Benjamin was formerly a saloonkeeper, but more recently has been a farmer. His predilection for buccolic pursuits is presumed to have been superinduced by his aversion to dynamite. One pleasant evening several years ago Mr. Weaver found himself flying through the air at a great rate of speed. When he recovered consciousness after he had returned to terra firma, he was informed that some crusaders had paid him a friendly call and had left a hole in the ground where his saloon was once reared in more or less majesty. He then retired to the farm and Friday took a poke at Mr. Kraus and swore some. Kraus came to town and filed an affidavit against him for assault and battery and a second one for profanity.

The warrants in the cases of the state vs. Nieschang, for violation of the health laws as charged by Commissioner MacBeth, have not yet been served. They were issued from Bullerman's court.

Henry Kremer has filed three affidavits against James Parker in Huser's court. The three charges practically cover the same offense. One charges the defendant with Sabbath desecration, another charges hunting on Sunday and the third charging hunting on enclosed land without the permission of the owner. The parties to the suit live near Lindenwood cemetery, where the offense is said to have been committed on the Ely Hoffman farm.

Justice France on Monday assessed a fine of \$1 and costs against Jacob Harber for assault and battery on Benjamin Weaver, of Sheldon. Mike Stenbach, also of Sheldon, has been arrested for assaulting Mr. Weaver and his case will be heard tomorrow. It will be remembered that Mr. Weaver paid a fine last Saturday for an assault on somebody else, and altogether the little scrap at Sheldon has proved a very prolific incident for the justices, constables and prosecutor.

Justice France Monday morning cleared his throat with a few preliminary coughs and then pronounced William M. Miller and Louise Underwood man and wife.

Justice Tancey is still busy with the suits instituted by railroad men against the Fort Wayne storekeepers for violation of the law respecting the sending of claims out of the state for collection. This morning August Emerick filed an affidavit against Wendell Frank. He claims that he does not owe the bill and that if he did it would be of over twelve years' standing. Gustave Bessert has filed an affidavit against Albert Buk on the same grounds. The case against Dr. Geo. Thain was dismissed by Justice Tancey, it having been shown that Thain had not sent the bill out of the state, but had sold it outright and received his money for it.

Albert Buck was yesterday fined \$20 and costs on the affidavit of Gus Bessert, who charged him with sending a claim out of the state for collection and garnishment. Mr. Buck immediately appealed the case and filed bond. It was shown in court that the same claim had once before been garnished and that it had been settled in Judge Zollars' office on conditions mutually satisfactory, hence the judgment in his second case.

Two cases against Charles Eckert for sending claims out of the state for collection were set for trial in Tancey's court today. One was on complaint of Joseph Manier and the other on complaint of Mrs. Ollie Donahue.

The cases against Dr. Nieschang, on charge of violating the health provisions, in failing to report contagious diseases, have been postponed until Thursday, when they will be heard in Bullerman's court.

FROM TRAIN TO HOSPITAL.

Miss Ollie Good, of Warren, Ind., was removed from the Lake Shore depot to St. Joseph hospital in the police ambulance this afternoon at 2 o'clock. The young woman was too ill to give a coherent account of herself, and her condition is considered alarming. She came in on the Lake Erie train shortly before 2 o'clock.

R. H. Mauk has been summoned to Columbus, Ohio, to attend the funeral of a relative.

Dr. Bull's Cures all Throat and Lung Affections. Get the genuine. Refuse substitutes. IS SURE. Salvation Oil cures Rheumatism, 15 & 25 cts.

DR. TALMAGE'S SERMON.

CHRISTIAN HOPE A REMEDY FOR ALL EARTHLY DEPRESSION—CAN MAKE ALL THE HARD PLACES SMOOTH.

Washington, D. C., Nov. 17.—In this discourse Dr. Talmage would lift people out of despondency and bring something of future joy into earthly depression. The text is Hebrews vi., 19: "Which hope?"

There is an Atlantic Ocean of depth and fullness in the verse from which my text is taken, and I only waded into the wave at the beach and take two words. We all have favorite words expressive of delight or abhorrence—words that easily find their way from brain to lip; words that have in them mornings and midnights, laughter and tears, thunderbolts and dew-drops. In all the lexicons and vocabularies there are few words that have for me the attractions of the last words of my text: "Which hope?"

There have in the course of our life been many angels of God that have looked over our shoulders, or met us on the road, or chanted the darkness away, or lifted the curtains of the great future, or pulled us back from the precipices, or rolled down upon us the reprobous music of the heavens, but there is one of these angels who has done so much for us, that we wish throughout all time and all eternity to celebrate it—the Angel of Hope. St. Paul makes it the center of a group of three, saying: "Now abideth faith, hope and charity," and though he says that charity is the greatest of the three, he does not take one plume from the wing, or one ray of luster from the brow, or one aurora from the cheek, or one melody from the voice of the angel of my text: "Which hope?"

That was a great night for our world when in a Bethlehem cantary the Infant Royal was born. There will be chanting in the skies, and a star pointing to the Nativity. I will not bother you with the hush of a definition and tell you what hope is. When we sit down hungry at a table, we do not want an analytical discourse as to what bread is. Hand it on; pass it round; give us a slice of it. John speaks of hope as a "pure hope." Peter calls it a "lively hope." Paul styles it a "good hope," a "sure hope," a "rejoicing hope." All up and down the Bible it is spoken of as an anchor, as a harbor, as a helmet, as a door.

LIGHTS UP DUNGEONS.

When we draw a check on a bank we must have reference to the amount of money we have deposited, but hope makes a draft on a bank in which for her benefit all heaven has been deposited. Hope! May it light up every dungeon, stand by every sick bed, lend a helping hand to every orphanage, loosen every chain, caress every forlorn soul and turn the unpictured room of the almshouse into the vestibule of heaven. How suggestive the mythology declares that when all other deities fled the earth the goddess Hope remained.

It was hope that revived John Knox, when on shipboard, near the coast of Scotland, he was fearfully ill, and was requested to look shoreward and asked if he knew the village near the coast, and he answered: "I know it well, for I see the steeple of that place where God first opened my mouth in public to His glory, and I am fully persuaded how weak that ever I now appear I shall not depart this life till my tongue shall glorify His holy name in the same place." His hope was rewarded and for twenty-five more years he preached. That is the hope which sustained Mr. Morrell, of Norwich, when, departing this life at 24 years of age, he declared, "I should like to understand the secrets of eternity before tomorrow morning." That was the kind of hope that the corporal had in the battle, when, after several standard-bearers had fallen, he seized the flag and turned to a lieutenant colonel and said: "If I fall, tell my dear wife that I die with a good hope in Christ, and that I am glad to give my life for my country." That was the good hope that Dr. Goodwin had in his last hour, when he said, "Ah, is this death? How have I dreaded as an enemy this smiling friend?"

Philip de Morney, prime minister of Henry IV., when asked in his last hours whether he was certain of eternal felicity, replied: "I am as confident of it from the incontestability of the spirit of God as ever I was of any mathematical truth from all the demonstrations of Euclid." That was the hope that cheered Varna, the converted native of the Island of Aime, when he said in his last moment: "The canoe is on the sea; sails are spread; she is ready for the gale. I have a good pilot to guide me and a good haven to receive me."

No better medicine did a man ever take than hope. It is a stimulant, a febrifuge, a tonic, a catholicon. Thousands of people, long ago departed this life, would have been living today but for the reason they let hope slip their grasp. I have known people to live on hope after one lung was gone and disease had seemed to lay hold of every nerve and muscle and artery and bone.

DIVIDED HIS PROPERTY.

Alexander the Great, starting for the wars in Persia, divided his property among the Macedonians. He gave a village to one, a port to another, a field to another, and all his estate to his friends. Then Perdiccas asked:

"What have you kept for yourself?" He answered, triumphantly: "Hope."

And whatever else you and I give away, we must keep for ourselves hope—all comforting, all-cheering hope. In the heart of every man, woman and child that hears or reads this sermon, may God implant this principle right now.

Many have full assurance that all is right with the soul—they are sure of heaven, as if they had passed the pearly panels of the gate, as though they were already seated in the temple of God unrolling the libretto of the heavenly chorister. I congratulate all such; I wish I had it, too—full assurance—but with me it is hope. "What hope?" Sinful, it expects forgiveness. Troubled, it expects relief. Bereft, it expects reunion. Clear down, it expects wings to lift. Shipwrecked, it expects lifeboat. Bankrupt, it expects eternal riches. A prodigal, it expects the wide-open door of the father's farmhouse. It does not wear itself out by looking backward; it always looks forward. What is this use of giving so much time to the rehearsal of the past? Your mistakes are not corrected by a review. Your losses cannot, by brooding over them, be turned into gains. It is the future that has the most for us, and hope cheers us on. We have all committed blunders, but does the calling of the roll of them make them any the less blunders? Look ahead in all matters of usefulness. However much you may have accomplished for God and the world's betterment, your greatest usefulness is to come. "No," says some one, "my health is gone." "No," says some one, "my money is gone." "No," says some one, "the most of my years are gone, and therefore my usefulness." Why, you talk like an infidel. Do you suppose that all your capacity to do good is fenced in? This life? Are you going to be a lounger and a do-nothing after you have quit this world? It is my business to tell you that your faculties are to be enlarged and intensified and your qualifications for usefulness multiplied tenfold, a hundred-fold, a thousand-fold.

Is your health gone? Then that is a sign that you are to enjoy a celestial health compared with which the most jocund and hilarious vitality of earth is invalidism. Are your fortunes spent? Remember, you are to be kings and queens unto God; and how much more wealth you will have when you reign forever and ever! I want to see you when you get your heavenly workdress on. This little bit of a speck of a world we call earth is only the place where we get ready to work. We are only journeymen here, but will be master workmen there. Heaven will have no loafers hanging around. The Book says of the inhabitants: "They rest not day nor night." Why rest when they work without fatigue? Why seek a pillow when there is no night there? I want to see you after the pedestrianism of earth has been exchanged for power of flight, and velocities infinite, and enterprises interstellar, inter-world.

NOT BY LAZINESS.

I suspect that the telescope of that observatory brings in sight constellations that may comprise ruined worlds which need looking after, and need help saintly and missionary. There may be worlds that, like ours, have sinned and need to be rescued, perhaps saved by our Christ, or by some plan that God has thought out for other worlds as wise, as potent, as lovely as the atonement is for our world. The laziness which has cursed us in this world will not gain the land of eternal activities—so much tonic in the air, so much inspiration in the society, so much achievement after we get the shackles of the flesh forever off. Do not dwell so much on opportunities past, but put your emphasis on opportunities to come. Do not count the battles lost, but scour your musket for victories to come.

Am I not right in saying that eternity can do more for us than can time? What will we not be able to do when our powers of locomotion shall be quickened into the immortal spirit's speed? Why should a bird have a swiftness of wing when it is of no importance how long it shall take to make its aerial way from forest to forest, and we, who have so much more important errand in the world, get on so slowly? The roebuck outruns us; the hounds are quicker in the chase, but wait until God lets us loose from all limitations and hindrances. Then we will fairly begin. The starting post will be the tombstone. Leaving the world will be graduation day before the

chief work of our mental and spiritual career.

Hope sees the door opening, the victor's foot in the stirrup for the mounting. The day breaks—first flush of the horizon. The mission of hope will be an everlasting mission, as much of it in the heavenly hereafter as in the earthly now. Shall we have gained all as soon as we enter realms celestial—nothing more to learn, no other heights to climb, no new anthems to raise, a monotony of existence, the same thing over and over again for endless years? No! More progress in that world than we ever made in this. Hope will stand on the hills of heaven and look for ever-brightening landscapes, other transfigurations of color, new glories rolling over the scene, new celebrations of victories in other worlds, heaven rising into grander heavens, seas of glass mingled with fire, becoming more brilliant glass mingling with a more flaming fire. "Which hope?"

AT TIMES HOPELESS.

Now let me introduce this feeling into the lives of some who are at times hopeless. There is a family whose son has gone wrong. Father and mother have about given him up and the old folks do not know half the story of moral precipitation. He has ceased writing home, but they hear of him through people who like to carry bad news, and every time the report is more deplorable. He swears, he gambles, he drinks, he goes into all the shambles of sin. His former employer says there is no hope for him, and all outside the family agree in thinking he will never reform. The father and mother have not quite given him up, and these words are to strengthen their hope. That boy is going to come back. You have a hold on him that you must not relax. Through prayer you may win the eternal God for your side of the struggle. You must enlist all the heavenly dominions, cherubim and seraphim and archangel in the movement to save your son. Some day or some night he will call a halt to his infamous practices. Something will happen to him, as happened in a New York hotel to a son of one of the most distinguished clergymen of Scotland and one of the queen's chaplains. "When can I see you?" said a distinguished-looking young man at the close of one of my services in Brooklyn Tabernacle. I said, "You can see me now." He said, "No; I want a private conversation with you at your own house. When can I come?" I said, "Tomorrow night." "Your name," I asked. He gave me his name, the exact name of his father, whose name was known and is known throughout the Christian world, though years ago he departed this life. Returning home, I took up a book of which his father was the author, and in the picture at the opening of the book I found that the young man had most markedly his father's features. So I was sure there was no deception.

On the following evening he came. He said that he was the black sheep of the family flock. He had wandered the world over and been in all kinds of wickedness, but a few nights before, after reading a letter from his mother in Scotland, he had retired to sleep, but in the adjoining room he heard some young men in such horrible conversation he could not sleep. He was shocked, as he had never before been, by the talk of bad men. He arose, struck a light, took out the letter from his mother and knelt down by his bedside and said "O, Lord, God of my mother, have mercy on me!" He said that since that prayer he has entirely changed, and loved what he before hated, and hated what he before loved, and asked what I thought it all meant. I replied: "You have become a Christian." He said he might be called at any time to leave the city. I never saw him again, but it seemed to me that he had turned his back upon his wicked past and had started in the right direction. And it may be so with your boy. Write him often. Tell him how you are all thinking of him at home, and, it may be, your letter in hand, he may call upon his mother's God to help and save him. Hope! you of the gray hairs and wrinkles. Heaven has its thousands of souls who were once as thoroughly wrong as your boy is. They repented, and they are with the old folks in the heavenly air of the eternal hills where they have become young again. Hope on, and though you may never hear of your son's reformation, and others may think he has left this life hopeless, who knows, but that in the last moment, after he has ceased to speak and before his soul launches away, your prayer may have been answered, and he be one of the first to meet you at the shining gate. The prodigal in the parable got home and sat down at the feast, while the elder brother, who never left the old place, stood pointing at the back door and did not go in at all.

SERVE THE LORD.

To another class of persons I introduce the angel of hope, and they are the invalids. Perhaps after long watching, or overwork, or towering grief, your nervous system is ruined. Perhaps you have a hidden disorder that the world knows nothing about, and which you cannot with delicacy speak of. Perhaps it may be a rheumatism that distorts and in-

flames, or a neuralgia which runs its sharp knife along the temples of your forehead. Perhaps it is indigestion, causing food which is a repuscation to others to become a torture to you. Perhaps it is insomnia which keeps you wide awake at 12 o'clock at night as at 12 o'clock at noon, and hour after hour, like one in the blue times, you cry: "Would to God it were morning."

I cannot take the diagnosis of your disorder, but let hope cheer you with one or two thoughts. Such marvelous cures are being wrought in our day through medication and surgery that your invalidism may yet be mastered. Persons as ill as you have got well. Cancer and tuberculosis will yet give way before some new discovery. I see every day people strong and well who, not long ago, I saw pallid and leaning heavily on a staff and hardly able to climb a stairs.

But if you will not take the hand of hope for earthly convalescence, let me point you to the perfect body you are yet to have if you love and serve the Lord. Death will put a prolonged anaesthetic upon your present body and you will never again feel an ache or pain, and then in His good time you will have a resurrection body, about which we know nothing except that it will be painless and glorious beyond all present appreciation. What must be the health of that land which neither feels out of cold nor blast of heat, and where there is no east wind sowing pneumonias on the air, your feetness greater than the foot of deer, your eyesight clearer than eagle in sky?—perfect health, in a country where all the inhabitants are everlastingly well! You who have had in your body an encysted bullet ever since the civil war! You who have kept alive only by precautions and self-denials and perpetual watching of pulse and lung! You of the deafened ear and dim vision and the severe backache! You who have not been free from pain for ten years! How do you like this story of physical reconstruction, with all weakness and suffering subtracted and everything joyous and bounding added?

WITH THE GLOOM.

Do not have anything to do with the gloom that Harriet Martineau expressed in her dying words: "I have no reason to believe in another world. I have had enough of life in one and can see no good reason why Harriet Martineau should be perpetuated." Would you not rather have the Christian enthusiasm of Robert Annan, who, when someone said, "I will be satisfied if I manage somehow to get into heaven," replied, pointing to a sunken vessel that was being dragged up the river Tay, "Would you like to be pulled into heaven with two tugs like that vessel yonder? I tell you I would like to go in with all my sails set and colors flying."

Again, let me introduce the element of hope to those good people who are in despair about the world's moral condition. They have gathered up appalling statistics. They tell of the number of divorces, but to not take into consideration that there are a thousand happy homes where there is one of marital discord. They tell you of the large number in our land who are living on prodigal lives, but forget to mention that there are many millions of men and women who are doing the best they can. They tell you the number of drunkards in this country, but fail to mention the thousands of glorious churches with two doors—one door open for all who will enter for pardon and consolation and the other door opening into the heavens for the ascent of souls prepared for translation.

Those pessimists do not realize that two inventions of our times are going to make it possible under God to bring this whole world into salvable and millennial condition within a few weeks after those two inventions shall be turned into the service of God and righteousness, as they will be. I refer to the telegraph and the telephone. If you think that God allowed those two inventions to be made merely to get rapid information concerning the price of railroad stocks, or to call up a friend and make with him a business engagement, you have a very abbreviated idea of what can be done with those two instruments. The intelligence of the world is to be expanded and civilization will overcome barbarism, and illiteracy will be extirpated, and the promise will be literally fulfilled—"A nation born in a day."

Let hope say to the forlorn: "Do all you can with Bible and spelling book and philosophic apparatus, but toil with the sunlight in your faces, or your efforts will be a failure. The pallor in the sky is not another phase of the night, but the first sign of approaching day, which is as sure to come as tonight will be followed with tomorrow. Things are not going to ruin. The Lord's hosts are not going to be drowned in the Red Sea of trouble. Miriam's timbrel will play on the high banks 'Israel Delivered.' High hope for the home. High hope for the church. High hope for the world.

AS AN ANGEL.

I introduce the angel of Hope to those who have through disease lost

Christian friends. "How could I find them," says a bereft soul, "up there in the land of the multitudinous?" You may find them by inquiry, by heavenly escort, and by unfailing memory of the guard at the gate. "And he carried me away in the spirit to a great and high mountain and showed me that great city, the holy Jerusalem, descending out of heaven from God, having the glory of God; and her light was like unto a stone most precious, even like a jasper stone, clear as crystal; and had a wall great and high, and had twelve gates, and at the gates twelve angels." So you see there will be an angel guarding each gate. As you go in ask the armed guard. He saw your loved one pass through and will know the direction to take, and by what fountain or in what street of gold is the mansion prepared. The blessed Christ knows where your departed loved one is, and He will tell you if no one else will. Fifty ways of finding out the whereabouts of your ascended one. "But will I surely know him when I get there, for he will be so changed?" Yes; for you will be just as much changed and the old affinity will assert itself. The soul will be as easily distinguished by the soul there as on earth the body is distinguished by the body.

Open that closed instrument of music in your parlor that has not been played on since the hand of the departed player forgot its cunning. Put up before you on the music board the notes of the hymn of Isaac Watts and sing, "There is a Land of Pure Delight," or James Montgomery's hymn, "Who Are These in Bright Array?" or Elmore Bennett's "Sweet Bye and Bye;" or "Jerusalem the Golden." Take some tune in the major key—"Ariele," or "Mount Pisgah." While you play and sing the Angel of Hope will stand by you and turn the leaves and join in the reprobous rendering. Reunion with the loved and lost! Everlasting reunion! No farewell at the door of any mansion! No good-bye at any of the twelve gates! No more dark apparel of mourning, but white robe of exultation! Hope now is on its knees with face uplifted, but Hope there will be on tiptoe or beckoning to you to follow, saying: "Come and hear the choirs sing! Come and see the procession march! Come and see the river of life roll! Come with me over the hills that rise into everlasting

heights." Celestial Alps and Himalayas hoisted into other Alps and Himalayas!

READ SCRIPTURAL PROMISES.

From this hour cultivate hope. Do so by reading all the Scriptural promises of the world's coming Edenization, and doubt if you dare the veracity of the Almighty when He says He will make the desert roses, and the leopard and kid will lie down in the same pasture field, and the lion, ceasing to be carnivorous, will become graminivorous, eating "straw like an ox;" and reptilian venom shall change into harmless, so that the "weaned child shall put his hand on the cockatrice's den, and there shall be nothing to hurt or destroy in all God's holy mountain, for the earth shall be full of the knowledge of the Lord, as the waters cover the sea." So much for the world at large.

Then cultivate hope in regard to your own health, your own financial prosperity, your own longevity, by seeing how in other people God mercifully reverses things and brings to pass the unexpected, remembering that Washington lost more battles than he gained, but triumphed at the last. And, further, by making sure of your eternal safety through Christ Jesus, understand that you are on the way to palaces and thrones. This life a span long ending in duration of bliss that neither human nor archangelic faculties can measure or estimate—redolence of a springtime that never ends, and fountains, tossing in the light of a sun that never sets. May God thrill us with anticipation of this immortal glee! "Which hope?"

I said in the opening of this subject that my text was only the wave of the beach, while the whole verse from which it is taken is an ocean. But the ocean tides are coming in, and the sea is getting so deep I must fall back, wading out as I waded in; for what mortal can stand before the mighty surges of the full tide of eternal gladness? "Eye hath not seen, nor ear heard, neither hath entered into the heart of man the things which God hath prepared for them that love Him."

ROBERT YOUNG TO WED.

Genial Bob Young, the popular ex-deputy sheriff, was seen on the street this afternoon all "primed up" like a May queen and looking like a fash-

Gray?

Perhaps you like the idea of looking 25 or 30 years older than you are! If not, use Ayer's Hair Vigor. It completely restores the color to gray hair, all the dark, rich color it used to have. No use in looking old before your time.

"I am over sixty years of age and my hair is very handsome. People tell me I don't look nearly that old, because my hair is so dark and thick." You know I use Ayer's Hair Vigor. Mrs. H. F. Borgeol, Phoenix, N. Y. St. All druggists. J. C. AYER CO., Lowell, Mass.

ion plate, and when one of his friends suggested that he looked as sweet as a bridegroom the confirmed old bachelor grinned and remarked: "Not on your life! Can't a fellow dress up once in awhile without a lot of you monkeys getting jealous?" A few minutes later Bob sidled into the county clerk's office and when he left he had a marriage license tucked under his coat, bearing the names of Robert Young and Bertha Strodel. The bride is a sister of Officer Strodel and lives at 42 West Fourth street. The court house boys are just waiting until the ceremony is performed, when they will give Bob and his bride such a shower of congratulations that they will wonder why they didn't think of it long ago.

CHEAP EXCURSION TO CHICAGO.

December 2nd, 3rd and 4th the Nickel Plate Road will sell tickets to Chicago and return at very low rates for the National and International Live Stock Exposition. Return limit, Dec. 8th. All of these excursion tickets to be presented by holders to the joint agent to be stamped before returning. For particulars consult any agent of the Nickel Plate Road or C. A. Asterlin, T. P. A. Fort Wayne, Ind., or R. J. Hamilton, Agent, Fort Wayne, Ind. 19-21-26-28-D2-W20-27

Miss Mary Willard and sister, Mrs. Ridenour, accompanied by her two children, have returned from Chicago, where they were visiting their brother, J. C. Willard.

THE BELL'S SLAUGHTER SALE.

Exceptional Price Savings.

That Fact we have proven to the entire Satisfaction of hundreds. Search where you will, you will not find such Saving Opportunities as offered here.

Our Men's Suits or Overcoats at \$5.90

Are Very Serviceable and sure to give Satisfaction.

Our Men's Suits or Overcoats at \$8.47

Are full of style, nicely Tailored and Trimmed.

Our Men's Suits or Overcoats at \$9.88

Are beyond question the best for the money in town.

Our Men's Suits and Overcoats at \$11.40

Contain all the characteristics of made-to-order garments at double the price.

Our Men's Suits and Overcoats at \$15

Have no equal for style, fit and general goodness. There is an exclusiveness and refinement about them that can only be produced by the best tailors.

Our Boy's Reefers at \$1.95

Were manufactured to sell wholesale at \$2.95.

THE BELL,
18 Calhoun St.

The Weekly Sentinel.

 SUBSCRIPTION: In Advance.....\$1.00
 At End of Year.....\$1.50

WEDNESDAY, NOV. 20, 1901.

If the revenue laws can follow the flag some of the constitution ought to be able to amble along after it.

We congratulate the people of the northeastern part of Allen county upon improvement in the prospect of electric railway connections with Fort Wayne. The Hicksville and Fort Wayne line will be a boon to them.

The application of the postmaster general for a practical doubling of the appropriation for rural free delivery may seem a large order, but the undoubted benefits of the system make it reasonable, as much money has not infrequently been spent in less beneficial ways.

The hanging of Joseph Keith in the prison at Michigan City is the first legal execution to take place in Indiana for many years. It is interesting to note that at the present time there are two other convicted murderers in this state who are awaiting infliction of the death penalty.

Whether James J. Hill or E. H. Harriman is to be the real head of the two-billion-dollar railway combine is not of so much interest to the public as when that giant combination will multiply itself by two or three and practically control the railway business of the country. The socialists see in these tremendous consolidations approach of the time when government ownership will be easy of achievement.

A rather remarkable testimony to the genuineness of the present prosperity is afforded by the report of the fourth assistant postmaster general. He declares the extraordinary increase in the number of resignations from fourth-class offices is due to the fact that men find greater opportunities for betterment in civil life than in the public service. It may yet really come to the office seeking the man.

Postmaster General Smith's paper has declared for a contest of the recent election in Philadelphia. The demand is based upon the statement that the vote cast for district attorney was greater than that cast for the state offices and greater than that for president last year. This it considers indubitable evidence of fraud and charges that 40,000 illegal votes were cast or counted. If this assertion can be proved it would, of course, mean a reversal of the declared result of the election in Philadelphia and in the state of Pennsylvania. As the matter is now presented it is said not to be simply a question of the elective offices of Philadelphia, but the broader one of the honesty of elections. To prove 40,000 illegal ballots seems an almost impossible task, yet the opposing faction seems confident of its ability to do this.

The execution of Joseph Keith brought out a peculiar incident of his very noteworthy case. He died confessing his crime. For more than a year and a half Keith maintained his innocence and spent a considerable fortune in trying to convince courts of it. He leaves his family almost destitute and devoted friends amazed. But two or three days ago one of the most influential newspapers in Indiana urged the governor to reprieve Keith on the ground that solution of the mystery surrounding the tragic death of two women at Evansville might solve the mystery of the death of Nora Kifer, who was also murdered near Evansville. Doubtless many persons who had previously believed Keith guilty were impressed by the reasonableness of such a view. Of course Keith's confession wholly disposes of the idea that the perpetrator of the Evansville murders had anything to do with the death of Nora Kifer.

The teller of a Brooklyn bank who confessed that another teller, now dead, and himself, robbed the institution of \$60,000, is rather unique in his line. With a dead man upon whom to blame the whole thing, if he cared to, the living teller proved that he is not altogether a liar even

though he be a thief. Moreover, if was a consideration of the dead man, that needed only the living thief's dishonest confession that he alone was to blame to become truly heroic.

The Yankee inventor who promises to have practicable flying machines on the market at \$2,000 apiece by next summer threatens to cut off the automobile craze in its infancy.

At all events Mr. Buhlin cannot find in the issue of his fight with Mr. Jeffries anything that can be construed as a call to go upon the stage. A dime museum is much more a fitting place for him to display his histrionic talents.

That rebellion that is being fomented up in the Klondike country may last through the winter, but it is not likely to survive the first fortnight of warm weather. Half-baked rebellions do not pan out well in Canada. The Riel uprising is not yet ancient history.

An Indiana newspaper has proposed as a presidential ticket in 1904 Theodore Roosevelt and Albert J. Beveridge. Roosevelt will consent, but not so the Indiana senator. He expects to do things between this time and 1908 that will move his fellow citizens to mention Beveridge and Somebody as a likely combination.

The name of the president of the United States is Roosevelt, and Roosevelt is president of the United States. Senator Platt now knows it and Secretary Gage now knows it. Collector Bidwell, of New York, is to be removed to give place to a less offensive partisan. President Roosevelt is giving good proof that he will not yield to the spoilsman.

Garrett republicans have announced their preference for Mr. E. F. Yarnelle, of this city, for the republican nomination for congress in this district. We do not know whether Mr. Yarnelle is willing to enter the political arena, but if he is, the republicans of the Twelfth district can go a long way before finding a better man to nominate for congress.

An Indian belle who married a white man has left him and returned to the roof of her aboriginal father because her husband smoked cigarettes and got drunk, besides beating her. With her marriage seems to have been a failure. In respect of drinking her white husband was not better than an Indian and in respect of smoking cigarettes he was worse.

It is stated in a Washington dispatch that the Schley court of inquiry will have its findings ready to report in a few days and that a complete vindication of Admiral Schley is to be the burden of the report. It is also stated that the report will be brief and of such composition that every person who reads it will understand what it means. It ought to require few words to pay formal tribute to the gallantry and ability of Admiral Schley. The court might report that "Schley's all right," without having said too little.

Secretary of the Navy Long urges in his annual report the establishment of a strong naval reserve, to correspond with the national guard of the several states. The difficulty of getting sufficient men to man the naval vessels during the Spanish-American war, as Secretary Long points out, contrasted strongly with the readiness with which a large army was mobilized in a few weeks from the militia of the states. Progress has been made in organizing the naval reserves, but it will have to be pushed if it is to keep pace with the proposed enlargement of the navy.

ALL WHO USE ATOMIZERS in treating nasal catarrh will get the best result from Ely's Liquid Cream Balm. Price, including spraying tube, 75 cts. Sold by druggists or mailed by Ely Bros., 56 Warren St., N. Y.

New Orleans, Sept. 1, 1900. Messrs. Ely Bros.—I sold two bottles of your Liquid Cream Balm to a customer, Wm. Lambertson, 1415 Delachaise St., New Orleans; he has used the two bottles, giving him wonderful and most satisfactory results. GEO. W. M'DUFF, Pharmacist.

Miss Jennie McClelland is home from a visit with friends in Roanoke.

THE CHINESE QUESTION.

There is now considerable discussion as to the renewal of the Chinese exclusion act, which will expire by limitation next May. There are intimations that corporate influences will be exerted in favor of letting the law die, while the labor organizations are already beginning an open campaign for its re-enactment.

There is little reason to suppose that the majority of the people would support the throwing open of the gates to Chinese labor. Chinese labor in this country is practically contract coolie labor. While the United States wishes workers, it does not wish that kind of workers. It comes close enough to it now in the types of labor that come from the Mediterranean and Danubian countries.

The practical impossibility that the general exclusion law will be allowed to expire renders it pertinent to point out that its extreme rigidity might well be relaxed in some respects. The illustration of its ultra nature was seen the other day in the statement that if Mr. Wu were removed from his office the Chinese exclusion act would forbid him to stay in the country. He or others like him might be very useful in teaching American youths to prepare for engaging in Chinese trade, but the law as it now stands would shut them all out.

The law should continue to shut out Chinese coolie labor. But it might well be amended by the commonsense provision that Chinese people of means coming to the country for travel or study, or Chinamen of education desired as teachers here, shall not be excluded.

ENLIGHTENING THE WORLD.

More and more the eyes of the nations turn to America. M. Miller, and, the French minister of commerce, proposes to send over young men to study American industries. M. Bouquet, the director in chief of the department of technical instruction in the ministry of commerce, has presented the idea in these words:

"M. Miller himself is the initiator of the scheme. We realize that America now leads the van in industrial progress. She is far ahead of England, Germany and ourselves in organization and methods of work. Hitherto we have been sending numbers of engineering students to Germany, England and Belgium, but the minister has come to the conclusion that the field which offers the greatest profit in their study is the United States. He has, therefore, resolved to concentrate his efforts there."

"A few students will still be sent to European countries to study special industries, but for general technical education they will go to the United States, where they will be able to study, under competent guidance, that audacity, inventive genius and marvelous organization which has lifted the industrial world of America above her European rivals."

It is proposed to establish a central bureau or college in Philadelphia or Chicago, with directors fully acquainted with the industries under their supervision, and every effort will be made to learn all that can be learned about the superior methods and up-to-date plants in the United States. M. Bouquet remarks: "The step we are taking ought not to excite suspicion, as it is really homage to the United States. The students will not go to discover industrial secrets, but to finish their education, and, before the scheme is put into execution, we shall ask the co-operation of the American government and the leading American industrial concerns." In short, it is another example of American liberty, ingenuity and enterprise enlightening and benefiting the world at large.

Down in Kokomo the metropolitan police regulations have been applied to the liquor laws and yesterday was the first Sunday in a long time the saloons were closed and the town described as having been "tight." With the advent of the metropolitan police system some months ago the policy of "reasonable enforcement" of the law was inaugurated. A week ago yesterday there was a drunken brawl in a saloon which almost resulted in a murder. The town was stirred up and the result is enforcement of the law. It is not highly creditable that a fear of Sunday murders rather than sense of public duty has brought such a change about, but we suppose the law-abid-

ing people of Kokomo are glad enough that it has come without asking questions why it has.

The Maine woods, from all reports, would appear to be a good safe place for a murderer to inveigle a victim. There's a startling number of men mistaken for deer.

Senator Platt persistently refuses to be turned down. Whatever the president does meets with his approval—because there is no help for it. The "easy boss" is the Mark Tapley of national politics.

The shoemakers of Vienna who threaten to break the windows of all the shops in which American-made shoes are sold seem disposed to furnish a smashing advertisement of the cheapness and popularity of the American article.

Earl Li was stripped of his yellow jacket and peacock feather when alive, but the empress dowager now confers honors upon his posterity to the twenty-third generation. This ought to endow his descendants with more than the ordinary celestial veneration for their ancestor.

General Alger warns the republicans of Michigan that supremacy of their party in that state is threatened by continued dominance of Senator McMillan over the party. General Alger does not directly point him out, but he has in mind a good man any time the republicans want a successor to McMillan.

In some quarters there is an effort to affect ridicule of Governor Van Sant's announced intention to prevent by the laws of Minnesota the gigantic railway consolidation just arranged in New York between the Morgan-Hill and the Harriman interests. The Minnesota governor is likened to a pigmy attacking a giant, a figure that doesn't always mean the same thing. Since the days when jumpy David triumphed over the terrible Goliath pigmies have now and then put the mighty to rout. Just lately an obscure sales agent caused a slump of many millions in Amalgamated Copper stocks and more notably still a few school teachers in Chicago successfully fought to a finish a venal tax board and the united corporate interests of the state of Illinois on the issue of taxing corporate franchises. Governor Van Sant may do something. A pebble may ditch a train.

It is said that in his message to congress President Roosevelt will ask for legislation for the suppression of anarchy, the decrease of the surplus by war tax reduction, and the creation of a ship subsidy. He will advise continuous progress on reciprocity. A department of commerce headed by a cabinet minister will be advised. The re-enactment of the Geary act and laws barring anarchists will be urged. Only general reference will be made to the trust problem. The necessity for the highest efficiency in the naval and military establishments will be dwelt upon. The Nicaraguan canal route will be favored, also the Hay-Pauncefote treaty. The irrigation of the arid lands of the west will be strongly advocated. Cables to our insular possessions are to be suggested, and the progress in the islands will be reviewed at some length.

AT KANE'S

ALL THIS WEEK YOU WILL FIND EXTRAORDINARY VALUES

In underwear, gloves, mittens, stockings, socks, knit jackets and fasci-nators. Now is the time to select your Christmas presents. Ask to see our great album for \$1.00; toilet boxes, shaving sets, cuff and collar boxes, gloves and handkerchief boxes. Come where you get big values for the least money at JAMES M. KANE'S.

DASTARDLY DEED

TRAIN DERAILED BY CHARGE OF DYNAMITE.

ROBBERY WAS THE PURPOSE

EXPRESS TRAIN GOES INTO THE DITCH.

FORTUNATELY NONE HURT

MISCREANTS WRECKED WRONG TRAIN AT YORK, PA.

York, Pa., Nov. 16.—The southwestern express on the Northern Central railway, due in this city at 10:44 p. m., was wrecked last night by a charge of dynamite placed under the track near Black Bridge, a short distance north of York. The train was running at the rate of forty-five miles an hour when the explosion occurred. Passengers on the train were severely shocked and consternation prevailed. All escaped injury. A piece of rail two and a half feet long was blown out of the track and three coaches were derailed and drawn over the ties a distance of 200 feet before the train was brought to a stop. Engine No. 3053, which drew the train, had its headlight blown off and the windows of the cab were shattered. The trucks under an express car and a day coach were badly wrecked.

Four Pullman cars, a day coach, a combination car and an express car composed the train. The spot where the wreck occurred is surrounded by high hills on one side and the Codorus creek on the other and is one of the loneliest places between Harrisburg and Baltimore. It is believed that the object of the perpetrators was robbery. The police advance the theory that the robbers had set the dynamite for the Buffalo express, which is said to carry considerable money, but for some unaccountable reason that train passed over the charge without exploding it.

At the place where the explosion occurred a hole was blown in the roadbed large enough to bury a man. Where the rail was broken the edges were cut off almost as clean as if done by shears.

The explosion occurred immediately under the day coach, which was four cars behind the engine. The passengers were greatly shocked, many throwing themselves on the floor of the cars until the train stopped. A panic prevailed among the passengers until they were assured that the danger was over.

WILL PURSUE MISCREANTS.

Philadelphia, Pa., Nov. 16.—Reports of the dastardly attempt to wreck the southwestern express on the Northern Central branch of the Pennsylvania railroad were received at the office of the company in this city this morning and steps were at once taken to locate and arrest the miscreants if possible. A force of detectives were ordered to begin operations from York and men were also sent from this city and Harrisburg. There is little hope here that the dynamiters will be captured, as it is believed they undoubtedly made their way to one of the large cities before daylight.

The wrecked train is the southwestern which left Washington at 7:45 o'clock last night and was due in Pittsburgh at 7:15 this morning. It had left York and was en route to Harrisburg when the explosion occurred.

HANECY PASSES SENTENCE.

Chicago, Nov. 16.—Judge Hanecy today passed sentence on Andrew M. Lawrence, managing editor, and R. S. Canfield, reporter, of W. R. Hearst's Chicago American for contempt of court and committed them to forty and thirty days' imprisonment, respectively, in the county jail.

AGED PAIR REVIVE ROMANCE.

Chariton, Iowa, Nov. 16.—An unusual and romantic marriage was performed by Rev. Mr. Johnson at Russell when he united the lives of Mrs. Anna E. Asby, of that place, and T. J. Ogle, a wealthy farmer of Montgomery county, Indiana. Each of the contracting parties is seventy-two years of age. They were raised together in Indiana. She was his first sweetheart and he was her first, but in an evil hour they quarreled. She removed to Iowa, while he remained in Indiana and became wealthy. They were not reconciled and both married. Her husband and his wife both died and she returned to her old home after an absence of fifty years and again met her sweetheart of former years. When she returned to Iowa an agreement was entered into which resulted in a renewal of the pledge of childhood days.

and Mr. Ogle came here to claim her as his bride. The couple will return to the old home in Indiana.

MARRIED AT HESSE CASSEL.

Miss Agnes Houser, of Hoagland, and Frank Carteaux, of Warsaw, were united in marriage last Thursday, the ceremony being performed at the Hesse Cassel Catholic church at 9 o'clock. The bridesmaid was Miss Mamie Henry, of New Haven, a niece of the groom, and Charles Houser, of Hoagland, a brother of the bride, was best man. The guests from a distance included Mr. and Mrs. Gus Carteaux, of Warsaw; Mr. and Mrs. Frank Henry and family and Mr. and Mrs. John Kennerk and family, of New Haven; Mrs. Jo-

séphine Carteaux, of Warsaw, mother of the groom, and the Misses Tena and Louise Schurger, of Decatur. Mr. and Mrs. Carteaux will be at home to friends at Warsaw after November 20.

BURIAL AT STATE LINE.

The remains of Charles Armbruster, who died at Wabash a few days ago, were brought to the home of a son at Woodburn, and funeral services were held at the Woodburn school house. The interment occurred at State Line cemetery, Rev. E. A. Bunner, of the Woodburn M. E. church, officiating. Mr. Armbruster was a native of Baden, Germany, and his age was 64 years, 3 months and 6 days.

A CLAIM FOR BIG DAMAGES

MRS. DOLAN SUES THE HORTON MANUFACTURING CO.

Claims Employers Were Responsible for Death of Her Husband in a Well—The Courts.

Mrs. Ella Dolan, administratrix of the estate of her deceased husband, Charles Dolan, has commenced suit against the Horton Manufacturing company and John C. Peters for damages in the sum of \$10,000. The suit is based on the allegation that Charles Dolan came to his death on the 21st of November, 1899, by reason of the negligence, contributory and direct, on the part of the defendants in the suit. It will be generally remembered that about two years ago Dolan, who was employed at the Horton company's works, in the west end, died from the result of injuries received in a rather peculiar manner. He was employed as fireman at the factory and went into a well near the factory to repair the pipe used to supply the steam boilers with water. A plank upon which he was standing broke and he was precipitated into the water in the well. This water, by reason of an alleged defect in the pipe referred to, was heated to almost boiling point by the steam escaping from the defective pipe, and Dolan was scalded to death in the well. The complaint alleges all these things and says that the defendants to the suit were aware of the dangerous condition of the pipe; that they had not made any effort to prevent the clogging of the valves in the injector which allowed the steam to escape into the well that no screen was placed over the mouth of the pipe, and that the well itself was improperly covered. A further allegation is made that the boiler in the factory had not been inspected according to law. The complaint is a lengthy one and was penned by Breen & Morris.

ABOUT THE COURT HOUSE.

In the application for a receiver for the Saengerbund Building association, Joseph Nussbaum was appointed receiver and immediately gave bond in the sum of \$500. His father, Peter Nussbaum, became his surety. C. F. Pfeiffer last week obtained judgment against Daniel Hurley in the sum of \$118.79. The action was on a note.

James Deel has filed a suit against the Erie Fire Insurance company on a policy for \$1,000.

Another suit on mechanic's lien was filed against the Union Cemetery church, at Hometown, W. Chester Scarlett being the latest plaintiff.

In Justice Tancey's court this afternoon Mrs. Ollie Donahue filed an affidavit against Charles Eckert for sending a claim out of the state for collection. The claim was sent to a Chicago collection agency for garnishee.

In the state supreme court today the motion of the appellant for leave to appeal, in the case of A. D. Branstetter vs. C. Therrine Branstetter was overruled. The appeal was then dismissed. The action sustains the ruling of the Allen circuit court.

George A. Wilbur has filed a claim against the receivership of the Fort Wayne Water Power company asking for an allowance of \$1,000 for services as attorney for the receiver. The claim is presented by N. D. Doughman, who certifies that the services rendered were worth the amount asked for in the claim.

The will of the late J. D. Sarnighausen has not yet been filed for probate, the document still being in the hands of James M. Barrett, who drew it. The terms of the will are known, however. They provide as usual for the payment of all debts of the deceased and for the suitable marking of his grave; for the relief of all incumbrances upon the Staats-Zeitung if there be any and then divides the Staats-Zeitung property to Mrs. A. L. Griebel, wife of the present manager of the newspaper. Other bequests are made to the employees of the paper, nearly all of whom have been with the establishment for a number of years and were regarded by the testator more in the light of old friends than as employees.

A friendly suit has been instituted by Sheriff Stout against the Allen county board of commissioners. The law requires that a matron shall be appointed for jails in counties of the population of Allen, but the law which makes the appointment obligatory fails to provide for the payment of the salary of such matron, which, however, it specifies shall be \$50 a month. A month or two ago, upon the advice of the county attorney, the sheriff appointed his wife matron, so that in case no way of paying the salary can be discovered the sheriff can put out of his own pocket and in that way, by keeping the money in the family, avoid a personal loss. Several days ago he presented his bill for services of the matron to the county commissioners and they promptly refused to allow the claim. For the purpose of test-

ing the law the sheriff has appealed from the decision of the commissioners so as to give the courts an opportunity to test the legality of the law.

The receiver of the Fort Wayne Water Power company files a report, showing the receipt of \$8,000, the expenditure of \$5,000, and a balance of cash on hand of \$3,000.

An appeal from the commissioners' court in relation to the Vanderau ditch has been filed in the circuit court.

William Moellering brings suit against August Eramion to foreclose a lien and asks for an injunction to prevent transfer of property; demand, \$200.

Clintons Schwartz has commenced proceedings against Dora L. Peterson et al to quiet title.

Down in Monroe township before Justice McCormick, Oliver Cowell commenced suit of the peace proceedings against John Wanamaker and the justice sustained the proceedings. The defendant appealed from the court and today the transcript was filed in the circuit court.

His Honor Judge Aiken today engaged the attention of the circuit court this week will be hearing the arguments on the motion for a new trial in the Dunn case. The court has not yet signified the date upon which the arguments will be heard, but it is understood that both the state and the counsel for the defense have agreed that the motion should be disposed of as speedily as possible.

Judge Aiken last Saturday rendered judgment in the several cases pending against George Zion, the general storekeeper and saloonkeeper at Five Points. The judgments were as follows: Lowry vs. Zion, \$114.25; Murdoch vs. Zion, \$339; Shively vs. Zion, \$717.25; Centlivre Brewing Co. vs. Zion, \$146.03.

The Edmunds Electric Construction company has commenced suit against Frank and Charles Chauvey for foreclosure of a mechanics lien.

Thompson & Bacon have instituted proceedings against Anna Cope et al on mechanics lien; demand \$100.

The circuit court convened for the November term on Monday, when the following cases were set for trial: German Evangelical synod vs. Westendorf, December 16; Keyser vs. Freistoffer, November 29; Mennewich vs. Pfeiderer, December 17; Rogers vs. Robbins, December 20; Jackson vs. Miller, December 23.

The claim docket of the circuit court will be called November 30. The jury has been called to report on Wednesday.

The case of Moellering vs. Fremion was dismissed in the superior court.

Deputy Sheriff Daseler has found a handsome sportsman's charm which the owner can have by calling at the sheriff's office.

Henry W. Niswonger has filed a suit demanding the rescinding of a conveyance, making Maria D. Niswonger the defendant. The complaint alleges misrepresentation in securing signatures to a conveyance and damages in the sum of \$2,000 are claimed.

Max B. Fisher et al. have commenced suit against Thomas Vandanda to quiet title.

Margaret A. Rauner has applied for a divorce from George Rauner. Abandonment is charged.

This morning the court and the attorneys united upon a date for the hearing of the arguments on the motion for a new trial in the Dunn case and Saturday, Nov. 30, was agreed upon.

Mary C. Smith has commenced suit against Frank Petgen for foreclosure of a chattel mortgage; demand, \$150.

Jacob L. Straudbaugh has filed proceedings against George W. Mains et al. to foreclose a mechanic's lien for \$75.

Agnes H. Cary sues Peter M. Braun for enforcement of specific performance and correction of deed, adding a claim for damages in the sum of \$500.

George W. Staub has filed a suit against the Saengerbund hall association on a mechanic's lien for \$100.

Barbara Hutchinson has sued for a divorce from her husband, Elmer E. Hutchinson.

Judge O'Rourke today granted Osis Stewart a divorce from Bert Stewart.

In the superior court the jury is hearing the case of the E. A. Carter Shoe Co. vs. Louis Fortraide on account.

Judge O'Rourke complains of the boisterous conduct of persons who visit the court house, especially the upper floors, where singing, whistling, shouting and other disturbances are so frequent as to become a source of great annoyance. The judge desires the newspapers to call the attention of visitors to the fact that order must be preserved or else stringent rules must be made and enforced. The officers are loth to make any rules which would deprive persons of ordinary privileges, but unless more judgment is used something must be done to abate the growing nuisance.

Judge Aiken today granted a judgment for the plaintiff in the sum of \$45 in the case of Mary C. Smith vs. William S. Cramp.

PLOT A REPUBLIC

KLONDIKE MINERS ARMED TO BEGIN REVOLT.

WOULD SNAP BRITISH YOKE

GUNS CONCEALED IN GOLD

FIELDS FOR THE WAR.

AWAIT ORDERS TO CONFLICT

CONSPIRATORS RELY ON ICE

AND SNOW FOR HELP.

San Francisco, Cal., Nov. 18.—King Edward VII is threatened with a rebellion that is intended to cost him the richest portion of the British empire in North America, according to information received in this city from Skagway, Alaska. Arms have already been secreted in great quantities and thousands of miners are awaiting the word to rise and by force throw off the British yoke. The gigantic conspiracy is so far advanced that its leaders are already discussing who shall be president of the new republic that is to be carved out of the present Canadian province, the Northwest territory.

Dawson, the head city of the Klondike gold fields, is designated to be the capital of the new republic. It was in this city that the plot for the overthrow of the local British government and the establishment of an independent state was hatched. But the conspiracy is said to be widespread, taking in not only the Klondike district, but extending down to Skagway, Victoria, Vancouver and Seattle.

SAYS AMERICANS ARE LEADERS. Arms, ammunition and provisions have been taken into the Northwest territory over the railroad and cached at strategic points, says the letter dated Skagway, Nov. 6, which gives detail of the plot. Prominent American residents of Skagway are said to be ringleaders in the conspiracy. Miners to the number of 5,000 are awaiting the summons to arms, ready to fight for independence from dominion rule of the gold fields and towns. The plan is for the miners to overpower the mounted police, arrest the civil authorities and take the government in their own hands.

The rigors of the Arctic winter are relied upon to give the insurgents six months immunity from attack by Canadian or British troops and the adventurous arch conspirators hope for intervention or outside assistance by the time the melting ice and snow will permit the invasion of their isolated republic.

OFFICIALS OF TWO POWERS. It is further related that a hurried conference lasting until midnight was held at Skagway Nov. 5, at which were present Captain Corrigan of the Northwestern mounted police, who had arrived from across the Canadian border late that evening; Judge Brown, of the United States district court, United States Marshal Shoupe, United States Attorney Frederick and Major Hovey, commanding the United States troops at Skagway, attended the meeting. This was the last of several hasty consultations between the civil and military representatives of the two powers in relation to the mysterious transportation of supplies into the interior and rumors of a conspiracy to lead the miners in a revolt against Canadian government. Those present maintained subsequently the strictest silence concerning the new evidence laid before them and their evident anxiety helped to confirm the rumors of conspiracy.

Captain Corrigan took a train back across the border the next morning, while United States Marshal Shoupe embarked on the first steamer for Seattle, which port he reached several days ago. The object of his visit was, presumably, to confer by telegraph with the authorities at Washington. He sailed yesterday afternoon on the Dolphin on his way back to Skagway.

FRUIT JAR TRUST HAS QUIT

FROM NOW ON ALL FIRMS TO BE INDEPENDENT.

The Combine Was a Failure and a Big War is Now in Prospect—Cause of Failure.

Marion, Ind., Nov. 18.—The affairs of the fruit jar combine have been closed and from this time every firm will be independent and a big fight is expected. J. L. McCulloch, president of the Marion Fruit Jar and Bottle company, said:

"For the last two seasons the fruit jar manufacturers of this country have sold their entire product through one selling agency. The scheme is a practical one, if it were possible to fix an equitable ratio of

interest between the different firms, but this could not be done. Under the selling agency arrangement too many manufacturers in other lines of glassware had begun to enter the fruit jar field. This was already having an effect to disrupt the favorable market conditions."

From now on each manufacturer will sell his own product at whatever price he thinks best.

MAY GIVE RATHBUN LIBERTY

MAYOR OF LITTLE ROCK BELIEVES HIM DEAD.

Will Not Permit Shipment of Body

Now in That City to Jeffersonville to be Identified.

Jeffersonville, Ind., Nov. 19.—The authorities here are greatly surprised over the report from Little Rock, Ark., that the mayor of that city has prevented the coroner from returning to Jeffersonville the body of Charles Goodman on the ground that he believes Rathbun is really dead and that it is his body now in Little Rock.

Prosecutor Mayfield is of opinion, however, that the body will ultimately be shipped here. Should this not be done, it is feared the whole case against Rathbun will fall.

The special grand jury selected to investigate the charges against Rathbun will take up the case Thursday morning.

SCALED THE PRISON WALLS

WOMAN ESCAPES FROM OHIO

PENITENTIARY.

Mrs. Ruthven, Wife of the Murderer

Recently Electrocutted, Makes First Female Escape.

Columbus, Ohio, Nov. 19.—Lizzie Ruthven escaped from the female department of the Ohio penitentiary during the night. She went over the wall and it is supposed that she had assistance from the outside. This is the first escape ever made from the female department. Mrs. Ruthven was serving a six-year sentence from Cuyahoga county for receiving stolen goods. She was the wife of Edward Ruthven, who was electrocuted here last summer for the murder of a Cleveland policeman named Shipp.

BIG INTERURBAN DEAL.

Indianapolis, Nov. 19.—Announcement was made this afternoon that the Indianapolis and Eastern Traction company has purchased a controlling interest in the Indianapolis and Greenfield Rapid Transit company. Frank M. Faurie is president of the Indianapolis and Eastern Traction company, which was incorporated last spring. The price paid for the controlling interest is not known. The capital stock of the company was \$400,000. This is regarded as the most important interurban deal in which Indianapolis capital has figured.

LELANDER-HIBINGER

Saturday evening Rev. J. C. Breckinridge, of Bethany Presbyterian church, solemnized the marriage of John M. Lelander and Alice Hibinger, the ceremony taking place at the residence of the officiating clergyman. The bride is a well known and very popular young lady, the daughter of Mr. and Mrs. John Hibinger, of West Main street; her father being a well known conductor on the Nickel Plate railway. The groom is an engineer on the same road and well known. The couple are at home on West Main street.

A NIGHT EXPRESS TRAIN ON THE NICKEL PLATE ROAD.

A change of schedule for departure of trains from Chicago on the Nickel Plate Road, effective Sunday night, Nov. 17th, provides a convenient Express Train for Fort Wayne, Findlay, Fostoria, Cleveland, Erie, Dunkirk, Buffalo, New York City, Boston and all points east. Leaving Chicago daily at 11:20 p. m., reaching all points east of Buffalo same time as heretofore; reaching Fort Wayne at 4:05 a. m., Fostoria 6:49 a. m., Bellevue 7:50 a. m., Cleveland 10:20 a. m., Erie 2:15 a. m., Buffalo 5:20 p. m. All other trains will arrive and depart as formerly. For further information apply at any ticket office of the Nickel Plate Road or C. A. Asterlin, T. P. A., Fort Wayne, Ind., or R. J. Hamilton, Agent, Fort Wayne, Ind.

MAGNER.

Alta, L., the little daughter of Mr. and Mrs. Eli Magner, of Gertrude street, died at 3:15 o'clock Sunday afternoon from scarlet fever, at the age of seven years and eight months. A brother of the little one is also ill from the disease.

Funeral services were held privately from the residence. Interment at New Haven.

KRAMER.

Frederick S. Kramer, aged 20 years, 5 months and 4 days, died late Saturday evening at the home of his uncle, Anton Ross, in Washington township, four miles north of the city, from appendicitis. Mr. Kramer was quite well known. His parents died a number of years ago. A brother and a sister survive.

SCHAPER.

Ardine Schaper, the little daughter of Mr. and Mrs. Henry Schaper, of Adams township, died at 7 o'clock Monday evening from diphtheria, at the age of two years and eight months.

BUEHINK.

Mrs. Sybilla Buchfink, a pioneer resident of the city, died at 4:30 o'clock this morning at her home, 67 High street, after an extended illness from Bright's disease. Mrs. Buchfink's age was 77 years, 1 month and 27 days.

She was born in Bavaria and came to Fort Wayne fifty-four years ago, making the trip to the city by way of the old canal. Her husband, George Buehink, died thirty-two years ago, and for forty years Mrs. Buchfink

has resided in the home where her death occurred this morning. She was the mother of four children, two of whom survive—Miss Mary and John Buchfink, of this city.

Funeral services will be held Thursday afternoon at 1:30 from the residence and at 2 o'clock from St. John's Lutheran church, Rev. Dannecker officiating.

There are many descendants of this devoted pioneer woman. Of the blue children born to her six survive—Mrs. H. B. Goddard, of Ainsworth, Neb.; A. B. Cuthrell, Peoria, Ill.; Mrs. Julia Noble, Mrs. I. H. Shorey, Mrs. Cyrus J. Loe and James C. Cuthrell, of this city. Andrew J. Cuthrell is a stepson. There are also fourteen grandchildren and eleven great-grandchildren.

ROYAL BAKING POWDER CO., 100 WILLIAM ST., NEW YORK.

WAS A PIONEER RESIDENT

MRS. RUTHETTE DOUGLASS COTHRELL IS DEAD.

Benjamin F. Keil, a Popular Young Business Man, Is No More—Other Mortuary Matters.

Mrs. Ruthette Douglass Cothrell, another of the pioneer residents of Fort Wayne, died Sunday morning at her home, 65 Douglas avenue, at the age of 80 years. Mrs. Cothrell had resided in this city fifty-seven years, and was widely known. She had been for some time in failing health, and her death was due to the infirmities of age. Her husband was the late Jared Cothrell, who died fourteen years ago.

Mrs. Cothrell was born at Clayton, Jefferson county, N. Y., Jan. 11, 1821, and removed in 1843 to Maumee, O., where she was united in marriage to Mr. Cothrell. A year later Mr. and Mrs. Cothrell came to Fort Wayne, making the journey by the slow stages of canal travel, and during her long residence in this city Mrs. Cothrell has been beloved by all who knew her. Hers was the highest type of magnificent womanhood, and through her entire life she was a devoted Christian character that actuated her every impulse. She had been a devoted member of the First Baptist church since pioneer days.

There are many descendants of this devoted pioneer woman. Of the blue children born to her six survive—Mrs. H. B. Goddard, of Ainsworth, Neb.; A. B. Cuthrell, Peoria, Ill.; Mrs. Julia Noble, Mrs. I. H. Shorey, Mrs. Cyrus J. Loe and James C. Cuthrell, of this city. Andrew J. Cuthrell is a stepson. There are also fourteen grandchildren and eleven great-grandchildren.

Funeral services will be held Thursday afternoon at 1:30 from the residence and at 2 o'clock from St. John's Lutheran church, Rev. Dannecker officiating.

L TRAINS COLLIDE

ONE PERSON KILLED AND TWO
WILL DIE.

FIFTEEN OTHERS INJURED

LONG CHAPTER OF ACCIDENTS
IN CHICAGO.

A DENSE FOG PREVAILED

COLLISIONS FREQUENT AND
VICTIMS MANY.

Chicago, Nov. 19.—The densest fog ever experienced in Chicago caused numerous collisions between trains early today. In these collisions one man was killed, two were so badly injured that they probably will die, fifteen others were seriously hurt. Scores of other persons were hurt in minor accidents due to the fog, but as they were able to assist themselves, no official report was made. Every ambulance in the city was kept busy from 5:30 to 7:30 a. m. carrying the injured to their homes or to hospitals. The more serious accidents occurred on the Metropolitan and the Lake street "L," two on the southside "L," one on the northwestern "L" and one between suburban trains of the Rock Island and the Lake Shore roads. Collisions between vehicles and surface cars were frequent, but while a great number of people were injured by them, none of the injuries incapacitated them and the damage was chiefly to the colliding objects themselves.

THE CASUALTIES.

The record of deaths and injuries follows:

On Metropolitan Elevated:

The dead:

Thomas Meeny, standing on rear platform; crushed to death.

Otto Leinhardt, conductor, crushed to death.

The injured:

Fred Jones, both legs severed; will die.

William Upton, serious internal injuries.

Harry Twohey, internal injuries.

Charles Gallagher, foot crushed; internal injuries.

Adolph Goldberger; toes crushed; knee fractured.

Fred S. Isip, left arm and leg broken.

A. E. Baumgart, badly cut and bruised.

Louis Davis, injured internally.

Fred Schwell, foot crushed.

Peter Anderson, cut and bruised about head and body.

Howard Gauding, toes crushed.

On Lake Street Elevated:

C. F. Ireland, both legs broken and injured internally; fatal.

Harold Soderburg, serious internal injuries.

Frank Munn, motorman, badly cut.

Anna Carr, hand crushed.

J. W. Cheney, hands and face lacerated.

A THICK FOG.

The fog at an early hour this morning was so thick that persons standing on the sidewalks could scarcely distinguish street cars passing within a few feet of them, and motormen kept their goggles clanking a constant warning.

The collision on the Metropolitan was between trains going the same way, as was the case in other accidents. Both trains were crowded, many passengers standing on the rear platforms. On the first train these were almost the only ones to suffer. The motorman slowed up going around a curve and while waiting for a signal to increase speed the Humboldt Park express train crashed into the rear without warning.

The accident on the Lake Street Elevated was almost exactly similar. The people injured were standing on the rear platform with the exception of Munn, the motorman on the rear train. He said he didn't see the train ahead until too late.

The other accidents in their essential details were the same, but owing to the fact that orders had been sent out to run at a reduced speed, no one was seriously hurt. The rear end collision between the Lake Shore and the Rock Island suburban trains occurred at Thirty-third street. Notwithstanding the damage done both trains were able to proceed. Traffic all over the city was delayed.

ANOTHER COLLISION.

Later in the day news of another collision which had occurred on the Metropolitan, became public. One train was overtaken by another. Otto Leinhardt, the conductor of the first train, remained on the rear platform frantically waving a signal lantern, while the passengers who had been standing with him fled inside. His efforts were in vain. He was crushed and died at the hospital several hours later. In all there were nine collisions on elevated structures during the fog.

WANT AMERICAN BRIDGES.
Philadelphia, Nov. 19.—The Amer-

ican Bridge company of this city has secured a contract for the construction of twenty steel bridges along the line of the Uganda railroad in East Africa. The amount of the contract is about \$1,000,000. Several English and continental firms offered bids, but that of the Philadelphia company was not only the lowest, but guaranteed the completion of the work in a shorter space of time than its competitors. The new bridges will replace wooden structures which were built several months ago and found to be inadequate.

FOUND \$12,000 IN GOLD

Kingston, Jamaica, Nov. 19.—It is now asserted that the treasure found by the Grand Caymen turtle hunters in October last amounts to \$12,000 in old Spanish gold coins. The money was buried in a reef off the island of Jamaica. It has been sent to Mobile for sale.

HAVE SELECTED A NEW SITE

EASTERN LOCATION FOR OLD
BERRY STREET CHURCH.

The Tower and Clark Properties, Lafayette and Wayne streets, Have Been Chosen.

A new site for the Berry street M. E. church has been chosen and unless present arrangements fail a deal for the purchase of the Clark and Tower properties, at the corner of Lafayette and Wayne streets, upon which to erect the new church, will be closed in a few days.

The decision was reached at a meeting of the official board last evening when it was learned that the site could be purchased for \$12,000. The property has a frontage of 90 feet on Wayne street and 150 feet on Lafayette street. A mortgage for \$1,500, held by Grant Archer was paid off today by the trustees of the church, to bind the bargain.

If this site is finally selected, it will be necessary to change the name of the church and it will probably be known as the First M. E. church of Fort Wayne. It was learned today that a lady, who refuses to give her name, had offered to give \$500 to the building fund, provided she were allowed to name the church.

The proposed site is centrally located and is most desirable in every respect. A residence erected by Capt. G. A. Gale two years ago occupies a portion of the property, and it will be used as a parsonage. It was learned this afternoon that two new sites had been offered, one of them on Berry street and both of them in excellent localities.

The church board is composed of Dr. J. Hetrick, president; C. Scarlet, secretary, and F. C. Farham, treasurer, and the committee on church site consists of Messrs. George A. Brackenridge, C. Scarlet, F. C. Farham, C. A. Robbins and H. E. Noble.

KICKED BY A HORSE.

Ex-County Commissioner Matthew A. Ferguson was kicked by a horse yesterday morning and sustained a double fracture of the bone between the knee and ankle. Mr. Ferguson was driving a young horse from his Whitley county farm and when about a mile from the city the animal be-

MATTHEW A. FERGUSON.
Former Chairman of Allen County Board of Commissioners.

came frightened at the fluttering of some chickens under the buggy seat and commenced to kick. Mr. Ferguson tried to alight from the rig, when the horse planted both feet against the aged ex-commissioner's leg with such force that portions of the bone were forced through the skin. Mr. Ferguson was brought by Henry Fortmeyer to this city, where the fracture was set, and he is now at his Montgomery street home.

Among the newspaper men who were visitors in the city Monday were J. A. Kiefer, of the Ossian News; B. M. Gorrell, of the New Haven News; O. A. Humphreys, of the Antwerp Argus; J. A. Fluhat, of the Continental News; C. O. Grimm, of the Payne Press-Review; J. T. Mack, of the Sandusky Register.

A NEW HOSPITAL

GERMAN LUTHERANS MOVING
SUCH A PROJECT.

A COUNTY MEETING CALLED

DELEGATES WILL CONSIDER
PLANS NEXT MONTH.

WILL INVEST ABOUT \$60,000

PROJECT IS SAID TO MEET WITH
MUCH FAVOR.

If present plans are carried out within a year or two Fort Wayne will have another hospital which will be equal in every respect to the two big institutions already established here. The new hospital will be erected by the German Lutheran churches in Allen county, and while nothing definite has yet been decided upon, a building which will cost in the neighborhood of \$60,000 is favored by those with whom the project originated.

For many years it had been the desire of Germans of the city and county that a hospital be erected in this city to be under the control of a German board, and with this end in view Hope hospital was founded several years ago by a number of prominent Lutherans. Later the institution passed from under the control of an exclusively German board and the affairs of the hospital are administered by a corporation composed of Lutherans and members of other evangelical congregations.

At a recent meeting of Lutheran ministers held in St. Paul's church, on Barr street, the project of establishing a hospital to be exclusively under German control came up for consideration and the pastors in attendance were almost unanimous in expressing their approval of the idea. The sentiment of the meeting is that of about every German in the city and county, and with the universal approval of the Lutheran congregations of the county there is every prospect for the success of the project.

At this meeting it was decided to call a convention of delegates from the different Lutheran churches in Allen county and it was decided that each church appoint two representatives, and in most of the churches delegates were elected last Sunday. It was decided to hold the convention in St. Paul's church, this city, on Sunday evening, Dec. 15, at 7 o'clock. There are about thirty-five Lutheran churches in the county and a full attendance of delegates is looked for.

A plan of assessment for funds with which to erect the hospital was discussed and it is believed that each church could furnish on an average of between \$1,500 and \$2,000 for the purpose, the amount to be made payable in a term of years. There are approximately 100 voting members in each church, and it was suggested that the sum of \$2 be levied on each member with which to form a nucleus hospital fund. In this way \$7,000 could be raised within a very short time and this amount would be used in purchasing a site for the building. It is thought that the churches will favor this plan as being the one by which the burden would be most evenly distributed.

A number of very desirable sites have been offered for the new hospital and these will be considered in due time. A site farthest removed from the noises of the city is most desired and one or two excellent locations in the eastern part of the city are offered. Nothing will be done toward securing ground, however, until after the convention next month.

The proposed new hospital will be up to date in every particular and will contain all the most modern conveniences. At the meeting next month an association will be formed and officers and committees will be chosen. There is a possibility that Lutheran churches in neighboring counties included in the Fort Wayne district of the Missouri synod will be called upon for assistance, should it be decided to erect the hospital.

MADE A DEAL WITH DUKES.

The Fort Wayne and Southwestern traction company, which began an extension of its line westward from Huntington several weeks ago, has now purchased the old canal towpath from Huntington to Lafayette and will construct its line upon this right of way. The purchase of the property was made Monday from A. N. Dukes, of Peru. Negotiations had been under way for some time, but had been held up on a question of price. Grading has progressed to within a mile of Andrews, and the force of workmen will now be greatly augmented. It is expected that a mile of grading can be done each

day if the weather continues favorable. Delayed machinery for the Huntington power house is now expected within a few days, and Manager Nelson says cars may be running between Fort Wayne and Huntington by early in the coming month.

MESSENGER BOY HURT.

Frank Johnson, a messenger employed by the Postal Telegraph company, was run down in front of the Postal offices this afternoon and quite painfully injured. The lad, who was riding his wheel, had partially lost control of the machine and collided with a buggy containing George Angevine. The boy was carried into the offices of the company, where he received medical attention.

WANTS HUSBAND BROUGHT IN

MRS. WARFIELD WANTS MR.
WARFIELD'S SUPPORT.

Colored Gentleman Who Holds All
Long and Short Distance Records Deserted Wife.

Agnes Warfield has filed an affidavit in France's court charging her husband, Mark Warfield, with having deserted her on November 1, and left her without any means of support. A warrant was issued for Warfield's arrest, but up to date the constable has been unable to find him, and in consequence no arrest has yet been made. Mr. Warfield is a colored gentleman who was married to Miss Agnes Davis on the 11th of last October, after Miss Davis had caused his arrest and jailment on paternity proceedings. That same 11th of October was one of the most wildly exciting days in Mr. Warfield's entire career and one during which he broke all previous records. On that day Mr. Warfield was arrested, was jailed, was tried, effected a compromise; was married; became a father; lost his first born by death and lost his job. After nineteen days of married life he concluded to quit and now is charged with wife desertion. That record may be equaled somewhere, but certainly never was beaten.

LOCAL LINES.

E. H. Olds is attending the carriage makers' convention in Cincinnati.

Bishop Alender is at Legansport today on business connected with diocesan affairs.

Gustave Hilgeman, driver at engine house No. 2, is ill with typhoid fever at St. Joseph hospital.

Dr. H. A. Duemling returned last evening from a thoroughly enjoyable hunting expedition in the upper peninsula of Michigan.

Fern Dishro, the 8-year-old daughter of Mr. and Mrs. F. W. Dishro, of 177 Wells street, fell yesterday and dislocated her elbow, but is improving nicely.

Kover & Son, decorators, are finishing up the work on the Presbyterian church at New Castle. They have just been awarded the contract for decorating the Bundy hotel, of that city.

Attorney G. F. Felts left this morning over the Wabash for Paris, Texas, where he goes on legal business. His brother, H. W. Felts, accompanied him as far as St. Louis. They will be absent about a week.

Philip Duedenheffer, of the City Carriage works, left last evening for Cincinnati to attend the carriage-makers' convention. Paul Mossman, Henry J. Miller and B. H. Schele leave this evening to attend that convention.

Columbia City Post: "The case of Wilkinson vs. Vordemark, brought here from Allen county, was up for hearing before the court Monday. The suit is brought on account of some unpaid money in a former divorce case."

John Gaetje, of 179 Calhoun street, and John Gaetje, jr., of Purdue university, have gone to Chicago to attend the funeral of their intimate and esteemed friend, H. P. Schwennsen, a former well known commission merchant of that city.

Anthony G. Meyer has commenced suit against the Pennsylvania company for wages due in the sum of \$150. The complaint was penned by Ryan & Ryan and is of more than passing interest, being another and a different outcome of the numerous garnishee cases instituted by out-of-town claim agents. The plaintiff is a brakeman in the employ of the Pennsylvania company and last September went through bankruptcy and was discharged. With his discharge all his previous obligations were also discharged and one of them was the account upon which he has now been garnished. Meyer's attorneys state that all this was shown to the attorney of the company and explained to the paymaster, but the latter gentleman refused to pay Meyer the account due him as it would mix up his books. Mr. Meyer and his attorneys say they now propose to straighten out the paymaster's books, with some extras added in the way of damages.

THRUSTS HIM OUT

MAYOR DIEHL, OF BUFFALO,
SUSPENDS TREASURER.

FINANCIAL OFFICER SHORT

OFFICIAL MISCONDUCT IS THE
CHARGE.

FALSIFIED HIS ACCOUNTS

NEEDS \$50,000 TO MAKE AN
HONEST BALANCE.

Buffalo, N. Y., Nov. 19.—Mayor Diehl today suspended City Treasurer Philip Gerst from office.

In the notice of suspension the mayor charges Mr. Gerst with misconduct in office and with having kept inaccurate and false accounts, and specifically charges that from the accounts of the city treasurer the amount of cash on hand to the credit of the city is \$50,000 in excess of the actual amount.

The examination of the treasurer's accounts, which has been in progress for several days, will be continued. Specifically the mayor charges that Treasurer Gerst borrowed from banks upwards of \$40,000 with which to cover up the shortage in his accounts at a time when an examination was to be made; that in August last he loaned to a bank \$8,000 of the city's money and that at various times during the current year he appropriated to his own use moneys belonging to the city, the aggregate of such sums being \$4,246.

After he had been served with notice of removal Mr. Gerst said to a reporter: "I don't care to discuss the matter in detail at present. The books of my office are undergoing an examination by an expert accountant and the result of that examination will show that every cent of the city's money is in the banks or in the office of the treasurer at this very moment. Notwithstanding the charges of the mayor, the city of Buffalo will not lose a single penny through my administration of the office of city treasurer."

Mayor Diehl declined to talk on the matter further than to say in reply to a question as to whether Mr. Gerst had attempted to explain the shortage or offered to tell what use he had made of the money he is alleged to have appropriated: "I believe he has accounted for the \$50,000, but so far as I know has made no effort to explain his use of the small amounts. I believe his bondsmen have arranged to make good any shortage there is."

Robert F. Schelling, counsel for Mr. Gerst's bondsmen, said he did not believe Gerst had ever misappropriated one single dollar of the city's money. He added that he believed that all of the deficiency had been made good and that there is not a dollar owing to the city. Asked as to what Mr. Gerst's bondsmen would do in the matter, he replied: "The bondsmen will do nothing."

ENDURANCE OF CAMELS.

Travelers in Siberia have noticed with much surprise the ability of the native camels to withstand, without protection, the greatest extremes of cold and heat. In winter the thermometer on the Mongolian plateau sometimes drops to 40 degrees Fahrenheit, yet the camels wander about with no evidence of suffering.

On the other hand, the Russian explorer, Prjevalski, found the temperature of the ground in the Gobi desert in summer to be more than 140 degrees Fahrenheit, but the camels are apparently as indifferent to this degree of heat as they are to the winter cold.—Youth's Companion.

SPEAKER REED'S BIRTHPLACE.

The house in which ex-Speaker Thomas B. Reed was born is still standing in Portland, Maine. When Mr. Reed was born the neighborhood was one of the better residence parts of the city, not far from the water and commanding a good view of Portland harbor. Years ago the railroads found it convenient to build tracks and erect freight houses along that part of the water front and it ceased to be attractive for those who could afford to go elsewhere. About two years ago the people of the city erected memorial tablets to mark the birth spots of some of her distinguished sons, and the modest house in which Mr. Reed first saw light of day is now thus adorned.—New York Times.

A TRICK WORTH KNOWING.

When a lot of the boys are in for the evening it is great fun to surprise them by saying that you can drive a fine needle through a nickel or a quarter of a dollar, says the Boston Journal. Of course, they will say they don't believe it, but you can prove that you are right, if you proceed as follows: Have ready a good-sized hammer, a pair of old, dull scissors or shears, two small blocks or pieces of wood, a fair-sized cork and a No. 8 or 9 needle. Now thrust the needle through the middle of the

cork, so that its point can barely be felt at the other end. Then cut off with the shears the head of the needle close to the cork. Place your nickel or quarter on the two blocks or pieces of wood, with a little space between them, and place the cork on the coin, so that the needle point will be over the space. Strike the cork a sharp, quick blow with the heavy hammer, and behold! the feat is accomplished and your guests are interested and pleased.

WHY TOMSK WAS IGNORED.

A correspondent of an English paper tells why the great Trans-Siberian railway does not run through Tomsk, the capital. "How much will you give us if we bring the line past Tomsk?" asked the surveyors and engineers who mapped the route. "Nothing!" replied Tomsk. "We are the capital of Siberia and you can't avoid coming here." "Oh, can't we?" replied the route-finders. "If you don't produce so many thousand roubles there will be insurmountable engineering difficulties that will prevent us coming within a long way of Tomsk." These engineering difficulties were discovered, and so the Trans-Siberian railway sweeps along fifty miles to the south of Tomsk and a branch line had to be made.

Oriental Rugs Made In America.

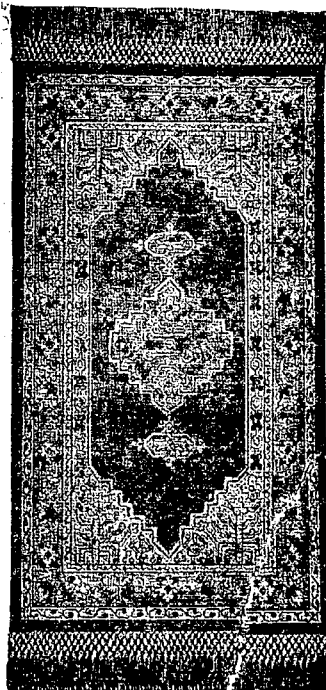

Imported Oriental Rugs, have to pay an enormous tariff charge when brought into this country, making them unreasonably expensive. Many people have wondered why someone did not make them in the United States, thus enabling the price to be more than cut into right in the middle.

Parties in Philadelphia have taken the matter up and are now turning out some very elegant goods. They are not produced amid the filth and disease breeding conditions, surrounding the manufacture of these goods in Oriental countries.

We have just received the first of these Rugs to be shown in Fort Wayne. See a few samples of them in our small Court street window.

Oriental Rugs, size 30 by 60 inches—usual price \$10—our price.....\$3.75

NOW IT IS MURDER

VICTIM OF MUTINIOUS CONVICTS IS DEAD.

GUARD DIES OF HIS WOUNDS

TWENTY-SIX MEN LIABLE FOR THE MURDER.

WALDRUPE'S GALLANT FIGHT

WOUNDED GUARD GAVE A GOOD ACCOUNT OF HIMSELF.

Leavenworth, Kas., Nov. 16.—J. E. Waldrupe, a guard at the Fort Leavenworth military prison, who was shot during the mutiny at that institution on Nov. 7, died today of his wounds. Twenty-six mutineers

road. He was then given a passenger run on the road and is still thus employed.

John C. McCarthy is forty-five years old and he became a fireman on the Pittsburgh road in January, 1875, and has been continuously in the employ of the company ever since. He was promoted to engineer in February, 1881, and shortly afterwards transferred from the freight to the passenger service. He has a run on trains 2 and 15 between this city and Chicago.

Jerry W. McCarthy is forty-three years old and a passenger engineer on the Pittsburgh road, having a run on trains 21 and 24 between Fort Wayne and Crestline. In January, 1879, he began firing on the road and was promoted to freight engineer March, 1882, and later transferred to the passenger service.

ONLY NEEDS SIGNATURE.

London, Nov. 16.—So far as the British government is concerned, all that remains to be done in connection with the Isthmian canal is for Lord Pauncefoot and Secretary of State Hay to affix their signatures to the

IN MUCH DISGUST

BIG CROWD SAW RUHLIN QUIT THE FIGHT.

OPINION CALLS HIM COWARD

THREW UP THE SPONGE IN THE FIFTH ROUND.

HE CLAIMS HE WAS INJURED

JEFFRIES THINKS RUHLIN LAID DOWN.

San Francisco, Cal., Nov. 16.—Sporting men who witnessed last night's contest for the championship of the world between Jim Jeffries and Gus Ruhlin agree that it was one of the most disappointing fights ever put up by heavyweights of reputation. No one expected such a tame termination and when Billy Madden, acting for Ruhlin, threw up the sponge in the fifth round there was a low of anger from the spectators. Referee Corbett plainly showed his surprise and at first thought that the sponge had been thrown into the ring by some practical joker. In an interview after the fight Corbett said:

"I think Madden made a mistake. He should have thought of the crowd that had paid a big admission fee to see the fight. The crowd that attend such exhibitions wants to see the defeated man knocked out. The fight might have gone another round or two when a decisive blow might have been given."

Billy Madden said that he decided to stop at the end of the fifth to save his man from worse punishment. "I did not want a knockout," said he. Ruhlin got over his grogginess quickly. He was not badly punished and bore no serious marks of the fray. There was little trace of the heavy body blow in the fifth round and he is little the worse for wear.

Champion Jeffries in a signed statement says: "I had not started to fight when Madden threw up the sponge. Had I gone at Ruhlin I am sure he would not have lasted two rounds. Ruhlin was scared from the first."

While Ruhlin will make no absolute charge of Jeffries having committed a foul, he intimates that he was unfairly handled and injured as a result. Ruhlin received the support of his seconds in this stand, who say that this was a hopeless case after the second round.

CHAMPION FINDS IT EASY. When seen in his dressing-room after the fight Champion Jeffries said:

"I was certainly surprised at my easy victory and Ruhlin's amazing defeat. While it is true that he did not punch me hard enough during the five rounds to cause me any alarm, I believed him strong and cautious up to the moment of his collapse and was surprised when he quit."

"I certainly had no trouble in whipping him and had the fight gone on the result must have been the same. Ruhlin was inaccurate and in poor wind and I cannot say that he even had the courage and force that I expected to encounter in him."

"Ruhlin took a stiff punch in the stomach in the fourth round which I presume gave him trouble, nevertheless I expected him to lose harder than he did. Ruhlin can doubtless best explain his own position, and as for myself, I am willing to meet Sharkey next month, and thereafter to defend as best I can the title I hold."

RUHLIN TALKS OF FOUL.

When Ruhlin went to his dressing-room he was followed by a very depressed crowd. The defeated man complained of no pain and moved about without assistance. He said: "I believed from the tap of the gong that I would win, but as the fight progressed I was beaten down until I received a blow in the stomach which I must say was very low. It may not have been a foul and no living man could have survived it. Jeffries departed from the written rules and from the common regulations of boxing when he threw himself upon me and wrestled rather than sparred."

"I do believe that had I not received the stomach punch which ended me in the fifth round I would have worn down Jeffries a few rounds later and beaten him as a matter of endurance. I am ready to fight him again and believe that in time I will have the opportunity of showing that I can defeat him. That is all I can say."

NEW BOILER COMPOUND.

William F. Eger, engineer at the Withington handle factory in this city, has been granted a patent upon a new boiler compound which is satisfactory use in a number of the

manufacturing institutions in Fort Wayne. Thomas Lloya is associated with Mr. Eger in the manufacture of the product.

TO WED ON CHRISTMAS.

New York, Nov. 18.—Senator Chauncey M. Depew says that his wedding will take place on Christmas day. In an interview he states: "I am going down to Charleston, S. C., to make an oration at the opening of the fair on December 1. Then I am going to Washington to take my seat in the senate. I will remain in Washington until the senate adjourns for the holidays, which will be on December 18. On that date I will start for New York and at the earliest possible moment I will take a steamer for France. If things go as smoothly as I expect them to I will be in Paris by Christmas, on which day I hope to be married. I will return to this city with my bride after the ceremony and will take up my residence here. Of course, we will open a house in Washington, but only during the time the senate is in session."

UNION SERVICES ARRANGED

MINISTERS MAKE PLANS FOR THANKSGIVING.

Association Arranges for Three Union Meetings—Who Will Preach the Sermons.

Three union Thanksgiving services were arranged this morning by the Fort Wayne Ministerial association at its meeting in Berry street church, and there will doubtless be services held in many of the other churches in the city in addition to these.

It was arranged this morning that the division of the services should be somewhat upon denominational lines. In accordance with this program the meetings will be held at 10:30 o'clock on Thanksgiving morning as follows:

At Berry Street M. E. church—Congregations of Berry street, Wayne street, Simpson, Trinity and St. Paul's M. E. churches. Sermon by Rev. J. A. Patterson, of Simpson church.

At Third Presbyterian church—Congregations of First, Westminster, Third and Bethany Presbyterian churches. Sermon by Rev. J. C. Breckinridge, of Bethany church.

At First Baptist church—Congregations of Plymouth Congregational, Baptist, Bethel Evangelical, West Creighton Avenue Church of Christ, Calvary U. B., and probably Grace Reformed church. Sermon by Rev. J. W. Bailey, of Plymouth church.

The West Jefferson Street Church of Christ will hold a separate service on Thanksgiving morning on account of special revival services in progress there.

MARRIAGE LICENSES.

Alison N. York and Della Pequinet.

Perry A. Monn and Anna S. Clements.

David J. Mercer and Nettie B. Fry. Joseph M. Futter and Annie Moore. William B. Klett and Clara H. Beals.

George T. Wann and Della E. Miller.

Charles Ferchel and Minnie Roehstrauser.

John M. Lelander and Alice Hibinger.

William M. Miller and Louise Underwood.

Henry F. Thiele and Emeline Fruethenicht.

Charles Bender and Elizabeth Beckman.

Charles Bender and Elizabeth Beckman.

Charles F. Pfeiffer and Henrietta Eckart.

The owners of the Wayne club building have directed their agent, D. C. Fisher, to lease the Wayne club building for club purposes, and it is expected that an arrangement will be concluded whereby the house will be opened by R. O. Rankin within a short time.

"I owe my whole life to Burdock Blood Bitters. Scrofulous sores covered my body. I seemed beyond cure. B. B. B. has made me a perfectly well woman." Mrs. Chas. Hutton, Berville, Mich.

A household necessity. Dr. Thomas' Electric Oil. Heals burns, cuts, wounds of any sort; cures sore throat, croup, catarrh, asthma; never fails.

The little folks love Dr. Wood's Norway Pine Syrup. Pleasant to take; perfectly harmless. Positive cure for coughs, colds, bronchitis, asthma.

Itchiness of the skin, horrible plague. Most everybody afflicted in one way or another. Only one safe, never failing cure. Doan's Ointment. At any drug store, 50 cents.

WILL HAVE A FLOWER SHOW

ASSOCIATION FORMED FOR THAT PURPOSE.

Knights of Pythias Band and Others Will Give an Exhibition in a Few Weeks.

The prospects now are that Fort Wayne will fall right in line with the greatest fad of recent years and will have a first-class flower show this winter. A distinctively flower show is about the only thing that this city has never indulged in, although several local florists have for years attended other shows and usually got away with a big share of the prizes, too. Flower booths have been features of nearly all the fairs held here recently and a chrysanthemum exhibition was once given, but a regular flower show never. Last week the lessees of Randall hall and the members of the Knights of Pythias band held several meetings to discuss the matter and in the meantime a few local florists were sounded on the question. On Saturday evening the project was fully incubated and the Fort Wayne Floral Exhibition association was formed, with Edward Tanner as president, C. F. Baker as secretary and J. E. Miller as treasurer. The show will be given at Randall hall, commencing on the evening of December 12, and will be run continuously excepting Sundays to December 24. The hall, which has been rehabilitated, will be gorgeously decorated and special features will be presented each night. Exhibits will not be confined to greenhouse owners, but private plants and flowers will be solicited. The hall during the exhibit will be in charge of an expert, who will maintain an even temperature all the time, and exhibits will be protected against injury from any source. Cash prizes will be paid and certificates of merit will be issued. The cash prizes will not be large, as the show is simply an experiment, but, then, cash prizes at flower shows are never large. The association is preparing a prospectus, which will be out in a day or two and which will be distributed in this city, and efforts will be made to secure exhibits from Huntington, Columbia City, Kendallville, Warsaw and other adjacent cities. The judges will be experts who will have no personal interest in any of the exhibits.

DID NOT APPEAR FOR TRIAL.

The judicial committee of the Fort Wayne presbytery met Monday afternoon in Westminster Presbyterian church for the purpose of investigating charges against Rev. Bailey, formerly of Bluffton, of misconduct with the wife of one of the elders in the Presbyterian church at Bluffton. Rev. Bailey gave up his charge in Bluffton about two years ago, soon after rumors of his conduct were circulated. He went to Denver and took treatment for consumption, and the clerk of the committee that day read a physician's certificate to the effect that Rev. Bailey was in no condition to appear for trial. The members of the committee are Rev. J. B. Fleming, Rev. Dr. Fraser, Rev. Burrows, Rev. Dr. Moffat and Charles Warden, of this city, and on account of Rev. Bailey's absence and Mr. True, of Decatur, an adjournment was made until next spring.

PLANS A FLYING MACHINE.

Bridgeport, Conn., Nov. 18.—In six months' time, if the plans of the capitalists who are backing the project mature, flying machines will be placed on the market for sale at a minimum cost of \$2,000. Gustave Whitehead, the inventor of a flying machine which a few months ago demonstrated its ability to soar through the air, is building a new model in a long, low shed erected for the special purpose. There are fifteen skilled mechanics employed, divided into day and night shifts. No one except the workmen is permitted to enter the building. Except to admit that a company has been formed for the manufacture of flying machines and that it is intended to place the machines on the market in the early summer for sale, Inventor Whitehead refuses to talk. The new calcium carbide motor which Mr. Whitehead has been working upon for a long time is said to be perfect and lessens the weight of the present motor power used in automobiles 75 per cent. "A flying machine will be put upon the market," said Mr. Whitehead, "that will accommodate six persons and cost about \$2,000 when the model on which we are now working is completed. I propose to make good my assertion that I would fly to New York."

It will be a surprise to the friends of W. H. White, air brake machinist at the Pittsburg shops, to hear that he has become a benedict. He

MARRIED AT CINCINNATI.

THE CAGE IS EMPTY. CAN YOU FIND THE BIRD, ALSO THE CAT THAT THE GIRL FEARS HAS EATEN HER PET?

left for Cincinnati last night and at 8 o'clock this morning was married to Miss Mattie Hitchins, a charming young lady whom he has known from childhood days. After a brief wedding trip, Mr. and Mrs. White will take up a residence in this city. The groom is the brother of Ed and George White, of the Pittsburg.

NEWS OF THE POLICE.

The shoe shop of Fred Gehrke, at 490 Broadway, was burglarized, presumably by boys, as nothing of value was taken save a few pounds of chewing tobacco.

Henry Kruse, who reported the loss of a ten-dollar bill yesterday morning, was fortunate enough to recover it, the same having been found at Foster's where he had dropped it.

Alonzo Weed was up at police court again this morning for the fourth time in just about four weeks. Alonzo is a professional tramp, dead beat and all round, hobo. He was discharged from jail yesterday forenoon and by 4 o'clock in the afternoon was again back of the bars.

Mr. Weed is a genius with an appetite for booze. He is able-bodied, but manages to make people believe that he is crippled. He has a way of drawing his right arm into an indescribable position, stiffens his fingers and then starts out and works the cripple racket. As soon as he accumulates enough money to buy a jag he gets well and proceeds to get full, invariably landing in jail in a few hours. This morning he was not fined, but was told that a ticket would be got for him and he would be sent out of town. "I don't want to leave town," said Alonzo. "I want to eat my turkey here this year."

In spite of his protest he was shipped this afternoon and told that if he ever came back he would not be arrested, but would be escorted to the city limits by a committee of strong-armed policemen equipped

with switch-knives and that he could safely count on at least three cuts to every step. Alonzo said he guessed he would try and hunt up a town where folks were not so particular.

AN ENTHUSIASTIC MEETING.

The Poultry and Pet Stock association held an enthusiastic meeting last evening in Saengerbund hall and made further arrangements for the poultry and pet stock exhibition to be given in the Saengerbund building January 14 to 18, inclusive. The association decided last night to offer \$100 in gold in special premiums, and in addition will give a first premium of fifty cents on all first prizes and twenty-five cents for second prizes. Several manufacturers of incubators, medicines and other articles used in the poultry business have rented space for exhibits. The entries for the different classes will close January 3, 1902. The show will be open from 9 a. m. to 10 p. m.

WANTS HIS FRIENDS TO CALL.

Congressman Robinson is out in a letter in which he states that he has been very ill, but happily evaded joining Bryant's "innumerable caravan" and is now fairly recovered. He adds that he would like to meet all his personal friends before leaving for Washington and inasmuch as he can not call on his friends he must ask that his friends call on him. He therefore declares that he will keep open house on Thursday, Friday and Saturday of this week, all day and evening, and invites everybody to call and shake hands with him and try one of his cigars.

In the case of Funk vs. Fuesse to recover title to land sold for taxes, the court ruled that the plaintiff should recover title to the real estate upon paying \$94.11 and a proportionate part of the costs of the suit.

FOUR BROTHERS WHO ARE LOCOMOTIVE ENGINEERS.
Dennis McCarthy, John C. McCarthy, Jerry W. McCarthy, Michael F. McCarthy.

now become liable to a charge of murder.

Waldrupe was born in Greenback, Tenn., in 1876. He served in Cuba during the Spanish war in the United States volunteer signal corps, later becoming a guard at the prison. During the mutiny Waldrupe was stationed in a tower on the stockade. In a fight that ensued he was shot in the hip. He fell to the floor, but raised himself and fired into the crowd, killing Quinn Fort, one of the ringleaders. A moment later Waldrupe, while in the act of firing again, was struck between the eyes with a pistol bullet. Then several convicts entered the tower to secure weapons. Waldrupe, although mortally wounded, clubbed the first man down with his rifle and then fell exhausted. He was later rescued by other guards.

THE MCCARTHY BROTHERS.

The likenesses in the accompanying picture will be readily recognized by the readers of The Sentinel as those of four well known locomotive engineers, the McCarthy brothers. The biography of these gentlemen covers a period equal the existence of the roads they are employed upon and a brief sketch of each man will be interesting.

Dennis McCarthy, the eldest of the brothers, is fifty-nine years old. His railway career began when he was a lad of ten years, when he was employed as a driver on one of the horse cars in the grading of the Pittsburg, Fort Wayne and Chicago road in the vicinity of Alliance, Ohio. Tony Kelker, the well known passenger engineer, was a water boy in the same gang of workers. When his contractor completed the task upon which he was engaged Denny returned to the farm with his parents and remained there until 1865. In the summer of that year he took a position as fireman on the Pittsburg road and for five years was thus employed, first with Engineer J. A. Keplinger and then with Engineer John Fisher. In 1870 he became an engineer, with a run between this city and Crestline, where he remained until 1876. He resigned and took a similar position on the Dayton and Michigan road, now the Cincinnati, Hamilton and Dayton, where he remained two years. He was induced to return to the Pittsburg again and ran an engine on that road until 1881. During the summer of that year Mr. McCarthy went to the Nickel Plate and was at the throttle of the engine hauling the construction train until the completion of the

new treaty. Such minor suggestions as ensued after the British ambassadors arrived at Washington have all been disposed of and the foreign office awaits news of the signing of the convention, though it has not received any intimation as to when this is likely to occur. No draft of the treaty has been cabled here, for the very good reason that the text of the document is safely locked away in the foreign office files, where it has been since prior to Lord Pauncefoot's departure from this country. The ambassador was empowered to sign on behalf of Great Britain the first day he arrived in the United States if such a course seemed to him advisable. He is acting with full power and the officials presume that he is only awaiting the convenience of the state department at Washington.

BIG DIAMOND ROBBERY.

Portland, Ore., Nov. 18.—E. F. Lowenthal, a diamond broker of New York, arrived here Saturday evening and registered at the Portland hotel. He was assigned to a room on the ground floor of the hotel and placed a trunk containing diamonds valued at \$10,000 and \$200 in gold in the room. Mr. Lowenthal states that he left the hotel between 9 and 10 o'clock last evening and when he returned he found the trunk broken open and the diamonds and cash missing. Detectives were immediately summoned and from a hasty examination of the premises arrived at the following conclusion: A janitor of the hotel had a bunch of pass keys in the pocket of a pair of trousers, which were hanging in a closet in the basement. This bunch of keys is missing and the theory is that the thief, who was evidently well posted as to the basement story of the hotel, secured these keys and thus effected an entrance to Mr. Lowenthal's room. It is supposed that the robber, after securing his plunder, made his way through a folding door to the basement and placing a ladder against the wall of the hotel court on Seventh street, made good his escape.

WANT QUESTION REOPENED.

Indianapolis, Ind., Nov. 18.—Special.—The independent traction lines have petitioned the board of works to reopen the interurban franchise question. They want a provision in their franchises protecting them against the Indianapolis company in contract for power, and ask the city to regulate joint operation of union terminals, etc. There will be a conference for all interests Wednesday.

THE OLDEST MEN AND WOMEN

SCIENCE TRYING TO DISCOVER WHO THEY ARE AND WHERE THEY LIVE—FOOD HOBBIES OF CENTENARIANS.

New York, Nov. 17.—Who are the oldest man and woman alive? If you can locate them you will do science a great service.

The committee on vital statistics of the Hundred Year Club, after months of prying into this problem, is ready to announce the result of its discoveries.

The oldest man alive today, according to this research, is Izai Rodofsky, of Moscow, Russia, aged 136. His case is reported to the club by Dr. Joseph J. Jernovsky, of Moscow. Rodofsky retains good eyesight, but poor hearing. He was never known to suffer an illness, has used liquor, but not tobacco. He comes of a long-lived family, his father dying at 120.

The most aged woman of today, as far as the committee can discover, is Mrs. Nancy Hollifield, an inmate of the Battle Creek (Mich.) sanitarium, who has seen 117 years. Her case is reported by Dr. Wood, a physician of that institution. She has always lived a temperate, simple life, doing housework principally since she reached maturity.

There are much more remarkable cases than these on record, but the claims of but a relatively few centenarians can be corroborated. Ismail Hudjo of Khuti, Albania, is reported to have died last month at the age of 100, his faculties being unimpaired and his teeth intact until the last. Whether this is a bona fide case, however, has not as yet been determined by the committee.

The hobbies of centenarians are being looked into by the Hundred Year club. To become adept in the fine art of living a century it is best, necessarily, to consult the practical and experienced man. The field for this study is fertile, inasmuch as the characteristic centenarian is an inveterate hobby-rider.

FOOD HOBBIES.

The food hobby is that most in evidence. "Her chief subsistence for the past two years was brown sugar and cold water," is reported of a woman 100 years old. "For the last 30 years he subsisted entirely on potatoes" is related of an old lady 110. A woman 105 "lived chiefly on flour provisions" during the last 40 years of her life. A man 103 "was never known to drink anything but buttermilk," and another 116 "was never known to drink a draught of pure water." An Englishman 101 "lived chiefly on vegetable diet and drank frequently of the famous rock water at Llandrid." "He ate nothing but bread made of Turkey wheat and constantly abstained from wine and tobacco," is said of a man of 114, while of another 116 it is written that his "supper for 40 years was roasted turnips." A Philadelphia 103 "lived on very solid food, drank tea in the afternoon, but ate no supper." "His diet for the last 20 years was milk and biscuit" is reported of a man 116 years old; another 103 "for the last 40 years subsisted entirely on bread, milk and vegetables." "Herb teas were his breakfast, meat plainly dressed his dinner," is recorded of another man who abstained from suppers and survived until 101. A barber who "drank nothing but water and ate only once a day" lived to see 105. The diet of a Scotch woman 117 years old was "buttermilk and greens." An exchange broker of Venice "always chewed citron bark and had a child after he was 100 years old." A centenarian of Kent, England, breakfasted regularly on "balm tea, sweetened with honey" and "systematically ate pudding for dinner." "Rosemary and syrup of gilliflowers" were mixed with the drink of the centenarian son of one of the Earls of Huntingdon. A Liverpool salt weigher 106 "lived principally on potatoes, bread and bacon." Another man 107 ate "fish, flesh, etc., till the age of 70, when, finding that tea did not agree with him, he used as a substitute milk and a little bread boiled in it, sweetened with brown sugar."

Hobbies of centenarians enter conspicuously into practically all life habits. "It was his frequent custom to promote perspiration and then change his linen, particularly as he advanced in life," recounts a biographer of Charles Macklin, the English playwright, who died at 107. It was this genius' further custom "not to sleep on a feather bed, but on a mattress, which was a couch without curtains, placed in the center of the room. He usually lay with his head high." It is further stated, "but for the last 20 years never took off his clothes unless to change them of his linen, or to be rubbed all over with warm brandy or gin."

William Hotchkiss, known as "the color doctor," who died in St. Louis in 1895, and whose Masonic record was traced back 100 years, "showing conclusively that he was at least 121 years old," attributed his long life to hobbies, described as follows: "He is said by those nearest to him to have not taken a bath for over 25

years, but scoured himself with sand. He claimed to have discovered the elixir of life. At regular intervals he stood over a smoking blazer and allowed the smoke to envelop his body."

"I have used olive oil for thirty years and feel younger today than I did when I began, though I am now in my one hundred and second year," writes G. E. D. Diamond, of San Francisco. "The description given in the Bible of the anointing of the chosen king of Israel with olive oil for the purpose of increasing his number of years first suggested the idea to me," he adds. Peter Messtana, who died in March in 1743, aged 130, bathed in the River Segura every morning from the beginning of spring until the stream froze. The great age of Apollonius, a Pythagorean philosopher, alleged to have seen 130, was attributed to the fact that from youth he never drank wine, ate meat, wore shoes or cut his hair and that he dressed only in linen. He lived five years without speaking.

Walking appears to be the form of physical exercise most favored by centenarians. It is related of one MacDonald, who died in Highlands, Scotland, in 1791, aged 101: "He was a great pedestrian and the year before he died, at the age of 100, undertook a wager to walk ten miles in two hours and a half, which he performed. He was accordingly presented to the king at Windsor." Col. George Perkins, of Norwich, Conn., who died thirteen years ago, aged 100, made a practice of walking four miles a day until within a few years of his death. Mary Wilkinson, of Yorkshire, England, who in 1788 died at 109, walked to London when she was past ninety. The distance was 290 miles. She made it in five days and three hours. Mary McDonnell, a vigorous old woman of Magheratempny, Ireland, in 1784, when 117, walked fourteen miles. Sally Morris, who recently died near Parkersburg, W. Va., at the age of 113, had up to two years previous to her death walked twenty miles to town and back one day in each week.

A conspicuous number of centenarians have enjoyed their favorite sports and pastimes even in their very last days. Sieur Dason de Veger, of Lourday, France, who died in 1744, aged 118, "rode hunting fifteen days before his death." Bartholomew Rymer, a Yorkshire gamekeeper, who ended a century of vigorous life in 1791, "shot game flying in his ninety-ninth year." One Hastings, an Englishman, dying in 1699, "rode to the death of a stag when near ninety." "In the last century of his life he was a fisherman and swam in the river after he was 100," states the biographer of Henry Jenkins, before mentioned.

Numerous centenarians appear to have experienced actual processes of rejuvenation. Lord Bacon mentions the case of the Irish countess of Desmond, alleged to have lived to be 145, and to have renewed her natural teeth several times. "Another centenarian has four new sets of teeth and the color of his hair and beard had been frequently changed from black to gray and from gray to black." Mary How, of Derbyshire, England, who died at 112, cut several new teeth and renewed the color of her gray locks. "A few months before his death he had several new teeth and his hair, grown gray by age, became black, its original color," is reported of a citizen of Vienna of the eighteenth century. Susan Edmonds, a contemporary English centenarian, "had new hair of a fine brown color, which began to turn gray a few months before her death." Francis Secardi Hongo, a Venetian consul at Smyrna, renewed his teeth and youthful black hair after his one hundredth year. Thomas Edgar, who died in Edinburgh, 1784, aged 108, dispensed with spectacles at eighty-eight and thereafter read the smallest print with his naked eyes.

That some individuals are really predestined to live past the century mark is indicated by cases wherein life has been entered with a handicap, or yet endured for more than 100 years, or wherein it has miraculously run a gauntlet of ever-threatening accident and distress. "She was an idiot from her birth," is narrated of Sarah Sherdley, an English woman, who died in 1790, aged 105. Though born deaf and dumb, Mrs. Gray, of Northfleet, England, who died in 1770, saw 121 years. "Poor Joe All Alone," a pauper of Ware, England, died at 105, in 1767, although "he had not been in bed for fifty years." The same year there died in London, aged 103, Elizabeth Parker, stolen in childhood by two beggars "who, among other acts of barbarity, put out her eyes to move compassion."

(Continued on Page Ten.)

ABOUT THE ISLE OF MAN

Remarkable Little Kingdom in Which Hall Caine Has Been Elected a Key.

The news that Mr. Hall Caine has been elected a "key" by an overwhelming majority brings to mind the curious anomaly existing in the Isle of Man. This little island, which measures only thirty-three miles by twelve, is a remarkable survival of feudal days in the very center of the British Isles. Situated in the middle of the Irish channel, nearly equidistant from England, Ireland and Scotland, the Isle of Man has a separate existence and is itself a little kingdom whose ruler is the ruler of Great Britain. When the ordinary Englishman is asked what this little island is famous for he will invariably answer his cats, which have no tails. As a matter of fact, there is an indigenous breed of cats without tails, and this unfortunate circumstance has caused the little island to be regarded in a humorous light which its history and its traditions ill deserve.

The Isle in the first period of history was the stronghold of the Druids, and when the Britons were driven into the west of England it formed part of the Welsh kingdom. Early in the tenth century it was seized by the Vikings, and in 1266 passed by sale from Norway to Scotland for the sum of 5,000 marks. In 1333 it was seized by the English, and Earl Salisbury was granted complete royal rights over his tiny domain. Soon after it was sold to Sir William le Scrope, whose deed of purchase states that he bought of William Montacute, earl of Salisbury, the Isle of Man, with the title of king and the right of being crowned with a crown of gold. This owner, like many nobles of his time, soon after came to the scaffold, and then the island passed successively to the earl of Northumberland and Sir John de Stanley, the latter of whom passed it down to a long line of descendants. For exactly 300 years the history of the Stanleys was bound up with the Isle of Man till it passed to the duke of Athol. In 1765 the British parliament obtained proprietary rights, and in 1825 obtained complete possession for the sum of £410,000, a large sum when we consider the small territory purchased.

The government of the island was, up till 1866, more or less of an oligarchy. There are three estates, the governor, the council and the house of keys, or parliament, which together constitute what is known as the court of Tynwald.

The council consists of the bishop of Sodor and Man, the attorney general, the receiver general, the two deemsters, or chief justices, made familiar to the public by Mr. Hall Caine's writing; the clerk of the rolls, water bailiff, archdeacon and two vicars general. There are twenty-four keys, and up to 1866 they held office by a unique method of filling up vacancies by the self-election of others. In 1866, when the second reform agitation was sweeping through Great Britain, this was changed. Hitherto on the death of a "key" two nominations were made, of whom the governor selected one, for the filling of the vacant post. Henceforward the house of keys consented to become representative, and they are now elected for the period of seven years. Mr. Hall Caine's election by a sweeping majority on a more or less socialistic platform shows that the doctrines of reform hold wide sway in the little island, and when a popular novelist becomes a politician outsiders may look for an interesting denouement.

Not the least interesting feature of the Isle of Man is the fact that it has its own bishop, the bishop of Sodor and Man, who has a seat in the house of lords, without the privilege of a vote, however. The establishment of this bishopric is lost in the mists of antiquity. It is supposed to have been established by Pope Gregory IV. in the ninth century. The name "Sodor" is of forgotten derivation, though it is supposed to mark the period when the Hebrides were in the possession of the Norsemen and divided in Norder and Soder, or north and south.

The Manx language, which is similar to the Gaelic, is not yet extinct and the people still pursue their primitive way, touched superficially by the doctrines of modern times, but little changed from the days when the Stanleys held sway in their kingdom.

DURABILITY OF TIMBER.

Now that there is so much talk about the durability of Australian timbers, it might not be out of place to consider some other hard woods that are nearer to hand than the Karri and Jarrah forests of West Australia. There is in the British museum a life-size wooden image of Rameses II. (the famous Sesostria) which seems to be in a perfect state of preservation. As this particular Rameses flourished over thirty-two centuries ago, we may fairly take it that this piece of timber from the Nile valley is at least 3,000 years

old, and it is practically certain that it has passed through many trying vicissitudes, such as being buried among ruins, submerged in Nile floods and the rest. West Australia wood enthusiasts who have lately been boasting that Jarrah can stand the wear and tear of fifty years or more had better ponder this. And our authorities in Egypt might do well to see if there are any forests available for cutting down by Dongola bend or through the Soudan.—London Chronicle.

THUNDERSTORM TERROR

The unusual number and exceptional severity of thunderstorms recently have probably caused a great many people more acute suffering than they would experience from the raging of a rabid dog in the street or the appearance of the bubonic plague. There is nothing except the violent shock of an earthquake which can compare with a thunderstorm as a cause of terror to persons who are so unfortunate as to have what appears to be a constitutional and ineradicable timidity in a storm, says the Detroit Free Press.

In some cases it is certain that no amount of effort and no sense of shame can prevent a pitiful exhibition of cowardice. Men of proved valor in other trying circumstances become panic-stricken and, with blanched faces and wild eyes of fright, cower and tremble at every crash as though something more terrible than death impended. In the surgical records of the civil war is reported the death from pure fright in a storm before Richmond of a soldier who had been twice wounded in battle. Women, however, are most often the victims of thunderstorm fright.

Doubtless the helplessness of the situation has something to do with the extremity of fear. Soldiers who have shown a tendency to panic when under fire which they could not return have behaved with gallantry when commanded to advance on the foe. In the feeling that he is impotent there is hardly an absurdity which the wretched subject of thunderstorm fright will not commit, from sitting on a chair which has been insulated by glass tumbler to creeping under a feather bed. There is a widespread belief that feathers will protect one from lightning, but an old lady abandoned this when her goose was struck. Storm fright is exaggerated by the delusive sensation of nearness at every loud crash.

Attempts to reason people out of their fears do not often succeed. Persons who ride much on the cars with never a thought of danger, and who violate the laws of health with serenity of mind, cannot go all through a severe storm without fear, although they know that the fatalities from lightning are no greater than those from railway and other accidents. The precautions which can be taken against lightning are few. There is no longer the widespread confidence of half a century ago in the lightning rod, although a rod such as science would suggest might prove protective. The rods which formerly covered the houses and barns were more of a danger than a protection.

One who really fears that he may be struck by lightning should note that any metallic article may attract the current, such as the ribs of an umbrella, watch and chain, keys and the like. Trees and other tall objects are particularly liable to be struck. By dwelling on the fact that there is no more danger of death from lightning than from a dozen other things, and that a fatal lightning stroke is far more merciful than many other causes of death, some of the victims of thunderstorm fright should be able to diminish their agitation.—Philadelphia Record.

WHY ENGLAND LAGS.

At present it is the fashion to blame the English workingman, his unions, the growth of the municipal idea—in fact, anything but the main reason, which is the woeful ignorance or supineness of those who are supposed to lead in the English electrical profession. The American firms get into the English market in the first instance by supplying alternating current machinery which could be depended on to work continuously without breakdown. When traction work came along, what was easier than that some established English firm should take an American traction motor and build some like it? One or two did essay the task, but they made such an awful mess of it that it was not until an American firm was established in the country that reliable home-made car motors could be bought.—Electrical World.

The London School of Tropical Medicine at the Albert docks is being visited by distinguished foreign men of science and also by the inspector general of the Japanese navy. Germany recently established a similar school at Hamburg. The French government decided to open schools at Marseilles and Paris.

THIRD PRESBYTERIAN CHURCH

A HISTORY OF THE CONGREGATION AND DESCRIPTION OF ITS NEWLY DEDICATED HOUSE OF WORSHIP.

The Third Presbyterian church was organized as a mission in 1867 by the First Presbyterian church during the pastorate of Rev. John M. Lowry, D. D. For a short time after organization the congregation worshipped in a frame building on Holman street, afterward occupied by the Episcopal congregation. The church building was completed in 1869, the ground on which it stood being given to the new congregation by Mrs. Emerine J. Hamilton, widow of Allen Hamilton.

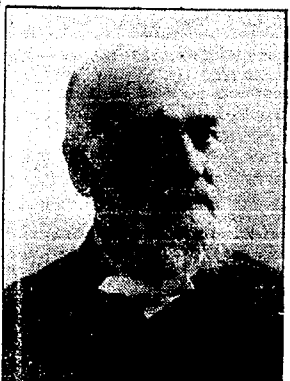

In the spring of 1867 Rev. Nathan S. Smith, since deceased, was employed to conduct the mission, his salary being paid by the members of the First church. The church was organized on December 3, 1867. It consisted of thirty-four members, twenty of whom brought letters from the First church. Two of the original members, Mrs. Christina Dunn

the second Christian Endeavor society in Indiana was organized in the church and forty-nine new church members were received.

Rev. David S. Kennedy, now pastor of the First Presbyterian church of Allegheny, Pa., came to the church from McCormick seminary in April, 1866. He was ordained and installed as pastor May 3 of that year. He resigned his charge in November, 1889, to accept a call to his present charge. During his pastorate 126 persons joined the church.

Rev. John M. Boggs succeeded Rev. Kennedy, beginning his pastorate on the first Sunday in January, 1889, and continuing until April 30th, 1896. Dr. Boggs' pastorate was the longest in the history of the church and in the years he was pastor 227 persons were received into membership, 149 on profession and seventy-eight by letter. Dr. Boggs is now

building committee, with the addition of C. W. Bosnier. Rev. J. A. P. McGaw, the pastor, is ex officio chair-

REV. J. A. P. MCGAW, D. D., Pastor of the Third Presbyterian Church of Fort Wayne.

man of the building committee. THE SABBATH SCHOOL. The Sabbath school is in a most flourishing condition and at present there are nearly 225 scholars on the

THE NEW THIRD PRESBYTERIAN CHURCH.

and Mrs. Isabella A. Diffenderfer, are still members of the church.

In the spring of 1869 the corner stone of the brick building that stands on the original site was laid. Rev. Smith resigned his pastorate June 30, 1873, after a most successful term, during which 108 members were received into full communion. Rev. John Woods, now of Ludington, Mich., was stated supply of the church for one year.

Rev. Harlan G. Mendenhall, now of Perth Amboy, N. J., then a recent graduate of the theological seminary at Allegheny, Pa., was ordained and installed as pastor on May 6, 1875. His pastorate was marked by a large attendance, great activity in temperance work and by large additions to the membership of the church. He resigned his post December 26, 1877. One hundred and ninety-four persons were received into the church during his pastorate.

The third pastor was Rev. William B. Minton, called from Anna, Ill., who is at present located at Greenville, Ill. He began his labors March 10, 1878, and remained until March 7, 1881.

Rev. John V. Stockton was called from Van Wert, Ohio, and came to Fort Wayne in August, 1881. Early in the following year two of his children died from diphtheria. He was

pastor of a Presbyterian church in Byron, N. Y.

The present pastor, Rev. J. A. P. McGaw, D. D., was called June 28, 1896, and installed September 6 of that year. In the following November the session received under its care the Covenant Bible school on the south side and conducted it as a mission until the Third church building, Holman and Calhoun streets, was sold, when it was merged into the home school.

After the sale of the old church

REV. J. BUDMAN FLEMING, Pastor of Westminster Presbyterian Church, Fort Wayne.

building to E. F. Yarnelle, of Mossman, Yarnelle & Co., for \$10,000, the congregation began holding services in the hall, No. 540 South Calhoun street, the first service in the temporary quarters being held October 7, 1900. The last services in the hall were held last Sunday.

OFFICERS OF THE CHURCH. The officers of the church are: President, James English; secretary, E. G. Schulze; financial secretary, W. A. Diffenderfer.

Session: James English, Dr. J. D. Chambers, O. B. Fitch, Thomas Sinclair, John C. Polhaus, C. M. Chambers, Samuel J. Pardoe and W. H. Wortman.

Deacons: William Crighton, E. R. Donaldson, J. C. M. Baker (treasurer), S. E. Gordon and Charles J. Fry.

Trustees: F. P. Wilt, E. G. Schulze (treasurer), W. A. Diffenderfer, Alexander Wilson, William E. Jenkinson and F. E. Riblet.

All the above officers compose the

rolls. Situated as the Sabbath school has been in a district covered by churches organized long before the Third church, this showing is considered highly satisfactory. It is believed that the attendance can be doubled within the next few years in the new territory and the opening of the new church will signalize a great revival of interest in Sabbath school work.

The officers of the Sunday school are: Superintendent, O. B. Fitch; assistant superintendent, Miss Mary E. Christie; secretary, Charles J. Fry; treasurer, Louis D. Sweeney.

REV. J. A. P. MCGAW, D. D. Rev. James A. P. McGaw, pastor of the Third church, was born at Fairhaven, Preble county, O., and grew up in western Illinois. He was graduated from Miami university at Oxford, O., in the class of 1866 and from the United Presbyterian seminary in the same place in 1868. He was ordained by the Second Associate Reformed Presbytery of Illinois on August 3, 1868. His first pastorate was the South Henderson, Ill., U. P. church which he served for nine years. He was for a short time vice president of Monmouth college, Ill. In 1868 he transferred his church connection to the Presbyterian church. At the close of that year he was called to the Presbyterian church of Urbana, O., where he remained until June 30,

REV. J. L. LEEPER, D. D., Former Pastor Westminster Presbyterian Church.

1880. He was then called to the Central Presbyterian church of Rock Island, Ill., where he served one year, when he resigned to accept a call from the First Presbyterian church of Toledo, O. In 1892 he was elected moderator of the synod of Ohio. He resigned his charge in Toledo in the fall of 1893 and re-

moved to Kansas City, Mo., where he served the Linwood Presbyterian church as pastor until June, 1897. He then for a period of eight months supplied the pulpit of the First Presbyterian church of Springfield, O. He was called to the Third Presbyterian church of this city June 23, 1898, and was installed as pastor September 6.

THE NEW CHURCH.

The new Presbyterian church was designed by Architects Kendrick & Bradley. The style of architecture is English Gothic, the exterior being of red brick laid in red mortar. The trimmings are of Bedford limestone. A considerable amount of cut stone has been used in the exterior ornamentation, the main entrance

REV. J. C. BRECKINRIDGE,
Pastor of Bethany Presbyterian
Church, Fort Wayne.

through the tower at the southeast corner being especially rich in carving. Massive stone gargoyles occupy their appropriate positions on the corner of this tower. The absence of tall spires marks one among many other points of difference between this and other churches in Fort Wayne.

The general plan of the church, it is claimed, is an ideal one and provides for every possible convenience.

The chapel in the main auditorium is square, the dimensions being 58x58 feet. The pulpit and organ are situated in one corner and there are entrances at each of the other three. The loggia on the south, while an attractive feature of the exterior, furnishes an exit for both main auditorium and Sunday school room, besides affording needed shelter in bad weather. The seating capacity of the main auditorium is about 400, while that of the Sabbath school room, which is separated from it by rolling partitions, is 300. The two rooms can be made one, giving accommodation for 700 people. The dimensions of the Sunday school room, including the primary department and class rooms, is 35½ feet by 63½ feet. The pastor is well provided for a pleasantly situated room with north light being set aside for his convenience. The ceiling of the main auditorium is domed, adding greatly to the acoustic properties of the church. The church is beautifully finished in red oak and has been attractively decorated throughout by O. J. Kover & Son.

The basement contains a dining room, kitchen, toilet and cloak rooms, and is probably the most convenient in the city. The dimensions of the dining room are 34x42 feet. The ventilation of the church is a feature worthy of special mention. The building is provided with a new system of forced draught. A 72-inch fan forces warm air through the rooms in the winter, and in the summer the fan will furnish a current of cool air.

COST OF THE NEW CHURCH.

The new church building at the corner of Harrison and Taber streets, together with the furnishings and extras, will cost about \$24,000. The finishing touches on the structure were put on today, when the decorators completed their work. The pipe organ is not yet in place, but will be put in soon after the holidays.

A tabulated statement of expenses incurred in the erection of the church is appended:

Brick work, by Max Imm-scher	\$ 7,398.00
Carpenter work, by C. R. Wermuth	6,823.00
Heating	1,073.50
Furnishings	1,050.00
Plumbing	330.00
Chandeliers	500.00
Wiring	312.00
Cement	200.00
Glass	672.00
Freecasting	325.00
Hardware, etc.	182.00
Flexfold partitions ..	514.50
Carpets	640.00
Organ	2,000.00
Architect	1,000.00
Extras	1,000.00
Total	\$24,021.00

MODEST MRS. CARNEGIE.

Mrs. Andrew Carnegie has never courted newspaper publicity and shudders, it is said, at the mention of the word interviewer. The world knows very little about her, therefore. This reluctance to appear in any way conspicuous is apparent to

everyone who has made her acquaintance. She prefers to be regarded simply as the mistress of Skibo castle or No. 5 West Fifty-first street rather than a person of any public interest. An Englishman who visited Mr. and Mrs. Carnegie at Skibo, in Scotland, last summer, said of Mrs. Carnegie: "I found her a charming, vivacious, clever woman, and a model hostess who seemed studiously to avoid doing or saying anything that might appear to be in any way interesting to the outside world. A story is told illustrative of the devotion in which the 'iron master' holds his wife: A little custom which Mrs. Carnegie adopts at her dinner parties is to put into a small silk bag slips of paper bearing the names of all the ladies present. Then just before dinner is announced she carries the bag around to the male guests and each 'dips' for his partner at table. One evening Mr. Carnegie 'drew' his wife. His boyish delight was immense. Holding his slip of paper so that all the company could see the name inscribed thereon, he playfully invited the men to make bids for it and the honor of 'taking down' Mrs. Carnegie. Presently he grew serious. 'The offer is withdrawn,' he said. 'My luck is too precious.' Photography may be mentioned as one of Mrs. Carnegie's favorite pastimes. The mistress of Skibo is about twenty years the junior of her husband. There is a daughter, a winsome little miss, in whose name Skibo castle was purchased."—New York Mail and Express.

THE OLDEST MEN AND WOMEN

(Continued from Page Nine.)

Lewis Corano, of Padua, Italy, "at seventy was overthrown in his coach, whereby his head was broken and a leg and arm dislocated," yet he lived to write a treatise on "The Birth and Death of Man" before dying a natural death in 1566, at the age of 104. An account of one John Gice, of Worcestershire, England, who died in 1774, aged 125, states that when he was eighty a tree fell upon him and broke both his legs and that when 100 he fainted, fell into his fireplace and was severely burned. Yet he later resumed his customary walks.

Centenarians run to all extremes of physical build. "He was one of the most corpulent men in the country," says the biographer of a man of 107. "He was a little emaciated man," states that of another 130. A dwarf only two feet eight inches in height died in her 101st year. A giant seven feet six inches tall broke this record by 17 years. A woman dying at 104 "was formerly shown about as the strong woman." "She exhibited signs of extreme tight lacing," is quoted from the medical report of a post-mortem performed upon a woman of 106 dying from a burn.

EFFECTS OF MARRIAGE.

Married life is productive of long life, according to many medical authorities. But Noah Raby, said to be the oldest man in New Jersey, was still a bachelor when recently visited at Piscataway on his 125th birthday. Margaret McDowd, an Edinburg woman, dying at 106, had "married and survived 13 husbands," yet Betty Dowling, of Sparksville, Ind., was a maiden at 101 when reported a few years ago. A 109-year-old Englishman of Broadwater "married six wives, three of them after he was 100 years old, and died in the same house in which he was born." Yet one Peter Mestanea, of Venetia, is said to have lived in bachelorhood 130 years. William Haseling, a pensioner of Chelsea college, England, "married and buried two wives after he was 100, and the third, who survived him, he married at the age of 110." Charles Cottrell and his wife of Philadelphia lived together in the married state 95 years in great union and harmony, and died within four days of each other in 1761. Edward Drinker, of Philadelphia, "was four times married and died at 103." "Both died the same year, in the 148th year of their marriage, leaving two sons and two daughters, besides many grandchildren. The youngest son was 116 years of age" is written of John Rovin and his wife of Temeswar, Hungary, alleged to have been, respectively, 172 and 164 when dying in 1741.

An account of Margaret Krasowna of Koninia, Poland, who died in 1763 and who, in her 95th year, it is claimed, married her third husband, aged 105, states: "During the 14 years they lived together they had two boys and one girl, and, what is very remarkable, these three children bore evident marks of the old age of their father and mother, their hair being gray and having a vacancy in their gums like that which appears after the loss of the teeth, though they never had any." "Though most of these particulars may appear fabulous they are certified to by the parish registers." The ancient obituaries of centenarians perpetuate much else that is asteworthy, if not grotesque. "He had neither gout nor cholera; lived well beloved by all who knew him,

and was, as most long livers are, very short," is inscribed to the memory of a reverend English gentleman who died at 105. "He was born under a hedge in the year 1679, not a hundred yards from the cottage where he died," is recorded of a man who saw 114. "This post-deluvian patriarch died without pain, groan or previous sickness" are words dedicated to a Scotch piper who lived to be 122. One Colonel McDonald, who died at Glasgow, in 1771, is described as "a man who, under the appellation 'Elizabeth Page,' practiced physic in Streatham, Surrey."

A NEW MAYOR IS ELECTED

ALSO OTHER CITY OFFICIALS FOR INDIANAPOLIS.

The Young Men of the Y. M. C. A.

Will Attempt to Show How

Things Should Be Done.

(Indianapolis Journal.)

A new mayor of Indianapolis was elected last night. He is H. F. McMichael. The new city clerk is Russell Mullins. The new judge of police court is Dan Pyle. Their election was interesting but not exciting as compared with the last campaign. The election was held at the Y. M. C. A. building. It was for the purpose of securing city officers who will check up the "doings" of the regularly-elected city officials and show them how things should be done as well as bring good practice for the boys. In addition to the three officials named six councilmen at large were elected. They are Earl Edman, Arthur Haines, Clarence Newport, Ford Fisher, H. A. Thurston and Ralph R. Eay. The ward councilmen selected were: First ward, W. F. Butler; Second ward, E. A. Krug; Third ward, George A. Pritchard; Fourth ward, C. M. Clark; Fifth ward, H. P. Icar; Sixth ward, C. E. Springer; Seventh ward, B. F. Kepner; Eighth ward, W. B. Stoner; Ninth ward, C. J. Comstock; Tenth ward, L. R. Noble; Eleventh ward, H. Daugherty; Twelfth ward, Tom Snyder; Thirteenth ward, C. Woodall; Fourteenth ward, F. Fetschmann; Fifteenth ward, W. C. Smith. The members of the council will meet Wednesday night of next week for organization.

Within a few days the new mayor will appoint the members of the department boards, who will meet to fill the places under their control. Then the "administration" will go to work. The work will be carried through the year. It is a part of the plan of the secretary to provide instruction along needed lines as well as amusement for the members. Some of the young men last night demonstrated their abilities as embryo politicians of the first water.

TO SAVE MESA VERDE.

The treaty of the club women of Colorado, designed to save the Mesa Verde, with the Weeminuche Utes, has been signed by the authorities at Washington. They pay \$300 a year for thirty years for the Mesa Verde, which is part of the Ute reservation, to Ignacio, the first old chief of the tribe. Their object is to preserve the cliff dwellings of the Mesa from the cliff hunting vandals; build a toll road to the now almost inaccessible cliffs; erect a bungalow, or rest house, for the accommodation of travelers, hire Indians to police the ruins, and, finally, advertise to attract travel to compensate them for their outlay. At present the ruins can be reached only on horseback, and during a portion of the journey the riders must dismount. It is a tiresome and painful journey that few attempt. These few, however, do exactly as they please with the ruins, pounding and digging in them and removing all the relics they can carry away.

WHY FRENCH COLONIES FAIL.

One reason for France's failure in colonization, says Thornwell Haynes, consul at Rouen, is that the soldier has determined the position and character of her colonies. In Africa, for instance, she colonized with military expeditions; England, on the other hand, with merchants, who have fixed upon the most fertile points with a trader's instinct. In the fight for commercial supremacy traders are better than soldiers. Again, the specialties of French manufacture—silks, ribbons, gloves and articles de Paris—are not what a colonial people desire, and an inability to minister to the more vulgar needs of the multitude has allowed other nations to enter these markets.

HELLER'S TESTIMONY.

Albert Heller, living at 1114 Farmham St., Omaha, says: "I have tried most everything that is used as a preventive or cure for headache, but nothing did me so much good as Krause's Headache Capsules. Others who have used them say the same thing." Price 25c. Sold by Dreier & Bro., corner Calhoun and Columbia streets.

THEIR DAILY BREAD.

How It Is Earned by Some of the Clever Women of This Land.

Every year adds to the number of women who are entering new fields of industry and winning success.

Mrs. Laura Alderman, of Hurley, South Dakota, owns the largest apple orchard in the northwest. It is known all over the country, and has been in its present hands for twenty-four years. Recently the department of agriculture has honored Mrs. Alderman by publishing a record of her success in apple raising.

Cloverbrook duck ranch marks the successful struggle of a woman at Chazy, N. Y., near Lake Champlain. Miss Ellen Wheeler was thrown upon her own resources, and her health failing under the strain of typewriting, she experimented with fancy farming. Each summer she raises by incubation 1,500 ducklings, to supply the hotels in her neighborhood. She also has started a bee ranch which is successful.

A blacksmith's shop with several assistants fell to the lot of Celia Holbrook, of Sherborn, Mass., when she was but 17. At her father's death she undertook to run this and has done so for two years, supporting her mother and a large family. Besides this emiliy she has another business, being a mail carrier. Twice a day she takes the United States mail four miles in summer, performing this service on her wheel; in winter on foot.

The Southeastern Billposters' association, of Moultrie, Ga., recently suspended its rules in order to admit a woman, Miss Cora Kimball, an efficient billposter.

Mrs. Eames and Miss Sayre, of Mont Clare, Ill., have been made captain and assistant marshal of the fire department. The places are not sinecures and it is no new thing for women to fight fires in Mont Clare, as most of the male population is in Chicago all day.

Mrs. Bissell has entire charge of a carpet sweeper factory of Grand Rapids, Mich. It is even rumored that the invention was hers rather than that of her husband, now deceased.

Miss Belle McKimmon is superintendent of a big manufacturing plant of Little Falls, N. Y. She employs 1,200 hands, is trained in business and is especially noted for having amicably settled several disputes which threatened strikes.

A very young woman of Syracuse is paying her way through college by a domestic occupation on a large scale. Even as a child her spare time was spent in fruit canning and jelly making, and this work she has found more lucrative than undergraduate teaching in order to secure money for her university expenses.

Miss Elvira Miller, a Canadian writer, has just been engaged as passenger agent upon the Louisville and St. Louis road, and it is confidently expected that she will present the "superior attractions" of the railroad in a way to interest women travelers.

Mrs. John Kidder, of Nevada county, California, is president of the narrow gauge road running from Colfax to Nevada City. Her husband owned much stock and during his illness she familiarized herself with the business.

POPE'S COSY RETREAT.

Whenever the weather permits the pope spends the day in the villa in the Vatican gardens, returning to his "town" apartments about 5 o'clock. He last time he went into the gardens he saw two splendid horses which the German Jesuits had sent him. The pope, who was in excellent spirits and health, admired the animals very much. The pope, indeed, is very fond of all animals and has a number of them which he never fails to visit every time he goes into the gardens. There are two goats which are his especial favorites and he never omits to pat them when he passes by them. No one is allowed to stay in the gardens during the pope's stay there excepting those employed in the grounds, and for these the pope has always a kind word and sometimes a joke. For instance, he has always a little joke about the age of the head gardener, who is almost as old as himself and whom he addresses as "My old friend Caesar."

When the pope is not in villagiera strangers may be allowed to see the tower where he spends some of his time on pleasant days, says a correspondent. But it is not necessary to enter the gardens to see this tower. It can be perfectly well seen from the Sagrestia piazza, where another of the many new convents in Rome is now being erected. Firstly, half up the rise you see a little rustic cottage, painted pink, and that that rises a high, white medieval wall, behind which stands the tower, known as Leo XIII's summer residence. Round in shape and blackened with the smoke of ages, it stands like a dwarfed pyramid against the background of the sky.

EXERCISING

Health by exercise is one of the sanest of modern facts. It is really a recognition of one of the necessary laws of health from which we, in modern life, are always prone to drift away. When each man provided for his own individual needs, he had to till the ground, to hunt, to earn his bread literally by the sweat of his brow, and all this exercise made for health. Now-a-days, when there is specialization of labor, it falls to the lot of many a man and woman to work in store or office and to take no exercise save what can be taken between the store and the dwelling or on Sundays and rare holidays. For this reason there is sound sense in the attempt to supply artificially the exercise which cannot be obtained naturally—to toughen the muscles, and expand the chest. It is never to be forgotten, however, that gymnastics or calisthenics are artificial, and while they will promote health can rarely be counted on to produce it. If the heart, lungs, liver, kidneys, or stomach, are "weak," it can hardly be expected that exercise will strengthen them. But once cure diseases which weaken the body, and then exercise will do much to preserve the restored health.

One chief obstacle to the use of physical exercises for the promotion of health is that the people who most need exercise cannot be persuaded to practice it, or persist in it regularly. They are weak, run-down, nervous, and the very effort which exercise calls for discourages them. Then, also, the physical enervation they feel has its corresponding mental enervation and there is almost a total lack of ambition. It is to people such as these that Dr. Pierce's Golden Medical Discovery comes as a means to the re-establishment of health. It heals the diseases of the stomach and other organs of digestion and nutrition, purifies and enriches the blood, and enables the building up of a sound, muscular body from the nutrition derived from food perfectly digested and assimilated.

"I feel it my duty to let you all know that I have recently advised a young gentleman, who was suffering badly with kidney and bladder disease, to try your 'Golden Medical Discovery,'" writes Frank Startz, M. D., of Flatonia, Fayette Co., Texas. "He bought four bottles from our druggist here, and after he had used the first bottle he began to improve. Sometimes he was unable to walk ten steps, now he can ride a horse without any pain in his back, and looks as well and sound as a young boy. His age is only 28. He has suffered for nearly three years, and several other doctors called the case incurable, but I had confidence in Dr. R. V. Pierce's Golden Medical Discovery, and now I have been offered one hundred dollars several times for my kind advice, but I would not accept it because I want everybody to know what Dr. Pierce's famous medicine can do.

"This testimony is absolutely true, and the reason I haven't mentioned the young man's name is because he does not want to have his name published."

The cure of this young man by the use of "Golden Medical Discovery" serves to enforce the proposition made in the beginning of this article, that health by exercise is impossible when certain diseases exist. A man who can "hardly take ten steps" is certainly incapable of active exercise.

More common, perhaps, than kidney disease, and often associated with it, is some disease or disorder of the liver. The following letter exhibits a specimen of the cures of "liver complaint" which have resulted from the use of Dr. Pierce's Golden Medical Discovery.

"I sent you a letter about a year ago," writes Mrs. J. Ellis Hamilton, of Farmington, Marion Co., W. Va. "I stated my case as plainly as I could, and received a letter from you in a few days telling me to use Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription'—a bottle of each. I used three of each, and feel like a new woman. Don't suffer any pain or misery any more. Before using your medicines I suffered all the time—head, jaundice, caused from food not digesting properly. I would have sick headache three and four times in a week, and jaundice every four or five weeks. Could not do the work myself. I commenced using your medicines as recommended for liver complaint, and I am cured now. I asked our doctor if he couldn't cure me, and he said he could give me medicine to help me, but the trouble might return anytime. I doctored three years without any relief, only for a short time, and then I was as bad as ever. Haven't had sick headache since I took the first bottle of medicine."

It is often the case that "weak" heart, torpid liver, kidney "trouble," and other diseases have their cause and origin in the diseased stomach. When the stomach is cured by the use of "Discovery," the other diseases are cured with it. When the cause of disease is removed, the effect stops.

If the dealer offers a substitute for "Golden Medical Discovery," remember that the sole motive of substitution is to enable him to make the little more profit paid by the sale of less meritorious preparations.

YOUR HEALTH can be preserved by the use of proper means. Dr. Pierce's Common Sense Medical Advisor tells what means to use. This work contains 1008 large pages, and is sent FREE on receipt of stamps to pay expense of mailing ONLY. Send 31 one-cent stamps for the cloth-bound volume or only 21 one-cent stamps for the book in paper-covers.

Address: Dr. R. V. PIERCE, Buffalo, N. Y.

Some say it was built by Leo IV. as a refuge against the Saracens; others, however, put its date to the end of the fourteenth century, when the Vatican was threatened by Christian foes instead of infidels.

Nevertheless, it has always been known as the Leonine tower, in honor of Leo IV. There is a lovely view of the Roman Campagna from this tower and a delightful breeze comes straight from the sea to cool it and purify it from all unwholesome air.

PUREST IRON ORE IN WORLD.

For centuries the Dannemora iron ore mines in Sweden have been to the iron maker what Mecca is to the Mohammedan. It is there that the purest iron ore commercially known to man exists. The operating company is a close corporation, and the ore is sold to no one outside of it; that is, the owners all possess iron or steel producing plants, and obtain from these mines part of their supplies. They limit the production to 50,000 tons per annum, and place it at a price which might seem prohibitory, but from its quality they can afford to so charge themselves.

The ore, which now comes from entirely underground operation, is magnetic, with an average of 50 per cent. of metallic iron and from 0.0025 to 0.0005 per cent. phosphorus. It re-

quires very little flux in the blast furnace, as the gangue is principally limestone, and the phosphorus is of that minute quantity which generally leads one to doubt the chemists' reputed results.

The mine has been operated for the last 400 years. At first it was owned by private parties, but later reverted to the government. In 1863 it was again taken by individuals, and has been successfully worked ever since. Up to 1829 the ore was disrupted by fire setting. In that year the use of gunpowder was introduced. The present working depth is 849 feet.—Cassier's Magazine.

ALL LONDON AT HER FEET.

One of the reigning social successes in London is an American woman, Mrs. Francis H. Leggett. When she sailed for the other side in the spring Mrs. Leggett remarked to a friend, "Inside of three months I mean to have the entire into any place in England that I care to go."

Mrs. Leggett has accomplished her ambition. She has a house in the most fashionable quarter of King Edward's capital, she hobnobs with duchesses and peeresses, and her entertainments are the talk of the city. Her own remarkable beauty and her husband's money have been factors that contributed to Mrs. Leggett's success. Her husband is the

great wholesale grocer of New York, and their handsome home there is on the upper Fifth avenue. Before she married him she was a widow, Mrs. William Sturgis, of Chicago, in which city she was also a prominent society leader.

NOTICE OF GUARDIAN'S PRIVATE SALE.

Notice is hereby given that the undersigned, Jacob Keller, guardian of Elizabeth Putt, insane, will sell at private sale, pursuant to an order of the circuit court of Allen county, Indiana, made and entered on the 8th day of November, 1901, all the right, title and interest of the said Elizabeth Putt in and to the following real estate to wit: The east half of the northeast quarter and the southwest quarter of the northeast quarter of section thirty-four, in township number thirty-four, range fifteen east, in Allen county, Indiana. Bids will be received by me for said real estate at the office of George F. Felts, at 34 East Berry street, in the city of Fort Wayne, Indiana, up to and including the seventh day of December, 1901, until two o'clock of said day, when said real estate will be sold at the place aforesaid to the highest bidder.

Said real estate has been appraised at thirty-six hundred dollars and a bid for less than that amount cannot be considered. The terms of sale specified by said order are one-fourth cash, one-fourth in one year, one-fourth in two years, balance in three years, with all but cash payment secured by first mortgage on said realty, the rate of interest being six per cent. per annum.

JACOB KELLER,
Guardian.
Dated Fort Wayne, Indiana, November 8th, 1901.

LOCAL LINES.

A case of diphtheria is reported at No. 152 Eliza street.

Born, to Mr. and Mrs. Fred Cosseo, of Baker street—a son.

A new case of diphtheria was reported this morning from 152 Eliza street.

A. J. Muldoon has resigned his position with P. G. Kuttner to take a situation with the Lehman clothing concern.

J. E. Ferguson last week sold a farm of 320 acres situated near Churubusco to an Illinois man for \$10,000.

John Aiken, sr., of Scott, Ohio, is visiting his son, Judge John Aiken. Mr. Aiken was a former assessor of Allen county.

Mrs. W. J. Vesey, who is in charge of the Vesey flower exhibit in St. Louis, telegraphed last week that she had been awarded a number of first, second and third prizes.

Theodore O. Wians, residing at 64 Scott avenue, was painfully injured last week. While at work in the basement of his residence a large stone fell upon his foot, bruising that member severely.

C. Tresselt has purchased a handsome red Missouri granite monument, to be erected in Lindenwood cemetery. The monument is the first of its kind in the city and is very handsome in design.

The engagement of Fred Scharphorst, of the Eckart Packing company, and Miss Rose Bushing was formally announced Tuesday evening at a party given at the young lady's home. The date for the wedding has not yet been fixed.

A barn belonging to Fred Fehling, of No. 140 Eliza street, was burned early Thursday morning and a valuable cow was cremated. Two tons of hay and a quantity of grain were also destroyed. It is thought that the fire was of incendiary origin and the loss is estimated at \$300.

L. C. Schlaudroff, special officer for the Humane society, was operated upon for cancer last week at Hope hospital by Dr. L. P. Drayer, Dr. Porter and Dr. B. VonSveringen. Mr. Schlaudroff has been a sufferer for some time and in the operation a portion of his lower lip was removed.

Oscar Lindeman, of 9 Erie street, is quite seriously ill from blood poisoning. Last Saturday Mr. Lindeman ran a piece of steel into his right hand while at work in the Bass shops and the metal was extracted by Dr. A. J. Kesler. The wound did not heal properly and blood poisoning developed.

John Pfeiffer, proprietor of the Greatest Grocery, and Chris. Weller spent Wednesday hunting near the Ohio state line. Mr. Pfeiffer shot a bird which he jubilantly exhibited to his friends as a pheasant, but it turned out to be a chicken hawk. That, with a rabbit and a brace of quail, constitute the day's bag.

Mary Fisher, the young girl who left her home in Kalamazoo and came to this city several weeks ago, and who refused to accompany her father back home, was a caller at police station last week. She says that she is now living with a relative in the country; that she has forsaken city life, and that she will henceforth be a good girl. She continues, however, in her refusal to return home.

SUCCEEDS REV. J. B. FLEMING.

Rev. A. M. Eells has been called to the pastorate of the Presbyterian church at Hammond, Ind., to succeed Rev. J. Budman Fleming, who resigned the charge last spring to assume the pastorate of Westminster church in this city. Rev. Eells recently resigned a charge in Pennsylvania, and spent a few weeks in this city the guest of friends.

SAYS THEY MAY UNITE.

(South Bend Times.)
There is a strong probability that the death of John D. Sarnighausen will result in the consolidation of the two German daily papers published at Fort Wayne. There is room for one good, strong German daily at Fort Wayne, but not for two. This fact has been apparent for some time.

THE CHICAGO COMMENT.

(Chicago Tribune.)
The elopement of John Pulz has made his sort of public Pulz, as it were, so to speak.

IT WAS APOPLEXY.

Acting Coroner Dr. A. E. VanBuskirk finds that Henry Nietert, whose death occurred at New Haven Tuesday afternoon, died as the result of a stroke of apoplexy. Mr. Nietert was found unconscious by the roadside, and it was believed he had been thrown from his buggy by a runaway. It later appears that his fall from the buggy followed the apoplectic attack. Only slight bruises were found about the body.

GIFT FOR INDIANA COLLEGE.

Terre Haute, Ind., Nov. 14.—B. A. Palmer, a retired banker of New York, has made a gift of \$30,000 to Union Christian college, located at Merom, Ind.

PILES LIE ON LIE

BUT LETS OUT ENOUGH TRUTH

TO HANG HIM.

RATHBUN CONFESSES AGAIN

DECLARES HIS WIFE WAS IN PLOT WITH HIM.

HIS VICTIM'S NAME GOODMAN

GOVERNMENT WILL GIVE HIM TO INDIANA OFFICERS.

Louisville, Ky., Nov. 13.—Newell C. Rathbun, who is in jail here on suspicion of having murdered Charles Goodman in Jeffersonville, made another damaging admission to the detectives today. For the first time he admitted that he had a confederate in Little Rock and when closely questioned he stated that his wife was in part of the conspiracy to secure insurance money illegally, although he insisted that she was entirely innocent of complicity in any plot to put Goodman out of the way.

At first Rathbun stated that his only confederate was a deserter from the regular army by the name of Blanchard, but he finally admitted that this was false and that Blanchard was fictitious. He then stated yesterday morning that he had worked the plot out alone.

The suspicions of Captain Sullivan were aroused this morning by news from Little Rock that a Miss Corinne Pricer had stated that Rathbun had proposed a very much similar plot of defrauding an insurance company to her and said that if she would marry him and carry out her part that he would send a corpse home; that it could be buried as him, and that he and she would divide the insurance money. He also learned that Mrs. Rathbun insisted that the corpse sent from Jeffersonville and not from Little Rock was that of her husband.

TOLD BUT PART OF TRUTH.
After ascertaining these facts, Captain Sullivan had Rathbun brought into his private office and interrogated him about the phase of the case.

Rathbun said: "I have only told you part of the truth, so far. I arranged this matter with my wife in Little Rock long ago, but did not want to bring her into the case. Now it looks like I will have to. I told her that I would find a corpse and that she was to telegraph for it to be buried and then collect the insurance and in time I would desert again from the army and meet her at some place and we would divide it."

After making this statement Rathbun said that his wife knew nothing of any plot to commit murder or to set fire to a hotel.

"Indeed," he said, "no murder was committed, for I did not kill Goodman. I might have killed him if necessary, but he died from natural causes."

WILL SURRENDER HIM.

Washington, Nov. 13.—The war department has decided to send Newell C. Rathbun from Louisville to Jeffersonville, Ind., under military escort and there turn him over to the civil authorities. The military authorities are holding Rathbun on the charge of desertion from the United States army, but believe he should be tried on the more serious charge of murder preferred against him in Indiana. As he is a prisoner of the United States government no requisition will be required to take him from Kentucky to Indiana.

HE IS IDENTIFIED.

Jeffersonville, Ind., Nov. 14.—N. C. Rathbun was identified here today by Deputy Sheriff A. Chichester and E. J. Gloeckner, from Little Rock.

The meeting between the prisoner and the Arkansas visitors, whose trip was for the purpose of identification, took place in Sheriff Rave's office.

"Hello, Rathbun," said Gloeckner. "Don't you know me?" was the first salutation.

PISO'S CURE FOR
CURES WHILE LIFE LASTS
Best Cough Syrup, Tastes Good. Use
in time. Sold by druggists.
CONSUMPTION

"Yes, you're Gloeckner," responded the prisoner.

"Did you give that man the dope?" asked Gloeckner.

"I am not guilty of the crime as charged."

"Did your wife know anything about your scheme?"

"She might have thought about it."

"Why didn't she identify the body as not being yours?"

"I can't tell. She's an excitable woman."

"What about the statement of Carrie Pryor that you wanted her to go into an insurance swindle with you?"

"She's an enemy of mine."

At the conclusion of the interview Rathbun signed the following paper for the purpose of proving his identity in Little Rock:

"To whom it may concern: I am in custody in Jeffersonville, Ind., awaiting trial. I will send this by Al Chichester and E. J. Gloeckner."

"N. C. Rathbun."

A special grand jury will be summoned next Monday to indict Rathbun.

SOUGHT DAVY JONES' LOCKER

MERRY SAILOR LAD TRIES TO REEF HIS EXISTENCE.

Tom Roderick, Man-o-War's Man, Has a Hot Desire to Disintegrate Himself—Is Better.

There was no police court Wednesday last, although Mr. Thomas Roderick succeeded in giving the police department a little excitement last night and for awhile had the coroner on the anxious seat. Roderick is a sailor, on the United States gunboat Pensacola, and is now off duty on a ninety-day shore leave. He has friends and relatives in this city and has been here on a visit for several weeks. When not relating incidents of a life on the billowy deep, Thomas circulates about the town and throws in a few soluble marlinspikes and other things to keep his legs from getting land-sore. Last Tuesday he called at the establishment at No. 12 Lafayette street, where gentlemen of leisure and money can spend an hour or two in congenial female company. He was under the influence of liquor when he arrived and he put a few more drinks under his hatchway while visiting. Presently he raved around a bit about the lonesomeness of a sailor and then pulled out a penknife and endeavored to cut a few sections out of his jugular vein. The knife was dull and his efforts were unsuccessful, so he seized a water pitcher and proceeded to beat himself on the head with it. The pitcher was broken, his head was pretty badly gashed and finally he fell in a heap and lapsed into unconsciousness. The patrol wagon was called and he was taken to the jail hospital, where a physician was called. His head was stitched up, some plasters and balms were applied and as soon as the effects of the liquor died away the young man appeared to be all right again. No charge was placed against him and this morning at his own request he was allowed to leave the jail. He said that he guessed he must have been crazy and intimated that he would at once go to some relatives in the country and stay there until he had himself all grown together again.

"GHOST" WANTS A FARM.

(Warsaw Times.)
A white-shrouded, ghostly figure parading among the tomb stones of the Morris chapel cemetery, a few miles east of this city, one night recently, badly frightened a number of people and caused one young lady such a violent scare that hysterics almost resulted. It is said that the figure of the "ghost" was plainly visible from the residence of J. H. Vanouren, and, further, that a couple of the ladies and a man started for the graveyard to ascertain his spookship's identity. They only started, however. It is related that the gentleman went with the ladies a part of the way and then concluded that he was too tired to continue the search and concluded to rest. The ladies continued their search, but the ghost suddenly melted into the air—so all ghosts do, you know—so the ladies gave up their investigation. Next morning a close examination revealed the No. 9 footprints of the ghost. Even this, it is said, has only partially allayed the fears caused by the ghost's visit. It is now hinted that the ghost's visitation was prearranged by a man, who, desiring to become the owner of a certain farm in that neighborhood at a less price than a certain owner was willing to take, concluded to work a depreciation of land values in that manner.

NOW PRINCES OF JERUSALEM

NEW CLASS RECEIVES HIGH MASONIC DEGREES.

Scottish Rite Convocation Closes

With a Banquet This Evening

—The Candidates.

(From Wednesday's Daily.)
By the impressive ceremonies at Masonic Temple this afternoon a new class in Masonry was received into the higher degrees of the Scottish rite and are now recognized in the fraternity as princes of Jerusalem. The fall convocation, which has been held during the past two days, will come to a close this evening with a banquet.

There was no session during the forenoon hours today and the members spent the time in looking about the city, one party going to the summit of the court house tower to get a view of the surroundings. At 2 o'clock this afternoon Darius council, Princes of Jerusalem, began the ex-emplification of the fifteenth and sixteenth degrees to a class practically the same in membership as that of yesterday. The work will be completed at 6 o'clock this evening and a banquet will follow. H. W. Mord-hurst is to be toastmaster and Walter R. Seavey, of this city, will deliver the class address.

CLASS OF TWENTY-ONE.
The attendance at the session has been fully up to the average and the convocation has been successful and interesting. Twenty-one candidates comprised the class receiving the degrees Tuesday afternoon and evening, and Judge Edward O'Rourke delivered the address. Those who received the degrees were: John M. Ketcham, Auburn; Walter F. MacGinitie, Portland; Adolph F. Schulz, Fort Wayne; John B. Logan, Wabash; Wm. E. Webber, Wabash; Wm. P. Schrock, Decatur; Christian C. Shafer, Decatur; Theo. F. Wood, Angola; Alpheus C. Wood, Angola; Edward H. Merriett, Albert E. Carroll, George Albanus, Albert Tompkins, Fort Wayne; Alex. W. Swanson, Geneva; Daniel Fogle, Geneva; Charles E. Ewart, Fort Wayne; Homer Pontius, Geneva; Wm. J. Dean, Marion; S. J. Payne, Wabash; Wm. Paul, Fort Wayne.

JUSTICE TO MR. GOODMAN.

Charles Goodman, a wholesale liquor dealer doing business at the corner of Main and Clinton streets, feels aggrieved at a statement made in The Sentinel a few days ago, that Mr. Mesberger, a dairyman, arrested and fined for putting coloring in his milk, had purchased his coloring matter at his place. The Sentinel made its statement upon the authority of the officers in charge of the investigation, who received theirs through the evidence of an employee of the dairyman. It has since developed that the witness was either confused, or gave his information in a confusing manner. The fact is that the material was procured at another liquor store. This statement is made in justice to Mr. Goodman, who says he does not deal in adulterations to be used in milk or liquor.

MAY OPEN TO ANDREWS.

Grading for the extension of the Fort Wayne and Southwestern electric line west from Huntington has been completed to within three miles of Andrews, and it is the hope of the management to have the track completed to that town by the time the running of cars begins. If this can be done, the line will be operated to Andrews from the first.

PUBLIC SALE.

Henry A. Rockhill will offer at public auction his entire farming outfit and stock, too numerous to mention, Tuesday, Nov. 26, 1901, at his farm, six miles west of Fort Wayne on Yellow River road. Stock of all kinds, both fat and for breeding, offered. Nothing reserved. The usual terms will be given. See small bills.

13w2t HENRY A. ROCKHILL.

George W. Jones, No. 13 West Main street, the old reliable abstract title maker, is prepared to do this work on short notice and on very low rates. If you need anything in this line, call on Mr. Jones. w6-3t

SAMAR BUTCHERY

NEW DETAILS OF MASSACRE AT BALANGIGA.

RETURNED OFFICER'S STORY

A TALE OF TREACHERY AND HORRID SLAUGHTER.

HOW BOYS OF THE NINTH DIED

BRAVE FELLOWS OF COMPANY C FELL FIGHTING.

Victoria, B. C., Nov. 13.—Lieut. F. P. Allison, U. S. N., who arrived here yesterday on board the steamer Empress of China, on the way home from Manila, gives some interesting details of the recent massacre of the members of the Ninth infantry at Samar. Lieutenant Allison says the natives had grown to like the colored troops who had been stationed there and when the Ninth arrived it was thought by the American troops that the same friendly feeling would be shown to them and the guard was not as strictly kept as it otherwise would have been. The night before the massacre the village presidents came to Captain Connell and before the padre declared that it would take 100 more bombas (native laborers) to do certain pioneer work. He did not have the men and begged the indulgence of the army captain.

Honest and true in the legitimate discharge of his duty, Captain Connell said: "Do the best you can. Get any native who will work, but clear away the underbrush."

BUTCHERY BEGINS.
Just after daylight the natives with bolos to cut underbrush began coming into camp. Then the massacre began. The last underbrush man killed the sentry. The church bell rang and the soldiers went to breakfast below the floor that held their arms. The insurgents divided. Half went upstairs and shot down and the other half went in the messroom and murdered the unarmed soldiers by force of numbers. Not one of the survivors turned his back upon the scene of carnage until all was lost, their officers fallen, their comrades slaughtered and a terrible vengeance executed upon the enemy. Then they saved themselves and their wounded mates.

Captain Connell apparently was awakened in his quarters by the attackers pouring in. He was alone, so he jumped from the window down in among his guards, but they had all been slaughtered. He was struck down by many bolos almost as soon as he struck the ground. Not satisfied with killing him, the assassins hacked his body and severed the head, upon which they piled paper and sticks of wood, setting them on fire to render the face unrecognizable. The body, however, was identified by Lieutenant Drouillard's detachment, which came down from Basey.

BADLY MUTILATED.
The bodies of Lieutenant Bumpus and the doctor were found upon a bridge leading up to the quarters, over a little stream. The lieutenant had a bolo cut horizontally across the forehead, almost severing the top of the head, and a deep gash down each side of the face, so that when his body was picked up the face was practically severed from the rest of the head. The doctor's body was not so badly mutilated.

Separated from their weapons, most of the rank and file fought like heroes with table knives, stones, clubs and such rude weapons as chance threw in their way. It was a bitter fate that befell those who closed with the Americans before they had received their death wounds. Some of the native dead were buried by their own crew before they fled, but Colonel De Russy ordered 160 more to be thrown into a trench.

FOUGHT DESPERATELY.
A rifle in the hands of the first sergeant of the company rendered a terrible account. The sergeant, who is now in the Tobacan hospital, killed the faithless president who led the attack. With six men he fought his way to the headquarters building to see if they could rescue or pick up a stricken comrade. Despite the mad rushes of the savages that surrounded them, they were able to secure the post colors. Then they cut their way back to the beach, where another little knot of comrades were defending the barots and their wounded companions.

Lieutenant Allison says there are 7,000 troops in Samar. He says there have been a number of filibustering expeditions fitted out in Singapore and Hong Kong, mostly by Germans, which in some cases have succeeded in landing their contraband arms and ammunition, but many captures have been made by the gunboats.

WEDS NEW HAVEN BRIDE.

A very pretty wedding occurred at 8:30 o'clock Tuesday morning at the

residence of Rev. B. Sawyer, pastor of St. Paul M. E. church, when Miss Ella R. Grabner, of New Haven, became the wife of Fred Braun, of this city. The bride was attired in a costume of mauve cloth with decorations of cream satin and applique. Mr. Braun is a well known billmaker of this city, employed at the Bass works.

BRIDEGROOM KILLS HIMSELF.

Logansport, Ind., Nov. 13.—Elmer Montgomery yesterday committed suicide while dressing for the wedding which was to unite him with pretty Edythe Thomas. He had just expressed himself as being the happiest of men and told his aged mother he was going to his room to dress. Suddenly the report of a revolver shot rang out and the sister of Elmer ran to his room to see what caused it. She found her brother lying across the bed with an ugly hole in his temple. Coroner C. D. Smith stated that the same impulse which causes a man to jump from a high place was the cause of young Montgomery's committing suicide.

WIFE WAS ARRESTED HERE

MRS. WARREN MELENDY HELD ON SERIOUS CHARGE.

Believed to Be Accomplice of Operator Melendy, of Van Wert, Who Robbed Mails.

Sergeant Harkenrider left for Van Wert last Wednesday, having in charge Mrs. Warren Melendy, of that city, who was arrested at the south depot last week as she stepped from a westbound Pennsylvania train. The charge against Mrs. Melendy was made by Van Wert officers and was for alleged complicity in a series of petty robberies committed by her husband and receiving stolen property. Her husband, Warren Melendy, was the night telegraph operator for the Pennsylvania railroad at Van Wert and was arrested last week for rifling mail pouches left at the depot in his charge during the night. He was formerly at Bucyrus, where similar thefts had been committed without detection. When Melendy left Bucyrus the thefts there ceased, but had reports began to be received from Van Wert. A postal detective was sent to work up the case and things were pretty well fixed for Melendy, but to cinch the matter, a decoy was fixed up for him and he was found red-handed. He was taken to Toledo last week by a United States marshal and Mrs. Melendy came to Fort Wayne, ostensibly to visit relatives and friends. The Van Wert officers telephoned instructions to Superintendent Gorsline and Mrs. Melendy was picked up as she landed. Her baggage was taken to the police station, where it was examined. A lot of fine table linen, bolos of velvet, fine silks, some laces, fur boas, jewelry, meerschaum pipes and other stuff, all unused and in nearly all cases bearing the price tags and store numbers, were found. She denied that she knew the stuff had been stolen, declaring that her husband had given it to her from time to time, saying the goods were presents given him by traveling men whom he had favored at the depot. It was proposed to send an officer after her from Van Wert, but Mrs. Melendy said she would not go with a Van Wert officer without requisition papers, although she agreed to accompany any Fort Wayne officer without giving any trouble. Mrs. Melendy formerly lived in this city, where she was known as Vernie Kellogg. Ed Hunt, a former Pennsylvania train dispatcher, was her intimate friend, and Charles Huesner, now doing time in the penitentiary, several years ago attributed his downfall to his inability to procure money by legitimate means to supply her demands upon him. Her husband, Melendy, confessed his crime to the United States marshal on his way to Toledo, but exonerated his wife, who, nevertheless, is being held at Van Wert for further investigation.

TORE THE LIGAMENTS.

Miss Phoebe Rumrill, residing at 43 Wells street, met with a painful accident at the Merit Manufacturing company's store, on Calhoun street, last week. Miss Rumrill was riding on the freight elevator and in some manner her left foot was caught between the elevator platform and the floor. Her shoe was torn off and the foot was doubled forward in such a manner that it could not be put back in place. The young lady was taken to the offices of Dr. McOscar, and an X-ray examination was made. It was found that no bones were broken, but the ligaments of the foot were badly torn. The injury was dressed and Miss Rumrill was removed to her home. Had not the elevator been stopped instantly, the foot would have been torn off.

Mothers, be sure and use Mrs. Winslow's Soothing Syrup for your children's cutting teeth. It is the best remedy of all. my8cod&w

DOUBLE MYSTERY

TWO WOMEN MURDERED NEAR EVANSVILLE.

WERE FOUND MILES APART

EACH VICTIM STRANGLED BY MURDERER.

NO CLUE TO THE MYSTERY

ONE PERSON THOUGHT TO BE GUILTY OF BOTH CRIMES.

Evansville, Ind., Nov. 13.—The police are hard at work in an endeavor to gain some information as to the deaths of the two women whose bodies, miles apart, were found near here yesterday, one in the morning and the other last evening. Both had been strangled and each body was found lying in a ditch by the roadside. These facts lead the police to believe that both murders were committed by the same person. The body of Mrs. Georgia Bailey, a widow, was found near the public highway a mile from the city. There were finger marks on her throat and her neck was broken. Presumably she had been choked to death while in a buggy and in falling out her neck had been broken. In another direction, a mile from the city, the body of Miss Lenareuter was found. Deep finger marks were also visible on her throat. What possible motive existed for either crime is not explainable, as neither woman was known to have an enemy and nothing is known to link the two of them in any affair likely to furnish an excuse for one man to attack both. The similarities of these two murders to two others in this city during the last three years forms another strange incident of the case.

In 1898 Mrs. Mary Stork went buggy riding with a stranger. The next morning her dead body was found in a ditch. The man who took her life was never discovered.

In April, the following year, Miss Nora Kifer, of Elberfeld, Ind., while visiting her parents, disappeared. Her body was found weighted down in a creek the following month. Joseph D. Keith, a wealthy farmer, is under sentence to be hanged next Friday for the crime.

FOUND AT NIGHT.

Evansville, Ind., Nov. 13.—After the excitement caused by yesterday morning's discovery that a murder had been committed near town during Monday night, Evansville was hardly prepared for the discovery of another and similar crime last night. As in the first case, the victim was a woman, and each body was found in a ditch beside a road. Late last evening some children passing along a public highway a mile from town discovered a woman's body in a ditch. The coroner was summoned and had the victim removed. The woman was identified as Miss Lena Renner, of Jasper, Ind. She was with John Kifer, a railroad man, Monday night. The latter was arrested last night and locked up, but on being closely questioned he told such a straightforward story that he was later released. Kifer had the girl's pocketbook in his possession and returned it where the girl was staying, and this led to his arrest. He claimed she had given it to him to carry and he had forgotten to return it.

A post mortem examination was held and the result was that evidence was developed to show that the woman had been strangled to death. This bore out the theory of murder advanced earlier in the evening, when an examination was made of the spot where the body was found. It showed that a desperate struggle had taken place after rain had begun to fall.

The entire police force is at work on the case, but no clues have developed.

THE MORNING'S MYSTERY.

Evansville, Ind., Nov. 13.—A murder mystery was brought to light yesterday morning by the finding of the body of Mrs. Georgia Bailey on the First avenue road about a half mile from the city limits. C. F. Schlage, a farmer, was driving into the city, when he discovered the body of the woman lying in a ditch on the side of the road. The woman was lying on her face and he saw at once that she was dead. After the coroner had made an examination of the body and the surroundings the remains of the woman were taken to the morgue, where it was identified. Mrs. Bailey left her home early Monday evening and the last seen of her alive was at the corner of Main and Fifth streets, between 7:30 and 8 o'clock that evening. The officers entertain no doubt that it was a case of murder. The body was badly bruised and the neck was broken. Near the ditch in the roadside were the tracks of the

wheels of a rubber-tired buggy, and it is thought that it was the vehicle in which she was taken from the city. On the opposite side of the road from which the body was discovered was the woman's hat and umbrella.

CAPTURED A HORNED OWL.

While out hunting near Roanoke last week Messrs. A. L. Randall, John Copper and Fay Randall succeeded in capturing a large horned owl, after an exciting chase. The bird was wounded in the wing and was unable to fly any distance, but led its pursuers a merry chase through the woods before it was caught. The bird made a hunking fight for its liberty, but a plucky coat was thrown over its head and it was brought to the city in triumph. The bird is a very handsome one and is one of the largest of its kind ever seen in the city. Mr. Randall had its wing dressed and the bird occupies a comfortable perch in the Randall bicycle store.

COL. R. M. JOHNSON DEAD

WELL KNOWN SOLDIER AND LAWYER EXPIRES.

Elkhart County Democrat Served With Distinction During the Civil War.

Goshen, Ind., Nov. 13.—Col. R. M. Johnson, well known throughout Indiana as a lawyer, soldier and democrat, died yesterday afternoon in his home at Goshen after a long illness from dropsy. His prominence in democratic circles dates from his youth. His first vote was cast for Stephen A. Douglas and he has always remained steadfast to democratic principles. Col. Johnson was born in Pennsylvania and at an early age came to Elkhart county.

When the war broke out he organized a company, which later became company D of the now famous One Hundredth regiment. In action Col. Johnson displayed great personal courage and bravery. After the war he returned to Goshen and formed a law partnership with Capt. A. Blake. He graduated from the University of Michigan in 1858 and afterward studied law with the Hon. Robert Lowery, of Fort Wayne.

LENTZ INVOLVED IN SCANDAL.

Columbus, Ohio, Nov. 13.—The discovery was made yesterday afternoon, upon examination of records of the state insurance department, that ex-Congressman John J. Lentz also signed the falsified report regarding the condition of the American Insurance union on account of which John M. Mulford, former secretary, is being held on a charge of perjury. Lentz is president of the company, and, therefore, the principal prosecutor of Mulford. Mulford's friends declare that if he is to be sent to the penitentiary for perjury Lentz shall also be prosecuted. The falsified report is signed "John J. Lentz, National President," and "John M. Mulford, National Secretary." On its face the report shows that it was sworn to by Lentz and Mulford before Harry P. Junk, a notary public, Feb. 18, 1901.

Mr. Lentz last night declared that while he had signed the report he had not sworn to it. He says that he placed confidence in Mulford's statement that the report was correct.

IS GOING WEST.

Leander Meyers, until quite lately superintendent of Robison park and manager of the park farm, left last week with his family for Spokane, Wash., where he will permanently reside. Mr. Meyers since a lad has been employed by the Fort Wayne street car company. He worked as a driver on the line in 1877, when Christian Grafmiller was its superintendent, and has been in the employ of the company ever since excepting a few years, during which time he was the working manager of the Centlivre line on Spy Run avenue. When the Fort Wayne company, then owned by the Robisons, absorbed the Centlivre line the Messrs. Centlivre were loth to part with Mr. Meyers' services and retained him in their employ as driver, track superintendent and general utility man for several years, when, at the solicitation of the late Superintendent McNutt, he re-entered the service of the Fort Wayne system, where he remained until he resigned several weeks ago to go west. He has many friends, who wish him all sorts of success in his new western home.

STUDENT'S THANKSGIVING VACATION.

Special tickets will be sold via the Nickel Plate road to students of colleges, seminaries and universities. For specific information apply to any ticket office of the Nickel Plate road, or C. A. Asterline, T. P. A., Fort Wayne, Ind. or R. J. Hamilton, agent, Fort Wayne Ind. 12-14-21-28-w2t

MAY BUILD LINE

TOLEDO CAPITALISTS LOOK OVER THE GROUND.

HAVE PLENTY OF CAPITAL

WOULD FINANCE HICKSVILLE AND FORT WAYNE LINE.

WANT TO CONNECT WITH IT

LINE WOULD BE EXTENDED TO MARION, IND.

Messrs. J. L. Yost, J. C. Bonner, W. C. Brewer and Milton Taylor, of Toledo, are registered at the Wayne hotel. They came to the city last week and their mission may result in the revival and prosecution of an important interurban railway project that has been dormant for several months.

The gentlemen named all stand high in financial and commercial circles and among themselves could scrape up a few million to keep the wolf from the door until work opens in the spring. They came here for the purpose of looking up the franchise of the Ohio and Indiana Traction company's franchise and to confer with the stockholders and promoters of that line.

In this connection it might be well to state that these gentlemen are not speculators, but legitimate investors and operators; they are the owners of the Toledo and Bryan Air line, of which over ten miles has already been built, but is not in operation. They are not here with any proposition to buy out the Indiana and Ohio company, but to arrange, if possible, terms for a consolidation. They want to continue their line to the Indiana-Ohio state line and glue on to the end of the Indiana and Ohio right of way, consolidate with the Fort Wayne company and build the line through to Marion, Indiana, where it is proposed to connect with the Union Traction company's network of lines through the gas belt and to Indianapolis.

They were closeted with William Kaough, the representative of the Indiana and Ohio company. He says that while no definite conclusions had yet been reached, there is reason to believe that a consolidation will be effected. He is authority for the statement that the gentlemen did not speak of purchase, but wanted a consolidation and agreed to finance the entire Indiana end of the line; they had not written him of their coming but simply slipped into town, made their investigations, found them satisfactory and then sent for him. The Indiana and Ohio's franchise is for a route coming into the city over the Maysville road, through Lakeside and across the bridge on Columbia street and down that street to Harrison; thence to Pearl and along the route of the Southwestern's present franchise to Taylor street, where they diverge, the Indiana and Ohio going down Broadway to the city limits.

Under the franchise as it now stands, the latter company is required to commence work by the first of January, 1902. Mr. Kaough is of the opinion that in case his company is not ready to commence work by that time, there will be no difficulty in getting an extension from the council. His friends, however, argue that taking the present attitude of the council into consideration, it would be unwise to bank much on an extension, and that the safest plan would be to commence work within the limit according to the original conditions of the franchise.

The interest acquired by the Toledo promoters of the Ohio and Indiana Air Line Electric road may mean more than the building of the proposed line from Toledo to Marion. One of the Toledo gentlemen told The Sentinel that Fort Wayne was likely to be brought into connection with several Northern Indiana towns. It is possible that a line to the north will be projected and the gentlemen stated that a line to the northwest to Lake Wawasee and on to connect with the Goshen and South Bend traction line was a promising proposition that would soon be considered.

He indicated that it might ultimately be the purpose to make Fort Wayne the center of all interurban operations of Northeastern Indiana, and thought the city offered exceptional advantages in that regard. The same gentleman, in speaking of the line from Toledo to Fort Wayne, pointed out that it was practically the same mileage as the Wash and that all the way it had country thickly populated and prosperous. This especially the promoters had found to be the case from Hicksville to Fort Wayne.

If agreeable all around, the Indiana and Ohio company will surrender to the Toledo and Bryan company its right of way from Hicksville to the Indiana state line, a distance of two and one-half miles, and

the Toledo company will supply its own right of way from Bryan, the present terminal, to Hicksville. The Toledo company agrees to finance the entire construction, but gives the Fort Wayne organization the privilege of raising additional capital, sufficient to come in on an equal financial basis with the Ohio company.

This latter proposition is not an obligatory condition of the contract for consolidation, but is purely an option. Mr. Kaough volunteered the further information that work would be commenced as soon as the final papers were drawn, and would be prosecuted without interruption until completed. He said he felt no alarm about the status of the franchise through the city, but had confidence that no obstruction would be placed in the way of obtaining an extension of the time limit.

DEATH'S RECORD OF THE DAY

MRS. JAMES DALTON DIES SUD- DENLY FROM DROPSY.

Peter Krantz Succumbs to Typhoid Fever, While Two Children Are Ill—Other Mortuary Matters.

Mrs. Catherine Dalton, wife of James Dalton, residing at the corner of Lindenwood and Orchard avenues, died quite suddenly last Wednesday morning. Mrs. Dalton had been for some time suffering from dropsy, but her death was not regarded as imminent, and the family had torn up preparatory to removing today into a new residence which they had just erected.

About 1 o'clock that morning Mrs. Dalton arose and asked for something to eat, which was given her. Within a short time she began to decline rapidly and two hours later expired. She was 45 years of age and surviving are the husband and six children—Mrs. John Bixler, the Misses Rose, Lizzie and Goldie and William and James Dalton.

KRANTZ.

Peter Krantz, 53 years of age, died Tuesday afternoon at St. Joseph hospital from typhoid fever. Mr. Krantz's home was at 104 East Wayne street, where two of his children are seriously ill—one from meningitis and another from typhoid fever.

Mr. Krantz was a native of Germany, a painter by occupation and located in Fort Wayne about thirty-five years ago. The widow and six children survive.

HELLHAKE.

Information reached here Thursday of the death of Mrs. Hellhake, the aged mother of Rev. H. A. Hellhake, pastor of the Catholic church at Sheldon, which occurred at the pastor's residence at 5 o'clock that morning.

BIERBAUM.

Ernest Bierbaum, residing on the Goshen road five miles northwest of the city, died Wednesday afternoon after an extended illness. Mr. Bierbaum was about 35 years of age and leaves a family.

KYLER.

The infant child of Mr. and Mrs. William Kyler, of Arcola, died Wednesday from exhaustion at the age of 3 days.

BOOKWALTER.

Mrs. John A. Bookwalter, 78 years of age, died last Wednesday morning at her home, 5 Cass street, after an illness of about one week, from catarrhal fever.

Mrs. Bookwalter was a most estimable lady and possessed a wide circle of friends to whom her death will come as a deep personal sorrow. She was born in Pennsylvania, moved in girlhood to Stark county, Ohio, where she was married, and in 1850 came with her husband to make her home in Wabash county, Ind. In 1879 the family removed to this city, where they have since resided.

Mrs. Bookwalter was a devoted member of the Berry street M. E.

What's the secret of happy, vigorous health? Simply keeping the bowels, the stomach, the liver and kidneys strong and active. Burdock Blood Bitters does it.

Diphtheria relieved in twenty minutes. Almost miraculous. Dr. Thomas' Electric Oil. At any drug store.

"Little colds" neglected—thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds—cures big colds, too, down to the very verge of consumption.

Years of suffering relieved in a night. Itching piles yield at once to the curative properties of Doan's Ointment. Never fails. At any drug store, 50 cents.

church. Surviving are the husband and five children—Will Bookwalter, who is a United States express messenger between Kansas City and Fort Worth, Texas; Mrs. Hout Davis and Mrs. Fletcher Ruddell, of Kokomo, and Mrs. James Argersbright and Mrs. Cliff Ellenwood, of this city.

IT WAS NOT THIS MR. PULTZ

WHO ELOPED WITH A FORT WAYNE YOUNG LADY.

New York Newspaper Makes an Effort to Locate Man Who Accompanied Miss Roehrs Eastward.

New York newspapers have printed accounts of the elopement of Miss Ana Roehrs, of this city, with a young man signing his name "John Pultz, Jr., of New York city." In this connection the New York Sun said: "John Leggett Pultz, a young Harvard man, son of John T. Pultz, of 539 Madison avenue, is out west somewhere and is expected back in a few days."

IT WAS NOT THIS ONE.

A day later the family entered a denial and the Sun printed the following: This statement was made at the house of John T. Pultz, of 529 Madison avenue yesterday: "The statement published in The Sun today associating the name of John Leggett Pultz, the son of John T. Pultz, of 529 Madison avenue, with the intended marriage of a man calling himself John Pultz, Jr., at Fort Wayne, Ind., appears to have done Mr. Pultz, of this city, an injustice. John Leggett Pultz is a student at Harvard college and has not been west at all recently."

PLAN GREAT ELECTRIC LINE.

Indianapolis, Ind., Nov. 13.—Plans have been made for the building of an electric line from Indianapolis to Lafayette by way of Thorntown, Lebanon, Colfax, Stockwell and Dayton. About fifty residents of these places yesterday incorporated the Lafayette and Indianapolis Rapid railway, with a capital of \$250,000. The road will be eventually extended to Northern Indiana points and to Chicago. The company proposes to ask for subsidies in every township along the route, and tomorrow will petition the commissioners of Tippecanoe county for elections to vote a special tax of 2 cents in aid of the enterprise. The line is to parallel the Chicago division of the Big Four route to Lafayette, where it will be diverted to Dayton, making the line about one mile longer than the Big Four.

BEST FOR THE BOWELS

If you haven't a regular, healthy movement of the bowels every day, you're ill or will be. Keep your bowels open, and be well. Force, in the shape of violent physic or pill poison, is dangerous. The smoothest, easiest, most perfect way of keeping the bowels clear and clean is to take

EAT 'EM LIKE CANDY
Pleasant, Palatable, Potent, Taste Good, Do Good, Never Sicken, Weaken or Grip; 10, 25 and 50 cents per box. Write for free sample, and booklet on health. Address 423 Sterling Remedy Company, Chicago or New York.

Have your suits made to order.

They fit better. They wear better.

We make them for \$15 \$17, \$20 and \$25. Fine Black Worsted Suit for \$18. Pants for \$5.00 to \$10.

You can have them made and not pay more than for ready made suits.

39 East Columbia Street

KEITH IS HANGED

EXECUTION TAKES PLACE AT
MICHIGAN CITY.

HE CONFESSED HIS GUILT

DECLARED HIMSELF SLAYER
OF NORA KIFER.

DID IT FOR WIFE'S SAKE

MURDERER MEETS DEATH IN
STOLID MOOD.

Michigan City, Ind., Nov. 15.—Singing, "I'm Going Home to Die No More," Joseph Keith, who late last night confessed he killed Nora Kifer, near Eberfeld, Warrick county, April 30, 1900, shot to his death through the trap of the scaffold in the death chamber of the Michigan City penitentiary just after midnight.

At 12:11 o'clock this morning Keith was led from his cell to the scaffold. One minute later the trap was sprung, breaking his neck, and seven and one-half minutes later the physicians pronounced the murderer had died a painless death.

Chaplain Sanders had been in the cell with Keith since 8 o'clock last evening and the doomed man unburdened himself of the load of guilt on his mind by confessing his crime. He spent his last hours on earth by praying and singing psalms.

During the day Keith had manifested much restlessness and the prison officials believed he was soon to make known the details of the horrible murder of Nora Kifer. The prisoner was apparently buoyed up with the hope that Governor Durbin would commute his sentence to life imprisonment.

Fifteen minutes before midnight officers and guards began active preparations for the execution. Warden Reid gave the order and the men who were to escort the condemned man to the gallows stood ready to carry out the penalty imposed by the law. The night captain, with set and immovable countenance, silently passed through the heavily ironed cage in the direction of the murderer's cell. Hurriedly the officers received their whispered instructions and silently followed. In his cell Keith was being attired in the sombre suit of black he was to wear in his grave.

The storm that had been blowing all day receded to a bleak, chilly wind that swept over Lake Michigan and whistled around the great stone turrets of the prison as the clock struck the hour of midnight, and Keith was led from his cell to the death chamber, where he mounted the scaffold to die. It was a night and hour typical of death and the group of newspaper correspondents gathered in the warden's office because by his interpretation of the law, based on an opinion by Attorney General Taylor, they were denied admission to the death chamber, solemnly awaited for his details of the gruesome story.

At 12:18 Chaplain Sanders, with saddened men, walked hurriedly down the corridor through the cage and paced upstairs through the lobby. The waiting group knew that Joseph Keith had paid with his life the penalty for killing Nora Kifer.

Keith last night gave out a long and detailed confession of the murder. It was addressed to his wife and stated that he killed the domestic because she threatened his domestic happiness. In endearing terms he declared that the crime was committed for his wife's sake and that he was ready to meet his death.

Keith's remarkable nerve and splendid physical condition enabled him to bear up to the last and he walked to the scaffold with as firm a step as any of the officers who escorted him on the march to death. Keith was apparently cheerful, even happy, during the night and willingly assisted the officers in dressing himself for the gallows. The doomed murderer said he knew he had committed an awful crime, but said he believed he would be forgiven in heaven. Keith spent the morning of his last day on earth waiting for the message that might save his neck. After his doom was sealed he spent the rest of the day in preparing his confession.

KEITH'S CRIME.

Keith was a farmer, 35 years old, of some local prominence in Warrick county, where he lived with his wife and children. He began a life with Nora Kifer, the 18-year-old daughter of a neighboring farmer, who annoyed him with demands for money and kept him in fear by discussing their relations more or less publicly. On Monday, April 2, 1900, she received a note sent by Keith through his son Jesse, asking her to meet him at a bridge not far distant from Keith's farm.

The young woman was seen on the bridge that night, pacing restlessly up and down. About 11 o'clock a witness named Hedges saw Keith go-

ing home by a road which led directly from the bridge, and an old well in which evidence was afterward found that the body of the girl had lain for some time. When accosted by Hedges, Keith acted strangely, neither replying nor looking up. Miss Kifer was never seen again in life after that night.

One week later Mrs. Kifer received a note purporting to come from her daughter, stating that she was in Evansville and preparing to start for Chicago on a trip with a friend, to be gone three months, and possibly six. The handwriting and the address on the envelope were afterward shown to be Keith's. From that time Keith talked freely to nearly every one he met, saying the Kifers were getting letters regularly from Nora, that she was leading a bad life in Evansville, Paducah or St. Louis, and that if he told lies about the people in Evansville, as she had about him, she would be found in the creek some day with a stone around her neck.

Finally Nora Kifer's father told Keith openly that no word had been received from his daughter, that the letter purporting to have come from her was written by Keith and that he (Kifer) proposed to search for and find the girl. Shortly afterward Keith was seen in his buggy driving toward Evansville along the road that led straight from the canal bridge and the old well referred to.

FINDING OF THE BODY.

Early the next morning the body of Nora Kifer was found with a stone tied around the neck, half buried in the waters of Pigeon creek, about two miles from Evansville and near the road leading to the canal bridge and the old well. The body was in an advanced stage of decomposition, but identification was possible through the clothing and a birthmark and other physical characteristics.

Keith was arrested April 25, and on his person were found a pair of cast-iron knuckles, presumably employed in crushing the skull of the girl. He told many conflicting stories. He said the girl had given so much trouble to him that he wanted to get rid of her, and that the note sent to her by him was to get her to come to the bridge in order that a peddler he had engaged for that purpose might take her away with him to Chicago or elsewhere. When a peddler answering his description was brought before Keith the latter at first said he was the man; then in response to the fellow's pitiful appeal not to condemn an innocent man he declared he had wronged the peddler.

Finally, when told by the police that it was no use to try to deceive them further, the prisoner replied: "You need not look for outsiders any longer. If you will wait till tomorrow morning, after I have seen my wife, I will tell you who did it, and where it was done and all about it."

FUTURE FIGHT FOR LIFE.

The next morning, after having consulted lawyers, Keith refused to talk further. He was visited in the jail by an aunt, who said to him: "If you are guilty, Joe, own to it like a man and get mercy of the court, but if you are not guilty, say so like a man." Keith replied: "She broke my peace at home and was getting all my money, and something had to be done." He would go no further.

While in jail Keith tried in vain to secure an alibi with the assistance of fellow prisoners and also outsiders by letter. He also endeavored to get false information of Nora Kifer's life and whereabouts after the fatal night of April 3, 1900.

The trial was held at Princeton, in Gibson county, where the case was taken on change of venue, and occupied two weeks, arousing widespread interest. The jury reached a verdict of murder in the first degree on Jan. 11, 1901. Keith's motion for a new trial was filed Jan. 31 and overruled on Feb. 9, on which day the judge sentenced him to be hanged May 24. His attorneys carried the case to the supreme court, where the finding of the lower court was sustained and Keith was sentenced to die yesterday.

A SMALL BURGLARY.

Burglars last week by breaking a glass in the door of the meat market on Woodlawn avenue owned by John Suelzer effected an entrance. A lot of cheese, some sausage, lard and other articles were stolen. The matter was not reported until this afternoon and the officers are investigating, but have not yet obtained any clue.

LIGHTY'S CELERY NERVE COMPOUND

for all nervous diseases, neuralgia, rheumatism, nervous debility, paralysis, biliousness, dyspepsia, costiveness, piles, liver complaint, kidney troubles and female complaints. It goes to the seat of the disease and cures thoroughly and speedily. Sold by Dreier & Bro., corner Calhoun and Columbia streets.

Charles A. Ferckel and Miss Mamie Hochstrasser were quietly married by Rev. Philip Ruhl, pastor of Salem Reformed church, at his home, last Thursday.

NEW NOVEL BY JUDGE LOUITT

"A MAID OF THE WILDWOOD"
SOON TO APPEAR.

Historical Romance by Fort Wayne
Author—Gypsy Queen Poses in
Costume as Heroine.

Perhaps few acquaintances of Judge George W. Louttit, of this city, are aware that he has been devoting any of his talent to literary work, but such is a fact, and within the next few weeks will appear a new historical romance from his pen.

The work is now in the press of the Archer Printing company, and is entitled "A Maid of the Wildwood." The story has to do with the stirring times of the war of 1812 and the years immediately following it, and the scene of the romance is placed in Ohio, Indiana, Michigan and Washington, D. C.

The work will contain about 350 pages, profusely illustrated, and there is a plentiful sprinkling of local history interwoven in the plot, the author having made use of a number of Indian characters prominent in that section during those days, and it is said the story is most entertainingly told. Judge Louttit has written two other novels, but this is the first of his more elaborate literary efforts to be published. The heroine of the story is Naomi, an Indian maiden, daughter of a Shawnee chief. Friday Miss Rose Magill, of Denver, Col., a member of Chief Stanley's party of gypsies, posed in Indian costume at the Miner studio for the illustrations of the heroine.

TO PROSECUTE PHYSICIAN

CITY HEALTH OFFICER MAC-
BETH WILL ACT.

Two cases of diphtheria were reported at the city hall Thursday afternoon from No. 59 Huestis avenue, the victims being Mrs. Roy Seymour and daughter, and the cases are of a week's standing. The health department ordered quarantine cards to be nailed on the house, which order was complied with over the protest of Mr. Seymour, who is employed at the county power house. Health Commissioner Macbeth investigated the matter and as a result ordered the prosecuting attorney to prepare affidavits against Dr. Nieschlag for failing to report the cases as required by law. Dr. Macbeth says there could scarcely be any mistake in the diagnosis, as the cases are typical ones.

FALL PLOWING CONTEST.

The annual fall plowing contest of the Allen county plowing club was held Thursday afternoon at Brookside, John Bass' farm, and a large number of farmers from all parts of the county were in attendance. Prof. W. C. Latta, of Purdue university, acted as judge, and the contests resulted as follows:

Sod plowing—first, George Gillie; second, John Gillie; third, Peter Gillie; fourth, Henry Thier; fifth, Peter Rae.

General purpose plowing—first, George Thumm, winning the gold medal; second, William Eisberg; third, David Miller; fourth, Isaac Luther.

Boys' class—first, Edward Goeglein; second, James Gillie, Jr.; third, Walter Kruse. None of the contestants were over fourteen years old.

Riding plow—first, William Campbell; second, Al Boy; third, O. R. Sprunger; fourth, William Houser.

BAALS-KLETT.

Thursday evening at the residence of Rev. C. F. Meyer, pastor of Redeemer Lutheran church, occurred the marriage of Miss Clara Baals and William Klett. The bride wore a very becoming suit of brown Pan-American with large picture hat to match. The bride is a popular young lady and has hosts of friends. The groom is a member of Klett & Sons, lumber dealers. Mr. and Mrs. Klett will be at home for the present with the bride's parents at 94 West Main street.

KRUGER FOR PARLIAMENT.

London, Nov. 15.—The Evening News today says that the Irish nationalists have offered Mr. Kruger a safe parliamentary seat in Ireland. They hold that, in consequence of Lord Kitchener's proclamation, Mr. Kruger is de facto a British subject.

DISCHARGE IS GRANTED.

Judge Baker has granted the discharge in bankruptcy petitioned for in the case of Elias L. Lathrop, of this city. The matter has been held up for some time by litigation.

ROMANCE BUBBLE BURST.

A marriage license was issued to John Pulz, Jr., and Miss Anna Roehrs at Chicago Thursday and the

plain, everyday announcement in the Chicago papers puts an end to the pretty little romance which was supposed to have culminated in a wedding in New York, followed by a bridal tour through Europe. The parents of the bride received a telegram on Tuesday stating that the young people had been married on that day and would sail for Europe today.

LEAVES NOVEMBER 28.

Congressman Robinson continues to improve rapidly and is now planning to leave November 28 for Washington to resume his seat at the opening of congress. Mr. Robinson states that his physicians have not yet released him to his friends, but that he hopes to be able before leaving for Washington to hold an informal reception so that those who desire to call may do so.

HE WAS A VETERAN ENGINEER

HENRY K. STOCKING DIES AFTER
LONG ILLNESS.

Helped to Build the Wabash Railroad
—Other Deaths and Fun-
eral Notices.

Henry King Stocking, a veteran railroad engineer, died at 11 o'clock Thursday night at the home of his daughter, Mrs. Brookfield Gard, 144 Columbia avenue, after an illness of more than ten months. Mr. Stocking was 83 years of age and has long been a sufferer from nervous and kidney complications. Since the final attack on last Christmas he had been almost continuously confined to his bed.

Mr. Stocking was a native of Massachusetts, born in June, 1818, and began his railroad career at an early age. Removing westward he worked for a time at Niagara Falls and was in charge of the engine hauling the first train of cars over the old suspension bridge at the falls. Later he entered the service of the Wabash railroad during the period of its construction and was one of the first engineers employed by that line.

Since 1855 Mr. Stocking has been a resident of Fort Wayne and for many years ran an engine on the Wabash between Toledo and this city. Nearly twenty years ago he was compelled by advancing age to retire from the cab, and then for a time held a position in the Wabash yards here. During the past fifteen years he has lived a retired life. He was a member of the Brotherhood of Locomotive Engineers and was widely known among the older railroad men.

Mr. Stocking was twice married, his second wife and three children surviving him. The children are John Stocking, now in the Klondyke region; Mrs. Brookfield Gard and Miss Alice Stocking, of this city. Mr. Stocking was an estimable citizen and an attendant, while his health permitted, of the Wayne street M. E. church.

ALTER.

Mrs. Julia Alter, widow of the late George Alter, died Thursday from tuberculosis at her home, 18 Buchanan street, at the age of 44 years. Her husband died about one year ago, and since July Mrs. Alter's health has been failing, though she was confined to her bed but four weeks.

The surviving children are Miss Anna, Miss Julia and George J. Alter. Philip Graf, the grocer, is a brother of the deceased. Mrs. Alter was an estimable lady, a member of the Resary society, the Altar society and the Sacred Heart league of St. Peter's church.

DIEBER.

Funeral services of Jonathan Dieber, for fifty years a resident of Gar Creek, were held last Saturday at Union church, conducted by Rev. Sumner, of Woodburn.

Mr. Dieber's death occurred November 12, after an illness of several weeks, though he had recently been much improved in health, and his death was unexpected. He was 66 years of age, and a most estimable citizen with a wide circle of friends, to whom his death will come as a deep personal loss. He was born in Mahoning county, Ohio, and moved to this county when a boy with his parents fifty years ago.

During the half century which followed Mr. Dieber was a prominent factor in transforming the wilderness into beautiful and fertile farms, and had acquired a competence. Politically he was a republican, was prominent in his party affairs, and for many years was chairman of his township.

Five children survive—Mrs. John Rorick, Harvey, Allen and Eli Dieber, who reside on farms in the vicinity of the old home, and William Dieber, who is foreman of the Fort Wayne Lumber company, on Broadway. There are six grandchildren and four sisters and a brother. These are Mrs. Harriett Rorick, Mrs. Hattie Mellinger and Mrs. Ma-

linda Burgel, of Fort Wayne, Mrs. Catherine Conrad, of Rochester, Pa., and William Dieber, of Abbit township.

MONTGOMERY.

Ruth Anna, the little daughter of Mr. and Mrs. George Montgomery, of 54 Wabash avenue, died Friday afternoon from bronchitis.

GREEN.

Anna Augusta Green, aged 14 years, 1 month and 8 days, died Friday at the Indiana School for Feeble-Minded Youth from epilepsy.

A DEFALCATION OF \$60,000

FOUND IN ACCOUNTS OF THE
WILLIAMSBURG BANK.

Brooklyn Suburban Institution is
Robbed by Two Employees—One
is Dead, One Confesses.

New York, Nov. 16.—Defalcations amounting, it is said, to \$60,000 have been discovered in the accounts of the Williamsburg Savings bank, an institution conducted at Williamsburg, in the suburbs of Brooklyn. Gen. J. V. Meserole, the president of the bank, is authority for the statement that the parties implicated in the affair are Harry E. Corbett, a former paying teller of the bank, who died November 2, and George Zolleinoff, a receiving teller, who, it is alleged gave the first information leading to the discovery. The bank is fully protected, it is said, by the bonds of both Corbett and Zolleinoff. Harry E. Corbett had been in the employ of the bank for eighteen years. He was looked upon as a man of exemplary habits and not the slightest suspicion attached to him up to the time of his death.

According to General Meserole, on Friday of last week George Zolleinoff, one of the receiving tellers, went to Cashier William Burns and confessed to him that he (Zolleinoff) and Corbett had for the past two or three years taken funds from the institution for the purpose of stock gambling, and that so far as he could estimate the amount that had been lost was between \$50,000 and \$60,000. Cashier Burns had Zolleinoff repeat his confession to President Meserole and a meeting of the trustees of the bank followed. The examination was not concluded that day, nor is it yet concluded that irregularities enough were found to show that Zolleinoff had not exaggerated the extent of the defalcations.

LOCAL LINES.

Born, to Mr. and Mrs. Ernest Lotz, of Bridge street—a daughter.

The marriage of Albert W. F. Manth and Miss Carrie E. Miller will be solemnized at 6 o'clock p. m. on Thanksgiving day at Zion's Lutheran church and the officiating clergyman will be Rev. Luehr. Mr. Manth is the well known prescription clerk at Pellens & Polster's drug store and Miss Miller is the charming and accomplished daughter of Mr. and Mrs. F. J. Miller, of 327 Lafayette street. The attendants will be Louis Manth and Otto Scheumann, Miss Emma List and Miss Sophie Klepper. A reception at the home of the bride will follow the ceremony.

Ed Wilcox, a conductor on the In-

A Miraculous Feat.

"It seemed that nothing short of a miracle could save my little daughter from an untimely death," says City Marshall A. H. Malcom, of Cherokee, Kan. "When two years old she was taken with stomach and bowel trouble and despite the efforts of the best physicians we could procure, she grew gradually worse and was pronounced incurable. A friend advised

Dr. Miles' Nervine

and after giving it a few days she began to improve and finally fully recovered. She is now past five years of age and the very picture of health."

Sold by all Druggists.
Dr. Miles Medical Co., Elkhart, Ind.

IRRITABLE WOMEN

Should be Pitied — Not Blamed —
Men Don't Understand How They
Suffer When They Cry, "Oh, Don't
Speak to Me."

All manner of extravagant expressions are possible when a woman's nerves are overwrought. The spasm at the top of the wind pipe or bronchial tubes, "ball rising in the throat," violent beating of the heart, laughing and crying by turns, muscular spasms (throwing the arms about), frightened by the most insignificant occurrences—are all symptoms of a hysterical condition and serious derangement of the female organs.

Any female complaint may produce hysterics, which must be regarded as a symptom only. The cause, however, yields quickly to Lydia E. Pinkham's Vegetable Compound, which acts at once upon the organs afflicted and the nerve centres, dispelling effectually all those distressing symptoms.

Mrs. Lewis Says: "I Feel Like a New Person, Physically and Mentally."

"DEAR MRS. PINKHAM:—I wish to speak a good word for Lydia E. Pinkham's Vegetable Compound. For years I had ovarian trouble and suffered everything from nervousness, severe headache, and pain in back and abdomen. I had consulted different physicians, but decided to try your medicine, and I soon found it was giving me much relief. I continued its use and now am feeling like a new person, physically and mentally, and am glad to add one more testimonial to the value of your remedy."—Mrs. M. H. LEWIS, 2108 Valentine Ave., Tremont, New York, N.Y.

Writing to Mrs. Pinkham is the quickest and surest way to get the right advice about all female troubles. Her address is Lynn, Mass. She advises women free. Following is an instance:

Mrs. Haven's First Letter to Mrs. Pinkham.

"DEAR MRS. PINKHAM:—I would like your advice in regard to my troubles. I suffer every month at time of menstruation, and flow so much, and for so long that I become very weak, also get very dizzy. I am troubled with a discharge before and after menses, have pains in ovaries, so bad sometimes that I can hardly get around, have sore feeling in lower part of bowels, pain in back, bearing-down feeling, a desire to pass urine frequently, with pains in passing it; have leucorrhoea, headache, fainting spells, and sometimes have hysteria. My blood is not in good condition. Hoping to hear from you, I am, Mrs. EMMA HAVEN, 2508 South Ave., Council Bluffs, Iowa." (June 3, 1899.)

Mrs. Haven's Second Letter.

"DEAR MRS. PINKHAM:—I wish to express my gratitude for what you have done for me. I suffered for four years with womb troubles. Every month I flowed very badly. I got so bad that I could hardly do my work. Was obliged to sit or lie down most of the time. I doctored for a long time, but obtained no relief. I began using your remedies—Lydia E. Pinkham's Vegetable Compound, Blood Purifier, Sensitive Wash and Liver Pills—and now feel like a new woman."—Mrs. EMMA HAVEN, 2508 South Ave., Council Bluffs, Iowa. (Feb. 1, 1900.)

\$5000 REWARD.—We have deposited with the National City Bank of Lynn, \$5000, which will be paid to any person who can find and return to us the special permission. Lydia E. Pinkham Medicine Co., Lynn, Mass.

diana, Illinois and Iowa road, was instantly killed by falling from his cab as his train was passing through Hammond, Ind., Thursday morning. This was the sad news that was brought here Thursday evening by the Pennsylvania train, to whom the deceased was well known. Mr. Wilcox was employed on the Grand Rapids and Indiana road as a baggage-man several years and then resided in this city. He lost his position during the strike of the American Railway Union in 1894 and disappeared from this city. When next heard from he was breaking on the Third I's and was soon promoted to a conductorship, in which capacity he was employed when he met his fate. His intimate friends and associates here knew him best as "Blacky" Wilcox. When he left Fort Wayne he was unmarried. It is not known here whether he married since or not.

The water famine in Edinburgh has become so serious that householders have been recommended to dispense with baths in their houses and local authorities to discontinue public baths.

STEADY-STRENGTH-SLEEP.

THESE ARE THREE WORDS TO

CONJURE UP—THEY ARE

CLOSELY CONNECTED WITH

DR. A. W. CHASE'S NERVE

PILLS, SO SAYS A FORT WAYNE

CITIZEN.

Steady nerves, refreshing sleep, renewed strength—these are a trio that practically control the enjoyment of life—they are the keystone of the arch perfecting manhood and womanhood to the fullness of life.

Mrs. B. McKee, of 15. 71 Third street, Fort Wayne, Ind., says: "Dr. A. W. Chase's Nerve Pills I got at Meyer Bros. & Co.'s drug store, 113. 14 Calhoun street, gave me restful sleep, quickened and steadied my nerves and gave me good, general strength—three things I lacked badly. The results obtained were so good I feel I should recommend them to others."

Dr. A. W. Chase's Nerve Pills are sold at 50c a box at dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package. The water famine in Edinburgh has become so serious that householders have been recommended to dispense with baths in their houses and local authorities to discontinue public baths.

SUNDAY SCHOOL LESSON

WARNINGS FROM ASAIAH, A WORLD'S TEMPERANCE LESSON—SAME ADVICE GIVEN IN ALL AGES.

(John Lindsay Withrow, D. D., Park Street Church, Boston, in the Chicago Record-Herald.)
Lesson for Sunday, Nov. 24, 1901.
Topic—"World's Temperance Lesson."

Text—Isaiah v., 8-20.

This is a pertinent title, "World's Temperance Lesson." For whatever else the world needs, we know of nothing more pressing than its need of knowledge and admonition concerning the dangerous and deadly power of intoxicants.

Intemperance is an old evil; as old as the disgraceful exhibition of it in Noah. And from his fall until the present wherever man has been found there has been discovered some intoxicating stuff with which he has worse than bestialized himself.

The red Indians of the American forest, the cannibal inhabitants of the South Sea islands, the black tribes of interior Africa, all had beverages to get drunk on before they had decent clothes to cover their hideous nakedness or comfortable dwelling places to call homes. And the disgusting, destroying effects of intoxicating drinks have never differed in ages or in the inhabitants of different countries.

Intoxicants make all who freely indulge in them either fends or fools, or both. Read scenes three of act two of "Othello," and Shakespeare will show the abomination of intemperance in true colors.

Hear from Cassio, whom drink has brought to disgrace. He calls himself "so drunken and so indiscreet an officer."

"Drunk? And speak parrot, and squabble? Swaggar? Swear? And discourse fustian with one's own shadow?"

"Oh, thou invisible spirit of wine, if thou hast no name to be known by let us call thee—devil!"

"Oh that men should put an enemy in their mouths to steal away their brains."

INTEMPERANCE PREVAILS.

Nevertheless, intemperance still prevails after all the appalling effects of it. And it is claimed, with probably good reason, that the liquor traffic exercises a more arrogant influence now than at any time in the world's history. The probability of this rests upon the fact that in the greatest nations of the earth at present the liquor power has more control in politics than ever it has had.

See how in our own country each of the great political parties in campaigns conciliate the liquor interest. Watch the way congress relieves the rum interest of taxes. Listen to the hero of the new Hebrides islands, Dr. John Paton whose work has been transforming the cannibals into Christians, and he will tell you that all the other great Christian nations have prohibited the export of liquors and firearms to those islands, while the United States has not and will not while the rum seller has the cinch he now has on our government.

Of the twenty-two verses set apart as our lesson, only the eleventh and sixteenth inclusive are directly devoted to the ravages of strong drink. But in these the prophet of the Lord speaks without sparing. He begins with a "Woe." And we observe that the ruinous evils of indulgence in strong drink then, 600 years before the birth of Christ, were just the same as they are now.

Says the prophet (lesson verse 2): "Woe unto them that rise up early in the morning that they may follow strong drink, that continue until night, till wine inflame them." As in our day, so in the time of Isaiah—one who rises early in the morning to drink is the most sure to drink all day. We have heard it said that once a tippler begins to take a drink before breakfast, he is doomed to be a drunkard.

At the first (lesson verse 12) the wine cup and whisky make high hilarity at the feast. As when our novelists describe the drinking habits of their heroes they most always make scenes so gay that many a weak person reading their tempting pages may be led to ruin. The true treatment of intoxicants and intemperance is to curse them with a curse from first to last. There is nothing excusable in their abominable operations. Intoxicants kill human conscience more rapidly than anything else—do they not? The prophet (v. 12) declares the drinker "regards not the work of the Lord."

The moderate drinker is forerunner to the toper, and the toper is a wicked man! Of all liars the inebriate is the most cunning and colossal liar. Since I began to write this lesson I had a call, not unlike numberless others in the past. He was a great, broad built man of probably 40 years. He was fairly well dressed, but evidently half drunk. "Will you pity an unfortunate man?" Yes, I have pity for all unfortunate men. "Well, I have a family, and my three children, I

left them this morning crying for bread."

Where did you get the money to buy rum and get drunk?
"No difference about that; I am an unfortunate and my children are hungry."

SENSE OF TRUTH LOST.

Then he jabbered on, but before the interview ended he declared his family was all right and needed nothing at all. But he wanted a little money; just a little. Thus the intemperate are prolific liars! Did you ever know a drinking man whose word could be depended upon? I never have known such. It is not so as to other evil habits. One who violates the second, third, fourth, fifth, sixth, seventh or eighth commandments may be and often is trustworthy in his assertions much of the time. But a sot not only breaks the ninth commandment once, he does so habitually.

Going on, the prophet (lesson v. 13) dwells upon the desolating effects of intemperance upon the nation. The conditions of Israel in the age of Isaiah were revolting and vicious. They were a degenerate and graceless generation. The prophets of the Lord used very, very strong language in description of the nation's debasement. And this is seen in the "Woe" Isaiah here utters against the prevalent practice of intemperance.

"Therefore my people are gone into captivity—they had not yet been carried into Babylon, but Isaiah saw they were fast getting there through their wicked ways. And one of these evil ways was intemperance.

Sometimes we have heard temperance reformers and Christian ministers severely criticised for using language too severe in their addresses on this subject. Indeed they are declared to be as intemperate with their tongues as a toper is with his lips. Perhaps such critics have never had the curse of drink to invade their own households. If they had, I woe they would be less dainty in what they should say concerning the desolating influence of intoxicants.

Last year a great ado was made over the crusade by Mrs. Nation. This is not the place to discuss the different aspects of that violent outbreak. But we may safely rest assured that of those who criticised her and her methods there were few or none whose husbands, brothers or fathers were in the habit of coming home drunk. Until the iron has entered the soul of the home circle in that way soft words may suffice. But after it has so entered the suffering victim will have little regard for rhetoric in denouncing the drink curse.

Maybe the time will come when not merely one lion-hearted woman, but when every Christian minister in the land will lift up his anathema, as Isaiah does in verse 14 of our lesson. He does not pick and choose soft terms to describe the effects of intemperance as he saw them. He declares hell itself is open and swallowing down our sacred things through the drink evil. Not only so, "hell hath enlarged herself and opened her mouth without measure," and the glory of the population and the pomp, everything in high esteem is being engulfed in this maw of hell, the drink evil. He was speaking of the dire results to the nation.

A LETTER FROM AFRICA.

What words are too extreme to describe the effects upon our own and other nations now? While writing the above my eye fell upon an article in an English paper, from which let me quote a little. The archbishop of Canterbury has received a letter from a Kongo native ruler, who has learned enough English to send this greeting:

"Great and good chief of the tribe of Jesus Christ, greeting: The humblest of your servants kisses the hem of your garments and begs you to send his fellow servants more gospel and less rum."

Can any nation continue Christian and pour corruption in a flood upon a poor weak tribe of human brothers? As has been said, "Alcohol is the death of any race." France has been the chief producer of "light wines" and there has been no end of praise of light wines instead of the "hot liquors." But already it is ascertained that France is the heaviest consumer of absinthe in the world, and absinthe is alcohol in its most deadly form. Even the Figaro, which usually has treated all moral questions with flippancy, published lately a grave warning to France, saying the growth of intemperance in France threatens the physical stamina of the nation. The rum bottle will bring down the glory and greatness of any nation, the same as it will that of man.

The deliverance—how shall it be brought about? Not by keeping silent. Not by gently defending the drink habit as inevitable. Dr. Lyman Beecher is reported to have once said: "If one generation could be brought up not knowing the taste

of liquor the drink curse of this land might be overcome." But it will be a long time in the future before this fair hope and fit desire can be realized. Meanwhile we refuse to concede one day or year of right for the rum traffic to continue. Words seem but empty sounds, but it is words that rule the world.

Protesting against the pernicious influence of intemperance may at last prove as effective as the poor widow who appealed to the unjust judge. At last she prevailed and was given her suit, "lest by her continual coming she weary."

Statistics are tiresome in public talk. But a few effective ones give force to argument. So, talk day and night against the drink evil. Tell children of all the wrecked families and fathers you may know. Tell boys that every year employers in great concerns are becoming more careful not to have anyone in their service who drinks. In a body of nearly 2,000,000 of workmen from 70 to 90 per cent. were not taken on until careful inquiry was made of their habits. Probably many of the employers drink themselves. But for their work they want only temperate men.

This is eminently so in all the better positions on railroads. Such facts as these will do more than frighten youth. They will show that sobriety has a steady market value.

TALK OF A NEW CANDIDATE

JOHN W. HAYDEN IS MENTIONED FOR CONGRESS.

His Position Indicates That He May be Regarded as a Receptive Republican Candidate.

There are indications that the republican congressional field in the Twelfth district may be augmented by the addition of another candidate for the nomination in the person of Hon. J. W. Hayden, of this city, now deputy revenue collector.

It is no secret that during the past week or two a number of prominent republicans have approached Mr. Hayden with reference to his making the race and they have urged him to announce himself as a positive candidate. Mr. Hayden has thus far refrained from giving his consent to their announcement of his candidacy and has said that he would not come out in an active canvass for the nomination at this time. Mr. Hayden's position, however, is interpreted to mean that he may be regarded as a receptive candidate. Mr. Hayden has been an indefatigable worker in his party for many years and has a wide acquaintance over the district.

Dr. G. B. McGoogan, of this city, is an avowed candidate for the nomination, as is also Rev. R. C. Jones, of Hometown, and there may be others added to the list within a short time.

LOCAL LINES.

Born, to Mr. and Mrs. Herman Meyers, of South Broadway, a daughter, Mr. Meyers is assistant foreman of The Sentinel composing room.

George Daseier and Gus Freese, Jr., returned last week from a hunting trip on the Ohio side of the state line near Edgerton and excited the envy of their friends by showing up a nice bag of thirty-one quail and two rabbits.

Charles Lotz and Miss Margaret Dickel were united in marriage at the residence of and by Rev. J. N. Field, of the First Baptist church, at 4 o'clock Thursday afternoon. Both bride and groom reside in Fort Wayne.

Mrs. J. W. McLetchie, of 70 West Wayne street, has received news that her son, George Goodwin, formerly of this city, was alive and well. Mr. Goodwin was stricken with yellow fever at Salina Cruz last October, and was robbed of a large sum of money by his attendants.

Mrs. W. J. Vesey, of this city, is making extensive exhibits of the products of the Vesey green houses at the annual flower show at St. Louis, in competition with the best growers of the west. On the opening day Mrs. Vesey's exhibits were entered in ten classes and in each class secured a prize. There were two first prizes on chrysanthemums, two first prizes on carnations and one on roses; second prize on Meteor and Bridesmaid roses and Eaton chrysanthemums, and third prize on Lawson carnations and vase of assorted chrysanthemums.

CHINESE AGRICULTURE.

According to the Chinese accounts, agriculture was not gradually developed from rude beginnings, but has a certain definiteness of origin which it lacks in western history or tradition. It was the invention of the Emperor Shin-Nung, who, succeeding Fuh-hi, the first emperor of China, ascended the throne 2,737 years B. C. It was he who "first fashioned timber into ploughs and taught the people the art of husbandry." He also discovered the medicinal virtue of plants

and instituted the custom of holding periodical markets for the barter of commodities. Whatever basis of truth this tradition may lack it seems to prove one thing, namely, that the art, in the form in which it is practiced today, antedates all recorded history. In the west we may point to such and such an implement or method as having originated at such and such a date. In China no such progress is discernible. Agriculture is today what it was millenniums ago and what it may continue to be for a long time to come.—The Forum.

ROOSEVELT'S RECREATIONS.

The new chief executive is an inveterate walker—indeed, he bids fair to surpass both Harrison and McKinley in this respect—and scarcely a day passes that he does not go for a stroll, which is sometimes of several hours' duration. On these occasions he simply will not tolerate the fostering care of a bodyguard. Several times when he has discovered bicycle-policemen following him at a distance he has dismissed them, and he continually ventures out at the most unexpected hours without giving opportunity for precautionary measures of any kind. President Roosevelt believes that there is scarcely a chance that a guard could act quickly enough to prevent an attempted assassination, and there is also ground for suspicion that he has not a little confidence in his own athletic ability and the cat-like quickness of movement for which he is famous, says Walden Fawcett in Leslie's Weekly.

The president's favorite diversion is tree chopping while in the woods, and when at the white house is to be horseback riding—a pastime which has special attractions at Washington by reason of the beautiful roads which lead from the capital into the hills of Maryland and Virginia. The new president's first horseback ride was taken in company with General Wood, military governor of Cuba, who was his great chum prior to and during the Spanish-American war. The sight of the president on horseback has aroused official Washington to reminiscences. The last president who rode on horseback to any extent since the days of Grant was that other "man of destiny," President Arthur. President McKinley during the first year of his occupancy of the white house went horseback riding on a few occasions, but later he gave up the practice entirely.

IN THE HARVEST FIELD.

Frederic Mistral, the Provençal poet, tells a charming story of the first meeting of his father and mother, says the Youth's Companion. Like all romances it has its like in a more ancient legend, suggesting, even to the scene, the ever beautiful story of Ruth and Boaz. Mistral was born at Maillane, a village at the foot of the Alps. He was the child of a second marriage, contracted when the father was about fifty-five, a marriage of pure romance. This was the meeting of the middle-aged man and the girl who became his wife.

One year, on St. John's day, Maitre Francois Mistral was in the midst of his wheat, which a company of harvesters were reaping. A throng of young girls, gleaming, followed the reapers and raked up the ears that fell. Maitre Francois, my father, noticed a beautiful girl who remained behind, as if she was ashamed to glean with the others. He drew near and said to her, "My child, whose daughter are you? What is your name?"

The young girl replied, "I am the daughter of Etienne Poulinet, maire of Maillane. My name is Delaide." "What! the daughter of the maire of Maillane gleaming?" "Maitre," she replied, "our family is large, six girls and two boys, and although our father is pretty well-to-do, as you know, when we ask him for clothes he replies: 'Girls, if you want finery, earn it.' And that is why I came here to glean."

Six months after this meeting Maitre Francois asked Maitre Poulinet for the hand of Delaide, and of that marriage I was born.

THE CAPTIVE MISS STONE.

Miss Stone, who is a captive in the hands of Turkish brigands, and whose welfare is of world-wide interest, is a Massachusetts woman. It is interesting to learn that before going to Turkey Miss Stone was a journalist and was on the editorial staff of the Congregationalist. An interesting personal picture of her is furnished by Samokova.

The letter from Miss Stone's friend and neighbor follows: "The mountains of Turkey and Bulgaria are full of brigands, and this is not Miss Stone's first experience with them. On two previous occasions I have heard her speak of having been in great peril and having miraculously escaped. I asked her if she had ever told the stories in public, and her reply was that she had never told them but once, and that was when she was the last speaker at some great gathering and she saw that the boys in the front row were very

sleepy. She told enough of one adventure to wake them up, and then went on with her missionary address. Too much cannot be said in her praise. Miss Stone is a remarkable combination of strength—mental, moral and physical, with the tenderest, sweetest and most womanly qualities. Chery as the sunshine, she is always saying pleasant things to brighten up the dull things of life. She has always carried on an enormous correspondence to the wonder of her associates. She will write letters in odd moments, before breakfast, or late at night, or while waiting for a friend, and neglect nothing else. In this way she keeps in touch with a great many different kinds of people. She has always done a great deal of touring, but looking after the Bible women from village to village has increased this work as time has gone on. After leaving Samokova school, she was in Philadelphia and for the last few years in Sannika, Macedonia, where there are many Bulgarians, although under Turkish rule. For some years her work has been mostly with the Bible women, training them and then overseeing their work.

"Mrs. Tsilka, Miss Stone's companion in captivity, was a student at Samokova, then came to America and was at Mr. Moody's school at Northfield, and later took a medical course in New York. Her husband also studied in America and they were married in this country a few years ago and returned to Bulgaria to carry on Christian work."—Rochester Post Express.

AURORAS MADE TO ORDER.

The aurora borealis is a celestial phenomenon seldom seen in these latitudes, but according to a European scientist any family may have one if it is desired. By plunging the negative wire of a powerful induction coil in a vessel of water and bringing the positive wire into contact with the surface of the water, or slightly below it, he has succeeded in creating the perfect aurora borealis, nor northern lights, we have seen in the sky such wonder and admiration.

The flickering streamers, now faint, now brilliant; the dark arc or half circle from which they flow—all the varied phenomena that have puzzled the mind of the observer are accurately repeated on a small scale.

M. Plante thinks that the aurora of our northern skies is produced by a flow of positive electricity through the upper regions of the air into planetary space, the fact that lightning and other similar phenomena are not frequent at the polar regions showing that the discharge is not toward the earth.

He believes that all the planets are charged with positive electricity, and that this flows out from the neighborhood of their magnetic poles. When it meets no resistance it goes off in obscure rays, but when it encounters masses of vapor then it becomes the glorious aurora.

These mysterious lights, waving and dancing in the northern sky, have always been a marvel and puzzle to mankind, and any information that we can gain as to the cause of their coming and going is welcomed by old and young. This beautiful experiment proves that the aurora is but another form of the mysterious force that speaks to us through the telephone and telegraph, that heats our houses, cooks our food, gives us light in darkness and conveys us over land and sea.

CURES BLOOD POISON, CANCER, ULCERS, ECZEMA, ETC. TREATMENT FREE.

If you have offensive pimples or eruptions, ulcers on any part of the body, aching bones or joints, falling hair, mucous patches, swollen glands, sore lips, eating, festering sores, sharp, gnawing pains, then you suffer from serious blood poison or the beginnings of deadly cancer. It is a dangerous condition, but you may be permanently cured by Botanic Blood Balm (B. B. B.) made especially to cure the worst blood diseases. It heals every sore or ulcer, stops all aches and pains and reduces all swellings. Botanic Blood Balm cures all malignant blood troubles, such as eczema, scabs and scales, pimples, running sores, carbuncles, scrofula, etc. Especially advised for all obstinate cases that have reached the second or third stage. Druggists, \$1. Trial treatment free by writing Dr. Gillam, 213 Mitchell St., Atlanta, Ga. Describe trouble and free medical advice given. Medicine sent at once prepaid. Sold by Ranke & Nussbaum, 88 Calhoun St. eod-w.

John W. Gates, the former steel magnate, says automatic machinery for the saving of labor is not used in numerous German factories because the government desires to keep as many people employed as possible, and the manufacturers do not want to incur the displeasure of the government.

FOR FEMALE COMPLAINTS

and diseases arising from an impure state of the blood Lichty's Celery Nerve Compound is an invaluable specific. Sold by Dreier & Bro., corner Calhoun and Columbia streets.

For the Children.

REDHEADED JOE AND QUARRELSOME TOM

Twenty-five years ago I taught school in southern Nebraska, which was only thinly settled in those days. But the few settlers were hardy men and women, living honest lives and going on slowly but steadily to prosperity, and I had a pleasant time among them.

My schoolhouse was a very primitive affair, indeed. It was small, unplastered and unplastered, but had a good floor and fairly comfortable seats, and my pupils, of whom there were twenty-five, were mostly hearty, wholesome boys and girls.

One warm day in spring I opened the windows and doors to let in the genial sunshine and was busy with my classes, when I walked a strange boy whom I had never seen in the neighborhood.

He was thickly freckled, had red hair and was poorly dressed, but was very clean. He came directly to my desk.

"May I come to school, teacher?" he asked, looking at me earnestly.

"Where do you live, my boy?" I questioned.

"Just back here by the edge of the woods," he replied.

"What is your name?" I asked.

"Joe Morton," said he, adding, "We just moved here."

"Well, Joseph," said I, "you may come to school. Come this afternoon and bring all your books."

A bright look came into his face as I said this, but he made no reply and went out as unceremoniously as he came.

He made a queer picture as he went down the aisle. His clothing was patched, his coat was too big for him, and he carried a large, ragged hat in his hand, but held up his head to a self-respecting way, and I felt sure that Joe Morton was good and manly, and I resolved to help him all I could.

I was afraid he might not have a very pleasant time with a certain few of the boys, for, although they really were not bad boys at heart, they were much given to making fun of any newcomer and sometimes made it very unpleasant for a boy who seemed odd or strange to them.

The leader of this set was Tom Atherton, a bright boy, but one who had very little kindly feeling for any one in school, excepting his little sister, Pearl. Pearl Atherton was about seven years old and the most beautiful child I have ever seen. Tom loved her with a love that was almost worship, but to the rest of the pupils he was something of a tease and a torment, always teasing and making fun of some one and sometimes in a most thoughtless, unkind way.

I had many serious talks with him on the subject, but as soon as he was out of the schoolroom he seemed to forget and went back to his old ways.

As Joe went down the aisle I glanced at Tom and saw that his eyes were twinkling mischievously, which I was sure boded no good to Joe; but I thought he would be able to defend himself.

In the afternoon Joe came, and, after I had assigned his lessons, took his seat quietly.

At recess I heard Tom's voice sing out:

"I know a boy whose name is Joe, With boots all out at the toe, toe, toe."

I heard no answer from Joe, and soon Tom said mockingly:

"What am I offering for the hat? Bid quick! The only one left that came out of the ark! How much am I offered? Who'll make it one dollar? Who'll make it one dollar?"

And so it went from day to day, Tom saying unkind, jeering things as soon as he supposed himself out of sight and Joe taking it quietly. Sometimes a quick flush would pass over his face and his lips would quiver, but no word escaped him.

I thought best to appear not to know what was going on between them, thinking it would soon wear itself out and perhaps Joe would feel better to think I did not know, but I kept him with me as much as I could and grew to like him very much.

He made rapid progress in his studies, and his everyday life showed strength of character.

I could always depend on him to tell the truth on every occasion, and, looking into his earnest face, I would forget the baggy clothes, the fiery red hair and the ragged hat.

Not far from the schoolhouse was a wide, deep stream of water which ran dank and turbid in the spring. It was crossed by a footbridge with a railing on both sides. Nearly half the children crossed this bridge to get to school.

On pleasant days we often sat on the bank to eat our dinner, which we brought with us.

One lovely day in early June we were seated there after eating our dinner. I was reading a book, and the children were amusing themselves in various ways.

Pearl Atherton strolled alone across the bridge to look for violets, which sometimes grew on the opposite side.

In coming back she stepped on the middle of the bridge, threw some leaves into the water and leaned against the railing, watching them as they floated away.

The railing was old and in some manner had become so loosened that it gave way with her weight, and, with a piercing cry, she went down and out of sight.

Tom stood upon the bank, white and speechless, with a look of agony I shall never forget. He could not swim and so could never reach her.

But at the first cry Joe had stripped off his coat and in a minute plunged in and swam steadily toward the spot where the little golden head went down.

He grasped her as she rose to the surface the second time, raised her head out of the water and slowly swam with her to the bank.

When I took her from his arms and laid her upon the grass, the beautiful face was white and still, but she had been in the water such a short time that a vigorous rubbing soon made her open her eyes and speak to us, and she was soon talking in her usual manner.

We wrapped her up as well as we could and sent her home with a neighbor who was passing in a wagon.

Joe ran home, changed his clothes and came back none the worse for his wetting.

After the bell rang I missed Joe and Tom from their seats.

The back door was ajar, and I looked out.

There stood Tom, with tears in his eyes, holding both Joe's hands.

"Can you ever forgive me?" he was saying. "I have been too hateful for anything, but I'm awfully sorry, Joe. If you'll forgive me, I'll be a better fellow after this. If Pearl had been drowned, I don't know what I would have done. Oh, Joe, I thought I would die when I saw her go under the water. I can't ever thank you enough!"

"I don't want any thanks," said Joe, putting his hand on Tom's shoulder. "It is all right. I was glad to do it. Don't say anything more about it, please."

They talked a few minutes longer, but I did not hear what they were saying. Then they remembered that the bell had rung, and they came into the schoolhouse.

From that day Tom was a different boy. He was quiet and kind with the

HE GRASPED HER AS SHE ROSE.

other pupils, and he and Joe were fast friends. He grew earnest and manly from seeing Joe's honest, upright life.

When the term closed, I came to my eastern home and after a few years entirely lost track of my pupils. I did not know whether they had drifted or what they were doing, though I often wondered.

In the fall of 1890 I took a trip along the Pacific coast and one Sunday morning, in company with a friend, went to one of the finest churches I had seen in that locality.

As the minister began to speak I thought I saw something familiar in his face and manner, but could not place him. He gave one of the most earnest, eloquent sermons to which I had ever listened.

I sat and wondered where I could have seen that man before. Suddenly it came to me. It was the look and manner of my pupil of years ago, Joe Morton.

I waited to speak to him and was invited to call at his home the next day. And there I found him the same Joe in heart, nobly, tenderly caring for his feeble, white-haired mother and invalid father.

He has made for himself a name not soon to be forgotten in the state in which he lives. He is a strength and inspiration to his friends. He has written several books that stand high in the literature of our country, and once he was only a ragged, barefooted boy. What may you not accomplish if you stand for the right and "try, try again?"—Golden Days.

Why Girls Can't Throw Straight.

The difference between a girl's throwing and a boy's is this—the boy crooks his elbow and reaches back with the upper part of his arm nearly at right angles with his body, and the forearm at about an angle of 45 degrees. The direct act of throwing is accomplished by bringing the arm back with a sort of snap, working every joint of the arm from shoulder to wrist. The girl throws with her whole arm rigid, the boy with his whole arm relaxed. Why this marked and unmistakable difference exists may be explained by the fact that the collar bone in the female anatomy is some inches longer and set some inches lower down than in the masculine frame. The long, crook, awkward bone interferes with the full and free use of the arm. That is the reason why a girl cannot throw a stone with any certainty of hitting the object she intends to strike.—Family Herald.

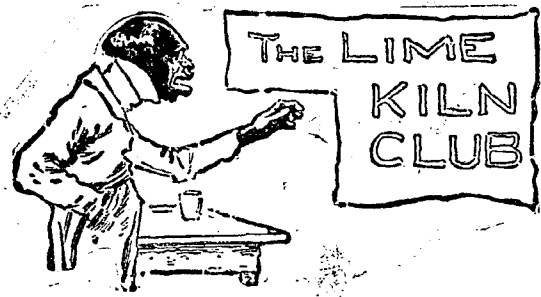

The Sketch Was Incomplete.

Maggie was having her drawing lesson, and one day her governess sat down in a chair and told Maggie to try if she could make a sketch of her.

After a time she walked across to see how the sketch was getting on.

"Why, Maggie," she exclaimed, "you've drawn me standing beside the chair instead of sitting down!"

"But I hadn't got to that yet," she explained. "I was just going to bend you down when you came and looked."

[Copyright, 1897.]

AFTER the meeting had been regu- larly opened, Brother Gardner an- nounced that the regular routine of business would be suspended in order to listen to an address by Hon. Recol- lection Johnson, of Goldsboro, N. C., who had arrived in New York two days previously. The title of the address was given as, "Does Riches Make Happiness?"

"Befo' dis pussion, who am now in de anty-room, is let into de hall, I want to say a few words," observed the president. "In de fast place, I want Elder Toots and Jedge Cad yver to keep awake doo'rin' de lecture. It's an insult to a man to go to sleep and snore while he am talkin'. In de next place, if Shindig Watkins frowns dat cucumber which he has got in his pocket at Samuel Shih, I shall be lookin' right at him, and befo' de meetin' closes his fucher life will be made wretched. Kurnel Cabiff an' Jedge Chewso had better git as far from each odder as possible, an' I shall depend upon Givendam Jones to keep his eye on Uncle Bradley an' de ole man Taylor. De honorable gen'l'man will now be brung in."

The man from the "Tar-Heel" state created a favorable impression at first glance. He was the beau-ideal of an orator—three stories high, loose in the knee joints and a wild expression in his eyes. As he took his place on the platform, it was noticed that he toed out and covered a great deal of space with his feet, and this was also taken as a further favorable sign of his intellectual greatness. There was no sign of nervousness in his actions, and it was clearly evident that he was in the habit of addressing large and critical audiences. He poured out a glass of water, carefully scraped a nutmeg into it, and, after removing his coat, necktie and collar, he advanced to the front of the platform and began:

"My frens," he said, as he looked his fingers together and then looked benignly down upon the shiny bald

cranium of Judge Cantelope White, "does riches make happiness or does she not? At de fast go-off, it would appear dat she did. When we see a rich man ridin' in his kerridge, his arms folded, his head up high, an' his black hosses prancin' along as proud as peacocks, we am apt to envy him an' wish we was in his place. We see only outside appearances. If we could foller dat passon to his home of lux- ury we should take a different view of de case. De minit he gits into de house his wife wants to teen thousand dollars fur new dresses; de chillun cry fur him to buy an elephant; de cook has broke 12 plates while washin' de dishes, an' de gas bill is ober seven dollars mo' dan it was de month befo'. De proud smile on dat rich man's face flies away an' he goes out behind de back an' kicks hisself an' wishes he had nebbin bin bo'n. (Cheers, shouts and wild applause.)

"You go into a rich man's house," continued the orator, "an' yo' see lace curtains, kivered chairs, fine carpets an' heaps o' brick-a-bats. Some o' 'em has got as many as five beds upstairs, an' has to go down cellar yo'll find a half bar'l o' pork and 15 bushels of 'aters. Nuffin seems wantin' to com- plete dat man's happiness, but dat's all on de outside. He may be sittin' around on dem fine carpets or lookin' at hisself in one of dem lookin'-glasses, which neber costs less dan nine dol- lars, when he gits a telegraph. It opens it to find dat somebody has robbed de grave of his gran'fadder who in Chicago, and demands one million dollars to restore de body. [Applause so vigorous that two legs fall out of the stove and a serious calamity was narrowly averted.]

"I war' in de private offfs of a mil- lionaire de odder day. He was cuttin' de coupons off his bloated bonds. Dar' war' 17 bags of gold on his right hand an' 16 bars of silver on his left. [Sup- pressed excitement.] Dar' war' 30 bushels of diamonds piled up behind de stove, an' about two bars of pearls an' opals ober by de washstand. [Whis- pers of "Xum! Yum!"] Dat passon owned de awfulest biggest plantation in de hull souf. He had six million hosses an' cattle. He owned 60 banks an' six railroads. He owned all de

BEWARE OF GINTEMENTS FOR CATARRH THAT CONTAIN MERCURY

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous sur- face. Such articles should never be used ex- cept on prescriptions from reputable physicians, as the damage they will do is too great for the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood in removing all impurities from the sys- tem. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co., Proprietors. Sold by Druggists, price, 75c. per bottle. Hall's Family Pills are the best.

SAVED BY A TOY.

A Little Tin Watch That Proved an Efficacious as a Temperance Pledge.

It was a hot, sultry day in August, so hot that most of the children were kept indoors; but in some way Babe Sweet and James Holton managed to be out. It is probable that they had slipped out of the large hotel unob- served by their nurses. At any rate, they were having a glorious time play- ing in the sand on the shore.

James remarked that the sand was lots finer in front of the hotel. Babe peeped out from behind the boat house and answered: "I rather play here."

"Yes, so would I," answered the boy. Whether it was because the boat house afforded shade, or because they didn't want the other children to join them, it is hard to tell, but probably the true reason was that the boat house sheltered them from the hotel, and so from the mother's and nurse's eyes.

James Holton and Bertha Sweet (for that was Babe's real name), were strangers only three weeks before. In the middle of July little ten-year- old James had come to the Thousand Islands with his parents to spend the warm summer months. At first he thought it rather dry. He did not get along with the children. It was too hot to have any fun, and he wished he was back home.

One day about two weeks after his arrival, he was sitting on the steps

I PULLED IT OUT.

wishing for something to do, when a carriage drove up. An elderly gentle- man alighted and assisted a very stylish lady. She looked like an invalid, for she leaned heavily on the gentle- man's arm. Besides these two, there was a very attractive little girl of about six.

"Oh, papa," she exclaimed, "can you carry this fruit? I have these flowers and Dolly."

"Not now," replied the gentleman, kindly. "Wait until I see mamma in, and then if nurse is not here I will come back and help you."

"All right," replied the girl. Just then James arose, walked down toward the carriage and offered to help the maiden. Babe (for it was she) gladly accepted his help, and thus began their friendship. These two seemed to enjoy each other's society better than that of the other children. Wherever you would see one you were sure to see the other.

On the day that our story opens arose their first dispute. After they had played together for several hours beside the boathouse they wandered down nearer the water. They were busy playing and did not notice the rising tide until Babe jumped up and said: "Why, my dress is wet." She dove her hand into her pocket for her handkerchief; as she pulled it out a string of beads fell into the water. They were immediately washed about two yards from shore, where they caught on some seaweed.

"Oh, my beads!" exclaimed Babe; "get them for me, James."

"What are they good for?" asked the boy.

"Oh, they are Dolly's necklace," an- swered Babe.

"Well, it won't hurt her to lose them," replied the boy.

"Oh, James, won't you get them?" begged Babe. "I will give you anything you want if you will only get them."

"The only thing I want is a watch and chain, and you won't get that," he answered.

For an instant Babe's face clouded; then it brightened, and she said: "I will give you a watch and chain if you will only get the beads."

"Honest?" he demanded.

"Yes, honest, truly," she said.

The beads were soon restored to their owner, Babe's tears dried and she was happy again.

In a few minutes Mr. Holton came after the children. He said: "They have been hunting everywhere for you."

James did not even seem to mind the scolding he received on account of his wet shoes, for the thought of the watch and chain was uppermost in his mind.

"Now, don't forget, Babe," were his parting words.

"I will give it to you at ten," she re- plied.

When James went down to tea he found a little box under his plate. Well he knew what it was. He didn't want his people to see it, so he put it in his pocket. After supper he hurried off by himself to have a peep at his new treasure. When he opened the box he found a little tin watch and chain.

His eager face clouded, for he had ex- pected a real watch and chain. He said he would take it right back to Babe; but something made him change his mind, and instead he put it in his

pocket and said: "It is just like a girl."

The iceles have formed their crys- tals and the buttercups have bloomed a score of times since then.

Two men in uniform were standing on the porch of the hospital. The taller and darker one asked his com- panion how Capt. Holton was.

"Well," replied the companion, "the doctor says he will live, but it was a narrow escape. The bullet caught in a little tin watch he had in his vest pocket."

Two weeks after a merry crowd of soldiers were gathered around the bed- side of Capt. Holton to hear the story of the little tin watch, which the reader already knows.

James replied to the soldiers' eager questions: "Yes, at first I thought the watch worthless, but I didn't want to hurt the girl's feelings, so I kept it. As I grew older I grew dearer to me. I have that little watch to thank for making me what I am."

"Boys, when I was about 25 the wine cup was dearer to me than respect, mothers or sisters; yes, dearer than all else, except that little toy."

"Let me tell of three different times that it saved me from ruin. Once I was so drunk that my comrades were making sport of me. They asked me the time. I pulled out the little tin watch, at which they gazed and made fun of it. I didn't care what they said to me, but I wouldn't let them make fun of the watch; so I got up and left, vowing never to go back to a place where the inmates would make fun of my watch. For several months I kept my vow; but at last temptation got the best of me. I went to an un- known saloon and ordered a good big drink. I went to pay for it, but as I was hunting in my pocket for change my fingers touched the watch. It burned like fire. I turned and left the saloon, leaving the drink unpaid for and untouched."

"The last time it saved me was shortly after I joined the army. This time it not only saved me, but ten good, worthy soldiers. We had been in camp several weeks, and such cold, damp ones that we were almost dead. So ten of us decided to get permis- sion to visit the neighboring town and have a good old time. We gained per- mission and made for a saloon. We were all having our first round, when one of the boys asked if the others had seen my little tin watch. They hadn't, but were anxious to. As I pulled it out to show to the boys it was like an angel's face warning me. I pushed the glass from me and related the story I have just told to you. When I was through there were tears in every eye. One of the boys said: 'Amen; we all rose as one body, leaving the glasses half empty, and left the sa- loon. The ten of us then made vows never to let liquor overcome our bet- ter selves.'

"So you see, boys, that little watch is dear to me. It has not only saved my life, but my character."

"Now tell us about the girl," de- manded one of the boys.

The captain blushed, and replied: "Some day she will be my bride." Florence Tilden, in Banner of Gold.

TALKS TEMPERANCE.

Chamberlain Declares That Drunkenness Cannot Be Put Down by Coercive Legislation.

Mr. Chamberlain, says the New York Tribune's London representative, de- voted himself in a recent address to a Birmingham (England) temperance society to showing that it is not by coercive legislation that drunkenness can be put down, but by gradual im- provement of the physical and moral condition of the people. If the figures which he read are to be relied upon, there are 3,000,000 total abstainers in Great Britain at this moment, which is proof that the heaven of moral suasion is working rapidly. He re- ferred to his old doctrine of municipal control of public houses, and suggested that the sale of intoxicants by grocers and clubs should be subject to the approval of the licensing au- thorities. No scheme of reform which assumed the possibility of con- fiscating the interests of the pub- licans would, he asserted, with the emphasis of conviction, ever be tol- erated by public opinion.

ITEMS.

The Topeka, Kan., correspondent of the New York Tribune says there are no drunkards in the state. The clear-eyed, reeling specimen is a thing of the past.

The state of New York had the largest number of retail liquor deal- ers last year. Illinois came second and Ohio third. The total number in the United States was 296,000.

The New York Sun testifies to the steady increase of sobriety of the American people, resulting from a "better understanding of the evil physical effects of intemperate al- coholic indulgence."

Mrs. Ballington Booth says there is a steady increase in the places ex- pressly licensed for the sale of in- toxicating drinks. The city saloon swells the annual expenditure for liquor to \$1,220,000,000.

The Periculous Treating Habit. The treating habit, certainly re- sponsible for much of the intemper- ance that obtains in American cities, is again having hurried upon it the anathemas of pulpit and press. Surely, save that it is a courteous and kindly practice, there is nothing in the treating habit to recommend its continuance. If it ever had a day of usefulness it has vanished and the practice ought to follow it into ob- livion.—Savannah News.

Sad. Mamma—Don't cry, Tommy. I'll give you some more cake.

Tommy—But, I—boo—boo—can't eat any more.—Ainslee's Magazine.

The Falls of Glomen, in Norway, are to be utilized for the operation of an electrical generating plant almost as large as the one at Niagara.

CASE OF MIDDLEMAN.

It was about ten o'clock in the fore- noon when I reached the Widow Skin- ner's shanty and found the widow smoking her pipe at the door and six or seven children playing around. After we had passed the compliments of the day she looked me square in the eye and asked:

"Stranger, or ye ridin' around the kentry and lookin' fur a wife?"

"No, ma'am," I replied.

"Married man?"

"Yes."

"No chance to git ye?"

"None whatever. Are you looking for a husband?"

"I am. I am a woman who talks straight from the shoulder, and I'm free to say I'd like to git married agin. I kinder like the looks o' ye, but if there's no show then it's no use. D'ye see that kivered wagon down thar?"

"Yes."

"Wall, that outfit belongs to a man with five children, and as I haven't seen no woman about I reckon he's a wid- ower. He's hump-backed and bow- legged and don't 'pear to be much of a critter, but I'd marry him if he axed me."

"And—you—you?"

"I want him to ax me, and I ain't goin' to beat around the bush. He seems to be skeared to come to the shanty, and it wouldn't look well fur me to go down to his camp. Stranger, will ye do me a favor?"

"I certainly will."

"Then ride down thar' and hev a talk with the man. If he's got an old woman that sittles it, but if he hain't then I want him. Talk straight at him and make him talk back. I've got 100 acres of land, six children, and am 43 years old. He's got five children and that'll make seven, but I guess he kin take them away sumwhar! Don't be over half an hour about it, fur I've got five acres of corn that needs hoein' powerful bad."

I rode down to the outfit to find a very common-looking man and five very dirty children. The man explained that he had come up from Arkansas and was looking for a claim, and that his wife had been dead a year or more. Remembering the widow's injunction I plumply asked him:

"Do you want to marry again?"

"I mought," he replied; "whar's the woman?"

"Up in that shanty."

"What's she got?"

"One hundred acres of land and six children. She'll take you if you will have her."

"Would ye say I was gittin' a squar' deal?" he asked, after thinking it over.

"I would. You are not much of a man, as men go, and you ought to jump at the chance."

"Yes, I'm a pore critter, and I reckon it's as yo' say. I was gwine to drive on to-day, but I reckon I'll stop and be married. Lead on, stranger, and the children might as well cum along."

"They formed in procession behind my horse, and when we reached the shanty the widow and her brood were out to greet us. She gave the man a looking over for a minute and then said:

"Wall, you look wuss than I thought fur, but I'll stick to my word. Shall we git married to-day?"

"Might as well, I reckon," replied the man, as he cuffed at one of his chil- dren.

"All right; ye kin go down and drive up yer wagon, and, stranger, ye'll find a preacher jest as ye cum to the river, three miles away. Send him along to marry us, and thar's no use sayin' I'm eternally obliged fur yer trouble and hope ye'll live to hev at least two mo' wives!"

Colins Mixed in Transit.

Mrs. Samuel Furman's remains were shipped from Parkersburg, W. Va., to Cambridge Springs, Pa., for interment several days since. The same day the body of a man named Ellsworth was shipped from Sistersville to Erie, Pa.

When the coffin supposed to contain Mrs. Furman's remains was opened at Cambridge, the family was astonished to find that it contained the body of a man. The man proved to be Ellsworth. The coffin had got mixed somewhere, and it took several days to straighten the affair and get the bodies to their respective places of burial. Connected with this is the strange coincidence that Mrs. Furman and Ellsworth had at one time been next-door neighbors.

Has Many Descendants.

Mrs. Sallie Shiver, who lives near Al- bany, Ga., has 235 living children, grandchildren, great-grandchildren and great-great-grandchildren. In addition to these 75 of the old lady's descend- ants are dead, making the total number 310.
